Report of The Minister of Education 1964

To The Honourable W. Earle Rowe, P.C.(C)
Lieutenant-Governor of the Province of Ontario

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1964, reviewing, in summary, the work of the divisions and branches which are responsible for the organization and supervision of the educational system. This account of progress is supported by the appropriate general and comparative statistics. In presenting it, I wish to make reference to certain significant innovations which have been introduced during the past twelve months to strengthen the programme of the Department.

In September, 1964, a total of 1,673,774 pupils enrolled in the elementary and secondary schools of the provincial system. This number exceeded last year's figure by 76,400, an increase made up of 45,309 in the elementary schools and 31,091 in the secondary schools.

In the elementary schools, the demand for teachers was approximately matched by the supply, except for some shortage in the separate schools where the increase in pupil enrolment is particularly marked. Enrolment at the Teachers' Colleges preparing elementary-school teachers reached 6,462. A specially appointed committee has begun a study of the training of elementary-school teachers. Its task will be to recommend whatever immediate changes may appear necessary and to submit an improved programme which could be implemented in steps over a period of years.

Construction of school buildings has shown the influence of two parallel trends. On the one hand, rising public expectations have called for larger and more completely equipped elementary schools. The development of central graded schools in rural areas is an evidence of this trend, and in this field the rate of building will doubtless accelerate rather than drop. In the secondary-school sphere, on the other hand, the demand for more technical-vocational accommodation is the outstanding characteristic. Ten new buildings and 36 additions to existing schools completed during the year provided 17,400 places for pupils seeking vocational or arts and science programmes. As the peak in the provision of technical-vocational facilities recedes, the volume of secondary-school construction should resume a more normal pattern.

In the past twenty years, school construction has required a capital expenditure of more than one billion dollars. The scope of this past, as well as prospective, investment, coupled with the need to assess advances in materials, methods and teaching techniques in relation to cost, brought about the establishment in the Department during the past summer of a new Division of School Planning and Building Research with wide terms of reference.

Legislation was passed during the year under review to place the administration of rural public schools on a township unit basis. From the beginning of 1965, rural public schools in the organized townships of the Province will be operated by township school boards rather than by three-man boards for each school. This pattern of school organization had already been voluntarily adopted

by more than half of such townships prior to 1964. Provision has also been made for the appointment of county consultative committees which will study the feasibility of combining township areas into larger units, and will present recommendations to the county councils for their consideration and possible action in this regard.

Further extension of the Reorganized Programme of Studies for Secondary Schools during the autumn made its three-branch curriculum available in four-year and five-year streams in each of Grades 9, 10 and 11. A generous diversification of courses, some of them with a strongly contemporary flavour, has already had its effect in lifting the retention rate in the schools. It has also intensified the demand for teachers of vocational subjects.

How much the teaching of French as a second language for English-speaking pupils has grown in importance was indicated during the year by the appointment of a Director of French Instruction to co-ordinate, and give leadership, in this subject in elementary schools throughout the Province. By late autumn, French was being offered to English-speaking pupils in schools controlled by 184 public and separate school boards. The courses affected an enrolment of 138,984 in regular classroom grades, an increase of nearly 35,000 over the previous year's figure; an additional 1,763 such pupils were receiving French instruction in special classes.

At the end of December, 1964, the Technological and Trades Training Branch had been in existence less than two years. In that short period and especially in the past twelve months, the rapid growth of its activities has demonstrated that the operation of the Federal-Provincial Technical and Vocational Training Agreement has been and is meeting pronounced needs in the educational scheme of the Province. The scope of the Branch spans technology, industry, business management and retraining—and the last of these is one of the key labour problems of this century. Enrolment beyond existing capacity was reported in 1964 from more than one of the Institutes of Technology. The Ontario Vocational Centre in London was officially opened and the Eastern Ontario Institute of Technology in Ottawa moved into a new building last autumn. At the same time, Ottawa's Ontario Vocational Centre also admitted its first students. During the year, Ryerson Institute of Technology became the Ryerson Polytechnical Institute, administered—like the Lakehead College of Arts, Science and Technology—by its own Board of Governors. Planning proceeded for a new Hamilton Technical Centre which will provide a new building for the Institute of Technology and a new Ontario Vocational Centre on the same campus.

In the autumn of 1964, the five Institutes of Technology enrolled 2,017 full-time and 1,665 evening students. At the five Vocational Centres, total enrolment stood at 2,459 full-time and 2,383 evening students. Ryerson, in its new status, registered 3,304 full-time students and a further 6,500 in evening courses.

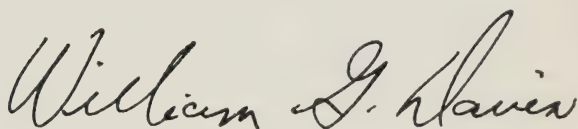

Overshadowed, perhaps, by the main events of the year, but no less important, were four other moves: the appointment of an Implementation Committee to press on with further studies along lines suggested in the Grade 13 Report; a new plan, effective in 1965, to underwrite the operating costs of schools for retarded children wholly from public funds; the allocation of grants by the Province to aid school boards in providing text-books for students in Grades 9 and 10; the appointment of a Director of Elementary School Library Services to give leadership in that field.

Financing of the numerous educational plans and projects across the Province was materially assisted by the implementation of the new Foundation Tax Plan. Under the terms of the Plan, \$285,400,000 was provided in the Estimates for distribution to school boards in legislative grants. It was the biggest outlay in such grants ever made in the history of Ontario.

Formidable problems in communication between the Department and all those interested in education have been fostered by a variety of factors: the unprecedented expansion in the numbers of students, teachers and schools; the exploding growth of knowledge; the social implications of technological advances; the increasing complexity, perhaps, of life itself. The new Information Branch, set up with its own Director in the summer, is designed to provide a channel for a developing two-way interchange of information on educational activities, policies and plans between the Department on the one side, and, on the other, the public, trustees, professional publications and the news media.

Education, today, must be a flexible process, operating as it does under a multitude of changing influences, many of them novel, some revolutionary. Upon the results of that process, more and more, depends the economic and social health of a people. There is now widespread recognition in the modern world of the vital importance of informed educational planning. To assure continued attention to such planning and to provide time and facilities to personnel for this purpose, a Policy and Development Council was instituted during the year under review. The duties of the Council will be to conduct a continuing examination of Department policy, to initiate studies where required, and to report its findings and recommendations to the Minister. In the long perspective of history, the establishment of this Council may prove to be one of the most significant events of the educational year.

Respectfully submitted,

A handwritten signature in dark ink, reading "William G. Davis". The signature is written in a cursive style with a large, prominent "W" and "D".

Toronto, December 31, 1964.

Minister of Education

Elementary Education

ENROLMENT

During the past year, the enrolment of Ontario elementary schools increased by 45,309 to a total of 1,278,473 pupils. Of these, 925,068 were enrolled in public schools and 353,405 were enrolled in Roman Catholic separate schools in September, 1964.

SUPERVISION OF ELEMENTARY SCHOOLS

The elementary schools of Ontario are under the supervision of 365 school inspectors. There are 214 provincial inspectors located in 102 centres throughout the Province, and 151 municipal inspectors employed by 44 local school boards under the provisions of Section 81 of The Schools Administration Act.

With the increase in the enrolment of the elementary schools, the total number of inspectors has increased by 20 during this past year. Nine of these additional inspectors are employed by local boards. Of the 214 provincially-appointed inspectors, 129 serve the public schools and 85 serve the Roman Catholic separate schools.

In October, the tenth in-service programme for newly-appointed inspectors was conducted by the Department of Education and was attended by 25 provincial and 9 municipal inspectors. In addition to providing opportunities to meet the officials of the Department and to become acquainted with the administration of the Department, the one-week programme this year included lectures on the new approach in mathematics.

Earlier in the year, all elementary school inspectors in the Province attended a two-day seminar concerned with changes in the mathematics programme, organized by the Elementary Education Branch and conducted by officials of the Curriculum, Professional Development and Teacher Education Branches of the Department at four teachers' colleges.

The assistant superintendents in the Elementary Education Branch of the Department maintain constant liaison with the inspectors throughout the Province, and, as time permits, visit with inspectors in their respective inspectorates. The improvement in the qualifications of many elementary school principals and the release of these principals from some classroom duties have resulted in an increased amount of supervision at the local level.

The joint supervision by principals and inspectors, and by officials of the Elementary Education Branch, assists materially in maintaining standards in the elementary school classrooms throughout Ontario.

THE TEACHING OF FRENCH TO ENGLISH-SPEAKING PUPILS

At the end of November, 1964, French was being taught as a second language to English-speaking pupils in schools operated by 184 public and separate school boards. In almost one-third of these boards, French is introduced at the Grade 5 level, with Grades 3, 4 and 7 also frequently noted as levels for introducing the language.

There were 138,984 pupils in the elementary schools receiving this instruction in regular classroom grades and 1,763 pupils in special classes. Special or itinerant teachers employed by boards to teach this subject numbered 269. In addition, 792 regular classroom teachers carried on the teaching of this special subject. It is clear that the scope of the programme for the teaching of French as a second language to English-speaking pupils is broadening. Effective July 1, 1964, a

Director of French for English-speaking Classes was appointed to co-ordinate this subject in the elementary schools.

In the autumn of 1963, a representative Departmental French Committee was appointed to investigate and report on the teaching of French from Kindergarten to Grade 13. The recommendations of this committee will receive very close consideration with respect to courses of study, teacher supply and certification. Meanwhile, the supply of teachers for the elementary-school programme is increasing. Seventy-five teachers successfully completed the second summer course for this subject in 1964, and a pilot project, inaugurated as part of the winter course at the Ottawa Teachers' College attracted some 40 candidates.

ELEMENTARY SCHOOL LIBRARY SERVICES

The importance of a comprehensive school library service in the elementary schools has been additionally recognized by the Department during the year under review through the appointment of a Director in this field, through extended grants for books and through a continuation of the policy of making available grants on expenditures for libraries in schools of twelve or more classrooms.

During the summer of 1964, the third course for elementary school teacher-librarians was successfully organized and carried out under the guidance of the Director, with 130 teachers enrolled. Boards are taking increasing advantage of the legislative grant available to the board of any elementary school of twelve or more classrooms which provides a central library of at least classroom size. During the past year, approximately 54 central libraries have been added to elementary schools in Ontario. The \$1.00 per pupil grant for library books has been extended to all boards.

TRANSPORTATION

The steady increase in transportation services which has been maintained for a number of years continued in 1963-64. During the school year, elementary school boards provided transportation for 154,578 pupils, an increase of 18 per cent over the figure for the previous year. Included in this number were 8,685 secondary school pupils residing outside any high school district.

Fifteen per cent of the pupils transported by elementary school boards had homes within 2 miles of the school which they attended; 42 per cent lived from two to four miles from school; 21 per cent from four to six miles; 13 per cent from six to nine miles; 4 per cent from nine to twelve miles; and 5 per cent of those transported travelled a distance of twelve miles or more to school. Vehicles owned by school boards were used to carry 27,868 pupils, representing 18 per cent of all pupils transported by elementary school boards.

BUILDING PROGRAMME

Elementary school accommodation was increased by 77,385 pupil places in 457 new buildings and additions at an approximate cost of \$71,145,000.

From 1945 to 1964 inclusive, 948,550 pupil places have been provided at an estimated cost of \$695,002,000.

TRUSTEE ORGANIZATIONS IN ONTARIO

A summary was prepared in 1964 of the number of school boards which were members of the affiliated organizations of the Ontario School Trustees' Council in the previous year; the results are tabulated below. Each organization listed appoints two representatives to the Council.

1963

Organization	Secondary	Public	Separate	Total
The Associated Secondary School Boards of the Province of Ontario	92	nil	nil	92
L'Association des Commissions des Écoles bilingues d'Ontario	nil	21	300	321
The Ontario School Trustees' and Ratepayers' Association	90	615	3	708
Ontario Separate School Trustees' Association	nil	nil	303	303
The Public School Trustees' Association of Ontario	18	476	nil	494
Ontario Urban and Rural School Trustees' Association	83	72	7	162
Northern Ontario Public and Secondary School Trustees' Association	33	53	nil	86
TOTALS	316	1,237	613	2,166

LARGER UNITS OF ADMINISTRATION — BILL 54 — 1964

The passage in 1964 of Bill 54 by the Provincial Legislature was a milestone in the development of elementary education in rural Ontario. As a result, effective January 1, 1965, the township became the general unit for the administration of rural public schools. In the counties, the number of rural school boards was reduced from 1,850 to 423 and in the districts the total fell from 233 to 166. The Bill provided for the inclusion in the township school areas of rural union school sections and of urban municipalities with populations of under 1,000 or with fewer than a hundred pupils of average daily attendance in the public schools.

Legislative provision has also been made for the formation, on a permissive basis, of county school areas in the southern part of the Province and of district school areas in the north. These are areas larger than those presently required under Bill 54 and may be set up on the recommendation of consultative committees. The appropriate by-laws will be enacted in Southern Ontario by the county councils and in Northern Ontario by municipal councils, with the subsequent approval of the Minister.

The small rural school section has served Ontario well, but the superiority of township school areas has become evident from experience gained since World War II. Chief among the numerous advantages of larger units is that they provide for more broadly based financial support through wider assessment, all of which is available to assist in the education of every public school child in the area. Although the 1964 legislation does not refer to centralization of accommodation, there is every reason to believe that, with greater availability of local financial support on a broader basis and with continued provincial legislative grants on a generous scale, the trend towards rural central schools will be accelerated under the township school area boards established by the new legislation.

Secondary Education

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1964, was 395,301, an increase of 31,091 over the total in September, 1963. The enrolments by branches or courses were as follows:

Arts and Science.....	234,487
Business and Commerce.....	79,330
Science, Technology and Trades.....	60,645
Occupational Programme.....	12,474
Special Academic Courses.....	1,315
Special Vocational Courses.....	6,187
Ryerson 1st-yr. Technical Courses.....	345
Ryerson 1st-yr. Business Courses.....	134
Others.....	384

The total number of full-time teachers (including principals) in September, 1964, was 19,205, an increase of 2,035 over the number in the preceding year.

TRANSPORTATION

During the school year 1963-64, secondary school boards provided transportation for 93,028 pupils. This represents an increase of 11.9 per cent over 1962-63. These pupils were transported over 2,276 routes at a cost of \$48,020 per day.

Provision has been made for a secondary school which does not provide vocational education to transport those of its resident pupils who elect to take vocational courses to a secondary school offering vocational training in another high school district.

THE TECHNICAL AND VOCATIONAL TRAINING AGREEMENT

The demand for vocational facilities provided under the Federal-Provincial Technical and Vocational Training Agreement continued at an undiminished rate throughout the year. From June, 1961 to December 15, 1964, 308 different building projects, providing 150,035 pupil places, had been or were being processed. These projects included both new vocational schools and vocational additions to existing secondary schools. There are now 147 boards involved in vocational building projects under the Agreement, of which 107 had not previously offered a technical or occupational programme.

SECONDARY SCHOOL BUILDING PROGRAMME

Ten new secondary school buildings and thirty-six additions to existing secondary schools were completed during 1964. These provided 17,430 places for pupils enrolled in both vocational courses and the arts and science programmes. The cost of these new buildings was approximately \$40,023,000.

REORGANIZED PROGRAMMES OF STUDY

The reorganized programmes of study for secondary schools which were introduced in Grade 9 in September, 1962, reached the Grade 11 level in September, 1964. Evidence indicates that students and parents have welcomed the diversity of opportunities and programmes and that many students are remaining in school because they have found courses there suited to their needs, interests and abilities.

The Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario has continued to stimulate the building of vocational schools and vocational additions to schools. Through the financial aid furnished by the plan, a number of municipalities have been enabled to provide a variety of educational opportunities for their young people which would otherwise have been denied them. The majority of secondary schools in the Province now have at least two programmes of study in operation or are within reasonable transportation distance of large secondary schools which are able to provide all or most of the available programmes.

New optional courses have been prepared and are being offered for the first time in Grade 11 Four-year Programmes in a few schools. They include: Geology; Biology; World Politics; Man in Society; Modern Literature; Theatre Arts; and Speech Arts.

PROVINCIAL STUDENT-AID PROGRAMME

In the fiscal year 1963-64, financial assistance to the amount of \$4,865,-182.50 in scholarships, bursaries and loans was provided for 13,642 students. This student total represents an increase of 2,472 over the number who were assisted in the previous year. The Federal Government contributed \$100,000 to aid university students, \$30,637.50 for Institute of Technology students and \$9,272.50 for vocational teachers-in-training. A number of students received both a bursary and a loan.

Of the amount indicated above, the sum of \$1,948,991.50 in free gifts was awarded in the form of scholarships and bursaries. Loans amounting to \$2,916,191 were granted to 6,606 students. Such loans are repayable on reasonable terms which go into effect a year after a student's graduation or withdrawal from the course taken.

The award introduced in 1962 of the King George VI and Queen Elizabeth Scholarship to the highest-ranking Ontario scholar has been continued since that date. This award amounts to \$500 for each year of the winner's university course (up to a maximum of four years), provided he maintains satisfactory standing.

The Legislature provided the sum of \$2,400,000 for scholarships and bursaries in the year under review.

DEPARTMENTAL TESTING PROGRAMME IN GRADES 11 AND 12

During the summer of 1964, the directors, superintendents, principals and teachers, through their respective professional organizations, were asked for suggestions regarding the form of future Departmental tests in Grades 11 and 12. Except for some difference in detail, all groups approved continuing the policy of checking standards in schools across the Province through the judicious use of uniform objective tests and examinations set by committees of teachers and inspectors. As a result, an aptitude test, verbal and mathematical, was set for all Grade 12 pupils in November, 1964, and objective achievement tests in Chemistry and either French or Français will be given in May, 1965, in the General Course. External examinations in June will be written by History pupils of Grade 12 in the General Course and by Technical Course pupils of Grade 12 in Shopwork subjects.

In 1963-64 an objective-type test in Algebra and external Departmental examinations in Latin and Geography, Part II, were written by pupils of Grade 12 of the General Course and an external examination in Technical (Shop) Subjects was completed by pupils in Grade 12 taking these vocational subjects.

Teacher Education

ENROLMENT

A total of 6,462 students enrolled at the Teachers' Colleges in the autumn of 1964. Of these, 3,868 enrolled in One-year Courses leading to Elementary-school Teacher's Certificates, 1,076 in the First Year of the Two-year Course, 1,186 in the Second Year of the Two-year Course, 294 in the One-year Second Class Course at the Sudbury and University of Ottawa Teachers' Colleges, and 38 in the Primary School Specialist Certificate Course.

In September, 1964, enrolment at the Ontario College of Education in courses leading to the High School Assistant's and Vocational Certificates totalled 816. In addition, a total of 103 students enrolled in the Library Course.

Letters of Standing, granted to elementary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth, totalled 586 in the school year 1963-64, an increase of 179 over the previous year. Letters of Permission, issued to elementary-school boards of trustees on behalf of uncertificated teachers, numbered 1,064 by November 30 for the school year 1964-65. Of these, 378 Letters of Permission were issued on behalf of teachers who held basic certificates but lacked qualification for their special work.

TEACHER SUPPLY ELEMENTARY

In June, 1964, approximately 4,500 candidates graduated from the Ontario Teachers' Colleges, an increase of approximately 500 over the previous year. Of these, 3,670 were in One-year Elementary-school Teacher's Courses, and 842 in the Second Year of the Two-year Course. During the year under review, the supply of teachers for the public schools appeared adequate, but a scarcity of staff continued in the separate schools where expansion of enrolment continues to be more rapid.

Increased enrolment is forecast for Grade 13 classes over the next few years. With the expectation that enrolment in the One-year Course at the Teachers' Colleges will increase in proportion, a decision was reached in September, 1964, to discontinue the Two-year Course at the Teachers' Colleges. A decision was also reached in 1964 to demand an average of at least 60 per cent in the subjects necessary for the Secondary School Graduation Diploma as the academic entrance requirement for the Two-year Course. Despite the higher academic qualifications thus required for admission, 1,076 students—the last group to enter the teaching profession by this route—were admitted to the Course in September, 1964.

As previously mentioned, a pilot course in the teaching of French to English-speaking pupils in the elementary schools was initiated in September, 1964, at the Ottawa Teachers' College. Some 40 students, whose French speech was graded as excellent or very good by members of the staff of the bilingual University of Ottawa Teachers' College, began taking weekly instruction in this special field after regular college hours and on Saturday mornings. The supply of graduates from this course, who must also graduate from the regular Teachers' College course, will increase the number of teachers qualified to teach French to English-speaking pupils in the elementary schools.

TEACHER SUPPLY SECONDARY

The supply of teachers for the secondary schools continued to be maintained through the operation of regular courses at the Ontario College of Education and through special summer courses. A total of 1,952 student-teachers enrolled at centres at Kingston, London and Toronto for the Initial Eight-week Summer Course, an increase of 140 over the previous year. A total of 566 persons enrolled at the Ontario College of Education in September, 1964, in courses leading to the High School Assistant's Certificates, Type A and Type B.

The reorganized programme of studies in the secondary school has resulted in increased retention of students and an increasing demand for vocational teachers. Technical, commercial and occupational teachers numbered 460 at the First Summer Course and 250 at the winter session, a decrease of 66 from the combined totals of the previous year.

A total of 331 teachers holding certificates valid in the elementary schools obtained qualification as teachers in the secondary schools by attending the Regular Eight-week Summer Course. In addition, 35 teachers enrolled in a summer

course in Physical Education for female elementary-school teachers who undertake to work towards a university degree through summer school and extramural study. A similar course in the summer of 1963 attracted 39 teachers.

In all courses, the number of secondary-school teachers taking initial courses of training in 1964-65 was 3,594, an increase of 193 over the total for the previous year. During the summer of 1964, the Ontario College of Education supervised—in first courses, completing courses, intermediate courses and specialist courses—a total of 7,222 teachers, an increase of 1,195 over the 1963 total.

Letters of Permission, issued to secondary-school boards of trustees on behalf of secondary-school teachers not holding basic certificates, totalled 1,290 as of November 30, 1964.

NEW CONSTRUCTION

Negotiations progressed with the authorities of the Laurentian University of Sudbury concerning the erection of a building for the Sudbury Teachers' College on the university campus. In addition, plans were completed for the organization of a new Teachers' College to begin operation in September, 1965, in quarters rented from Brock University at St. Catharines. A building for this institution will be erected on the campus of Brock University in the near future. An Ontario College of Education for the training of secondary-school teachers will begin operation in its new building at the University of Western Ontario in 1965, and a similar institution will be established at Queen's University at Kingston.

MINISTER'S COMMITTEE

A study committee on the training of elementary-school teachers began regular meetings in September, 1964. The committee includes representatives of school trustees, universities, school superintendents, directors of education, inspectors, teachers' colleges, the elementary and secondary branches of the Department of Education and each of the five affiliates of the Ontario Teachers' Federation. Committee members visited the Ontario Teachers' Colleges in 1964 and will visit other teacher-training institutions in Canada and elsewhere in 1965. The Committee heard first-hand reports of teacher-training in the British Isles and Australia and studied briefs submitted by persons and organizations interested in the training of elementary-school teachers. It is expected that the work of this Committee, to be continued in 1965, will result in recommendations leading to new plans for the training of future elementary-school teachers in Ontario.

The Registrar's Branch

GRADE 13 DEPARTMENTAL EXAMINATIONS

The Grade 13 examinations of 1964 began on Monday, June 8, a date one week later than in the previous year. In 1963, an early beginning on June 3 enabled the Department to have the papers marked and the results released to the schools on August 1, about ten days earlier than usual. The early start, however, was found to require the presence of a larger number of teachers in Toronto as markers during the month of June than was thought to be in the best interests of their schools. This problem as well as other disadvantages of the plan led the Department to revert in 1964 to the customary starting date at the beginning of the second week in June. In spite of this fact, full reliance for the first time on electronic data-processing of all clerical procedures, in conjunction with improved marking techniques, enabled the Department to cope with some 25,000 extra answer papers in reasonable time. In consequence, the results were sent out to the schools on August 11, which had been the normal release date prior to 1963. On August 11, as well, the Ontario universities and other registering bodies were

provided with sets of the complete examination results for all Grade 13 candidates. This information made it possible for the universities to act immediately on students' applications for admission. In former years, the universities had had to wait for candidates to send in their certificates of standing after these had been received from school principals. In 1964, many applicants for university admission received notices of acceptance a day or two after the Department had turned over the mark lists to the universities.

The Grade 13 Departmental examinations of 1965 will implement several of the proposals of The Grade 13 Study Committee, 1964, including the recommendation that 25% of the final Departmental standing in each subject be determined from the marks assigned to the candidates by their principals and teachers during the school year.

TEACHER CERTIFICATION

The introduction of the programme of exchange and upgrading for teachers' certificates produced a heavy volume of work involving evaluation of all types of such certificates and university courses. In 1963, a total of 5,474 teachers exchanged their certificates for the new type or for a higher certificate. In 1964, the number of exchanges rose to 8,672. A sharp increase in summer course applications also occurred. In 1960, there were 5,868 applications for summer courses; in 1963, the figure stood at 9,970. Applications received for admission to Teachers' Colleges also increased in number. In 1963, 7,871 applications were processed, and in 1964, 8,800 received attention.

THE O.E.A. ELEMENTARY TEACHERS' LOAN FUND

The O.E.A. Elementary Teachers' Loan Fund was established some years ago by the Urban Teachers' Section of the Public School Department of the Ontario Educational Association. Loans are available to graduates of Ontario secondary schools who wish to enter any one of ten of the twelve Teachers' Colleges. The Fund, which is on deposit with the Provincial Treasurer, is administered by the Registrar's Branch under the direction of a committee.

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1963-64, from the \$8,000 provided by the Province for scholarships for study outside Ontario, awards were made to: Miss Marion E. Cornwall, Assistant Supervisor of Elementary Schools, London, to study at the University of Boston; Mr. John F. Futhey, Fort Frances High School, to study at the National University of Wales; Mr. William M. Simons, David and Mary Thomson Collegiate Institute, Scarborough, to study at the University of London, England; and Mr. E. G. Tomkinson, Etobicoke Board of Education, to study at the University of London, England.

TEACHER EXCHANGE

During the school year 1963-64, a total of twenty-five Ontario teachers were on exchange—twenty-one in the United Kingdom, one in another Canadian province and three in the United States.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank have been in operation for seventeen years. In the year 1963-64, the sum of \$23,677.65 was paid to 937 students, of whom 629 resided east of Sault Ste. Marie and 308 resided west of that city. Of those students receiving assistance, 337 were in the first year, 274 in the second, 220 in the third, 98 in the fourth, 4 in the fifth and 4 in the sixth.

Technological and Trades Training

INSTITUTES OF TECHNOLOGY

Five Institutes of Technology are administered by the Technological and Trades Training Branch with assistance from local Advisory Committees appointed by the Minister of Education: the Provincial Institute of Mining, Haileybury; the Hamilton Institute of Technology, Hamilton; the Eastern Ontario Institute of Technology, Ottawa; the Northern Ontario Institute of Technology, Kirkland Lake; and the Western Ontario Institute of Technology, Windsor. These Institutes offer to secondary-school graduates technological and business courses in those vocations requiring three years of post-secondary study. The Institutes of Technology also provide advanced evening courses to assist employed persons in upgrading their educational status. On September 30, 1964, the full-time enrolment in the five Institutes was 2,017 students; a further 1,665 students were registered in evening courses on November 1 of the same year.

After seven years in temporary quarters, the Eastern Ontario Institute of Technology commenced the 1964-65 school year in a new building which was officially opened on October 7, 1964. The increased autumn enrolment almost taxed the full capacity of the new facilities. As the Northern Ontario Institute of Technology began its third year of operation in 1964 with a 100% increase in enrolment, it became necessary to obtain temporary additional classroom space. Plans were begun for permanent quarters for the Northern Ontario Institute of Technology. Increased enrolment at the Western Ontario Institute of Technology also necessitated the rental of additional classroom space for the autumn term.

Much of the increase in enrolments just mentioned was due to the availability of the three-year post-secondary course in Business Administration. The Hamilton Institute of Technology, the Northern Ontario Institute of Technology and the Western Ontario Institute of Technology added this course to their programmes in September, 1964. The Eastern Ontario Institute of Technology has been offering the course for several years.

The Provincial Institute of Mining enrolled its first class of three-year students in September, 1964. The additional year will permit the study of mining technology subjects in greater depth. The Provincial Institute of Mining also enrolled nine students from Tanganyika who were sponsored by the Canadian External Aid Office.

RYERSON POLYTECHNICAL INSTITUTE

On July 1, 1964, the Ryerson Institute of Technology in Toronto became the Ryerson Polytechnical Institute, administered by a Board of Governors and operated on funds provided by the Department of Education. Ryerson offers three-year post-secondary courses in Technological, Business Administration, and Applied Arts Divisions. On September 30, 1964, Ryerson Polytechnical Institute had a full-time enrolment of 3,304 students, with a further 6,500 students registered in evening courses as of November 1, 1964.

ADVANCED TECHNICAL EVENING CLASSES

During 1964, the Advanced Technical Evening Class programme was completely reorganized to provide more adequately for the needs of employed technicians seeking to improve their technical education qualifications. The Department of Education and the Certification Board of the Association of Professional Engineers of Ontario co-operated in revising the courses of study so that holders of A.T.E.C. certificates might receive proper educational credit when applying for certification as Engineering Technicians. In the autumn of 1964,

Advanced Technical Evening Classes were available to secondary school graduates through four Institutes of Technology and twenty-one secondary schools throughout the Province.

ONTARIO VOCATIONAL CENTRES

The Ontario Vocational Centre, London, was officially opened on November 20, 1964, by the Premier of Ontario. Both the Ontario Vocational Centre, London, and the Ontario Vocational Centre, Ottawa, enrolled students for the first time in September, 1964. The enrolment in both Centres exceeded initial expectations. Construction of the Ontario Vocational Centre, Sault Ste. Marie, proceeded on schedule; the Centre is expected to be opened to students in September, 1965.

The name "Ontario Vocational Centre" was selected for these new technical institutes to provide a better indication of the scope of the vocational courses they offer. Along with the Provincial Institute of Trades, the Provincial Institute of Automotive and Allied Trades, and the Provincial Institute of Trades and Occupations, all located in Toronto, the new Ontario Vocational Centres offer courses in four main divisions: technical courses for apprentices in the certified trades, as designated by the Department of Labour of Ontario; pre-employment courses in non-certified trades and trades approved for vocational training under the Dominion-Provincial Technical and Vocational Training Agreement; two-year engineering-technical courses for secondary-school graduates; and post-secondary business and commercial courses. On September 30, there were 2,459 full-time students in the five Vocational Centres, with a further 2,383 students registered in evening courses in November.

Plans are well under way for a new Technical Centre in Hamilton which will represent a new approach to post-secondary technical institutes in Ontario. A new Ontario Vocational Centre and new quarters for the Hamilton Institute of Technology will be constructed on the one campus in order that the two institutes may share library, cafeteria, gymnasium and auditorium facilities.

RETRAINING THE UNEMPLOYED

Under Programme 5 of the Technical and Vocational Training Agreement with the Government of Canada, the Technological and Trades Training Branch administers the retraining of unemployed persons in Ontario. During 1964, this retraining was conducted in thirty-eight centres throughout the Province under the supervision of local committees. On September 30, 1964, there were 6,227 trainees enrolled in 38 different courses.

Under Programme 4 of the same agreement, a successful experiment in upgrading the level of education of workers while still employed was conducted as the Leaside Education Assistance Project. A group of factory workers in three Leaside industries were given time off to attend classes in high-school English, Mathematics and Science.

During 1964, continuing adult education became increasingly recognized as an important part of the total educational system of Ontario. Announcement was made that a new permanent Centre for Adult Education would be built in the Toronto area, to be administered by the Toronto Board of Education and financed by the Department of Education. In addition to replacing temporary adult education centres on Jones Avenue and Keele Street, the new Adult Education Centre will provide guidance services and adult education research facilities for the Province.

Curriculum and Text-Books

CURRICULUM

During the year 1964, some 19 curriculum committees were engaged in the development of curriculum materials and course outlines for use in the schools.

Over 225 teachers, inspectors, teachers'-college staff members and representatives of the professions and industry worked with the staff of the Curriculum Branch to complete course outlines in Home Economics, Mathematics (Grades 8 and 12), Chemistry, Spanish (Grades 10 through 13) and in several of the four-year options such as Biology, Geology, World Politics, and Man in Society.

Committee work continued on many other courses: Music (Grades 7 through 12), Health (Grades 7 through 12), Marketing, Data-processing, Registered (Certified) Nursing Assistants, Dietary Supervisors, and Mathematics (Grades 9, 10 and 13).

A curriculum committee also made progress in a comprehensive study of the problems of articulation of French-language instruction for English-speaking students. Composed of teachers of French from all levels of the school system and from the universities, the committee aims to provide a sequential programme in French from the elementary levels through five grades of the secondary schools.

The method by which one of the new courses was introduced into the schools in the year under review is noteworthy because of the pattern it may set for course implementation. The course, *Man in Society*, was presented for the first time in September, 1964, in only seven schools, using volunteer teachers of proven competence. During the year, the teachers planned to meet with the curriculum committee to revise the course outline as a consequence of their classroom experience. The course thus revised will become an option in the Four-year Programme for all schools in 1965.

Another feature of the course, *Man in Society*, is its emphasis on the use of community resources. The response by local jurists, doctors and social scientists to the request that they interpret certain aspects of the course augured well for the realization of one of the principal aims of the course, which is "to bring society into the classroom".

KINDERGARTEN AND GRADES 1 TO 6

The major revision of the curriculum for Kindergarten and Grades 1 to 6 was well launched during 1964. The preparatory step involved the attachment of five inspectors and teachers'-college masters to the staff of the Curriculum Branch to serve in the role of curriculum consultants. Educational information on aims, organization, research, methods and content was next compiled from a wide variety of sources. Plans were made for approaching major educational organizations in the Province for information and consultation. Courses of study developed by curriculum committees in local areas and in other educational jurisdictions will be analysed and evaluated as the revision proceeds.

In the second phase, a Provincial Committee composed of representative laymen and members of the Ontario Teachers' Federation will be asked to establish aims and objectives for the education of all children in Kindergarten and Grades 1 to 6.

This done, curriculum committees of professional educators will be called upon to give expression to these aims through the preparation of appropriate curriculum materials and course outlines.

CURRICULUM BULLETIN

As part of the process of course revision, a Curriculum Bulletin will be issued to the schools periodically, by which means it is hoped to involve teachers at the local level in an examination of current ideas and practices and in an assessment of the proposals that will be put forward by the Provincial Committee.

GRADE 13 REVISION

As a consequence of a decision to provide greater opportunity for study in

depth at the Grade 13 level, the Branch organized subject committees to make appropriate changes in all courses offered in that grade.

TEXT-BOOKS

With but few exceptions, the text-books approved for use in Ontario are developed by Canadian educational publishers and written by Canadian authors. A publisher submits a new text, or a revision of an existing title, for evaluation by the Department under one of three conditions:

- (a) as a result of the Department's issuing a new course of study;
- (b) when the publisher and author have determined that there is need for a new text based on a new or different approach, or designed to meet the needs of a special group of students; (for example, for a given course, one book might be prepared for students capable of study in depth, another for slow readers);
- (c) when a book that has been in use for some time is found to require updating of content, or approach, or both.

The system of multiple listing of approved text-books is considered to have three principal advantages:

- (a) it is a means of advising the schools of the availability of new books;
- (b) it makes it possible for teachers to select text-books according to the abilities and backgrounds of their students;
- (c) since a school is expected to adopt new or different text-books only as the existing books are worn out, the system ensures full and economical use of all books.

With the extension of the Reorganized Programme into Grade 11 and as a result of the development of new courses in the Five-year and Four-year Programmes, new text-books have begun to appear to meet the wide variety of interests and abilities for which the secondary school programme is designed. Text-books approved in 1964 in Mathematics, Art, History and other subjects are but the fore-runners of many new books expected to appear in the next few years.

TEXT-BOOK GRANT IN GRADES 9 AND 10

Beginning in September, 1964, boards were required to provide all texts in Grades 9 and 10. To assist the boards during the initial year, a grant of \$12.00 per student of average attendance in Grades 9 and 10 was paid in 1964. Despite some problems of storage and distribution within the schools, such as might be expected in the first year of operation, the system has been credited with overcoming many of the difficulties formerly encountered by students in providing their books on an individual basis. Moreover, it is anticipated that, with the exercise of care and ingenuity by the local schools in the ordering of replacements in future years, the advantages of the flexibility in multiple listing will be maintained.

Professional Development Branch

SERVICES

The Professional Development Branch is responsible for promoting the concept of in-service growth among elementary-school teachers and for assisting in providing the opportunities by which such growth may occur. This assistance includes planning for courses and advice to inspectors and to teachers' groups in organizing and conducting institutes, workshops, conferences and seminars designed to improve professional competence. In 1964, Branch officials participated in 104 of these sessions as speakers and consultants.

During the year, large numbers of teachers attended in-service courses which varied in type from one-day sessions to extensive programmes held one night per week.

SUMMER COURSES

In 1964, approximately 10,000 teachers attended summer courses conducted by the Department of Education. Interest in summer courses and in all other aspects of in-service training has increased greatly during the past few years.

Since 1958, a policy of decentralizing courses has been followed in order to provide for the needs of the teachers in as many areas of the Province as possible. During July and August of 1964, 19 different types of courses were offered in 38 summer schools in 17 Ontario communities. To staff these schools, 592 full-time and 52 part-time teachers were employed.

The Professional Development Branch has responsibility for the administration and supervision of Department of Education summer courses.

WINTER COURSES

During 1964, five school boards were granted permission to conduct pilot winter courses leading to Departmental certificate credit. Admission requirements, attendance, regulations and hours of instruction are essentially the same as those for equivalent summer courses. Course content, assignments, examinations and qualifications of staff are subject to approval by the Department.

The Professional Development Branch acts in an advisory capacity to school boards conducting winter courses and is responsible for supervising them.

Schools Attended by French-Speaking Pupils

TEACHER SUPPLY

On October 15, 1964, there were 360 French-speaking student teachers in attendance at the University of Ottawa Teachers' College and the Sudbury Teachers' College, 66 of whom were enrolled in the course leading to the Interim Elementary School Teacher's Certificate and 294 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First and Second Class Certificates; in 1964-65, 96.81 per cent of French-speaking teachers held Standard I or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1964, the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 7,005. There were, in addition, 5,905 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

ELEMENTARY SCHOOL ENROLMENT

On September 30, 1964, there were 90,138 French-speaking pupils enrolled in separate and public schools, an increase of 1,087 over the preceding year. The number of French-speaking pupils in kindergarten classes was 8,332.

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. The number of pupils taking these courses in November, 1964, was 34. The decrease in enrolment compared to previous years is due to the increasing number of schools being built in remote parts of the Province.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1964, was 1,673,774, an increase of 76,400 over the preceding year. The elementary schools showed an increase of 45,309 and the secondary schools an increase of 31,091.

EMPLOYMENT AND HOME PERMITS

A child who has attained the age of fourteen years may be granted a home permit or an employment certificate if his services are urgently required at home or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

The total number of employment certificates issued during the year 1963 was 3,124, a decrease of 161 from the figure for the preceding year, and the total number of home permits issued during the same period was 1,310, a decrease of 214 from the previous figure. The total number of cases brought before magistrates was 455.

PUPIL-ACCOUNTING AUDITORS

A division has been established to ensure the accuracy of Daily Registers of Attendance, maintained by teachers, and the annual Report of Attendance submitted by principals, information from which is used in the calculation of General Legislative Grants.

The division, currently consisting of four members, commenced work in January, 1964, and in the first year of operation inspected 2,125 Daily Registers in 245 schools.

Art

NEW COURSES FOR THE SENIOR DIVISION

A new programme in art for the Senior Division (Grades 11, 12 and 13) was prepared in 1962 and subsequently forwarded to secondary schools. The new programme replaced Curriculum S.13, 1959, for Grades 11 and 12, and outlined, for the first time in Ontario, a course for Grade 13. The programme was introduced in Grades 11 and 12 in September, 1962, and was used in Grade 13 in September, 1963. The first examination in Art for Grade 13 students was held in June, 1964, with over 200 candidates writing the examination.

SUMMER COURSES

Two summer courses in art for teachers-in-service were offered in Toronto and one was offered in Peterborough. One course in Toronto offered instruction leading to all art certificates, while the other led only to the Elementary Certificate. The Peterborough course led to the Elementary and Intermediate Part 1 Certificates. A record number of over 1,300 teachers attended the courses in the three centres.

SUPERVISION

Supervision of art instruction was carried out in all types of classrooms in various parts of the Province. Visits were made to teachers' colleges, collegiate institutes, technical schools and other secondary schools, and to elementary schools. Reports were prepared for school boards of elementary and secondary schools.

Audio-Visual Education

FILM DISTRIBUTION

Elementary and secondary schools served directly by the film library made increased demands for film service. The screening reports indicate 148,757 showings of films to a total school audience of 6,636,644 students during the current school year.

The policy of encouraging local boards of education employing a substantial number of teachers to operate their own basic film service was continued. Some additional blocks of films were placed on extended loan with local film libraries. The Audio-visual Branch has deposited 6,414 films with these libraries, and improved service to teachers in these areas has been effected.

NEW FILMS

As a result of the increased emphasis on curriculum revision, new titles were acquired by the Audio-visual Branch. Since the publication of the last supplement to the Visual Education catalogue, 83 additional titles have been acquired. Regular monthly screening sessions to evaluate recent educational film releases have been held during the school year.

TEACHER TRAINING

Four summer courses in Audio-visual Methods of Instruction were attended by 620 teachers. The primary purpose of these courses is to effect an improvement in the utilization of all types of audio-visual aids.

Assistance to local school boards in operating in-service training programmes was provided on several occasions. These workshops seem to be serving a most useful function in increasing teacher competence with the newer audio-visual techniques.

SCHOOL RADIO BROADCASTS

School radio broadcasts continued to be widely used in the elementary and secondary schools of Ontario. Evaluation reports indicate that this service makes a worthwhile contribution to those classes where radio broadcasts are used. With the co-operation of the Canadian Broadcasting Corporation, 160 programmes were prepared and presented. In addition, 49 national broadcasts, 10 exchange programmes from the British Broadcasting Corporation and 5 from the Australian Commission were offered.

Radio manuals outlining the series of broadcasts were distributed in quantities to all elementary and secondary schools during the month of September.

TELEVISION

Schools of Ontario were encouraged to use the National School Telecasts and the local programmes of the Metropolitan Educational Television Association.

The Ontario Advisory Council on Educational Television was organized to make recommendations to the Department on its use of television in education.

A television adviser has been added to the staff of the Audio-visual Education Branch. He is responsible for organizing television programmes for Ontario schools.

Auxiliary Education Division

NEW REGULATION

New regulations pertaining to Auxiliary Education Services became effective in June, 1964. The new legal framework for providing auxiliary services has attempted to retain aspects that have proven successful in the past and has attempted

to incorporate, and thus encourage, the establishment of additional services considered to be advantageous.

Provision has been made for the establishment of classes for neurologically impaired children and for emotionally disturbed children. Provision has also been made for itinerant teachers to work with pupils with hearing or vision disabilities.

In addition to junior and senior opportunity classes, the revision lists primary and intermediate opportunity classes. A primary opportunity class is described as designed to meet the needs of the young educable-retarded and slow-learning pupils (chronological age-range 6 to 8).

SERVICES

The Auxiliary Education Division is concerned with the educational growth of all school-age exceptional children. Exceptional children are those who for physical, intellectual or social reasons are in need of a modified or special educational programme. Such children include those of limited intellectual ability; those who are superior in learning capacity; those who are socially immature; those with orthopaedic, neurological, physical or speech disability; and those who are educationally retarded.

During the year 1963-64, the staff of the Auxiliary Education Division assisted local school authorities through: (1) 396 visits to special classes, special teachers and schools where units are established to assist the teachers concerned; (2) work with 119 children referred for assistance in the diagnosis of the problem and the development of an appropriate educational programme; (3) assistance in the establishment of new services through (a) the organization of 34 surveys, (b) the assessment of children, (c) working with the local staff and school boards; and (4) participation in twenty-seven in-service training programmes for teachers on special education topics, as they affect not only special classes but also atypical pupils in regular grades.

Special Services Inspectors visited four of the Teachers' Colleges during the year to outline to students the help that is available for them when they commence their work as teachers. Staff members participated in twenty-two educational conferences and conventions. Work has continued on the revision of Auxiliary Education Advisements. These advisements are available to any teacher upon request.

The Division maintains a library of approximately 6,700 magnatype books to assist pupils with limited vision, as well as a professional library of some 2,000 books for the free use of teachers and inspectors.

SUMMER COURSE TRAINING

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education were offered at Toronto. Courses at the elementary level were offered also at the Lakehead and Ottawa. Ten different options were offered covering various areas of exceptionality. An innovation in 1964 was the provision of an option to prepare auxiliary teachers, for working with neurologically impaired children.

A total of 1,111 attended the summer courses in auxiliary education, representing an increase of 130 over the previous year. One hundred and four teachers completed the summer school attendance requirements for the Specialist Certificate in Auxiliary Education.

TRAINABLE RETARDED CHILDREN

In 1964, school attendance grants were paid to 88 local associations for retarded children affiliated with the Ontario Association for Retarded Children. The Department of Education conducted a five-week summer course for teachers of trainable retarded children, and 76 teachers attended the course.

During the year, studies were instituted and consultations were held with interested organizations and persons for the purpose of exploring ways and means by which schools for retarded children might be operated and financed without resort to charity drives. At the second session of the 27th Legislature, the Government approved an Act to Amend the Schools Administration Act whereby local schools for retarded children would be operated by local Retarded Children's Education Authorities, effective January 1, 1965, and the cost of operating the school, including transportation, would be borne in full by public funds.

Community Programmes

SERVICES

The services of the Community Programmes Branch are conducted through two categories of staff members who work in close co-operation with municipal recreation committees, school boards, provincial, national and community organizations. Representatives located in District Offices at Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa and Toronto made 2,267 visits to Ontario municipalities to provide assistance, advice and resources for programmes of adult education and recreation. Working out of the central office in Toronto, special advisers in the fields of art, crafts, drama, music, puppetry, old-age programmes, rural programmes, recreation buildings and areas made 763 visits to Ontario municipalities to provide leadership, advice and resource aids for programmes of adult education and recreation. In order to make resource materials available for community use, the Branch staff produces a number of publications and maintains a loan service in drama, music, films, slides and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in this field. To meet increased demand for competently trained recreation personnel, a two-year diploma course was introduced at the University of Guelph in September, 1963. Graduates of this course will be available for employment in Ontario municipalities in May, 1965. The in-service training course administered through the Extension Department of the University of Western Ontario will continue until 1965. There are 115 students enrolled in this type of training. In the last 11 years, 158 Interim Certificates and 125 Permanent Certificates have been issued to individuals who qualified through the in-service training course.

RECREATION DEVELOPMENT

Ontario Regulation 92/60 provides provincial grants to municipalities which establish, through a by-law, a municipal recreation committee to conduct or assist local programmes. Between 1958 and 1964, the number of participating municipalities increased from 307 to 377 and grants paid increased from \$450,891 to \$687,889. There were 107 full-time recreation directors as well as 138 assistant directors employed by Ontario municipalities. Twelve provincial organizations providing programmes of adult education and recreation were paid grants in the amount of \$20,100.

LEADERSHIP TRAINING

Leadership has long been recognized by educators as the most important element in adult education and in organized leisure-time activities. One of the primary roles of the Community Programmes Branch is the provision of assistance to communities and groups in the development of administrative and activity leaders, night-school teachers and skill instructors for many types of community groups.

The training that the Branch provides, or sponsors in co-operation with one or more communities, is designed to increase the number of capable leaders in physical, social, creative and intellectual activities. Emphasis is placed on the techniques of instruction and programme-planning, the process of learning, the philosophy of recreation and adult education. The Branch is continuing to develop series of courses at community, area (two or more communities), district (several areas), and provincial levels. At each level, leaders are selected and receive progressive training in both skill and leadership techniques. In 1964, the Branch provided 333 courses for 15,603 leaders.

CO-OPERATION

In order to provide efficient service, the Community Programmes Branch works in co-operation with the following agencies: The Canadian Association for Adult Education; Ontario Federation of Home and School Associations; Ontario Federation of Catholic Parent-Teacher Associations; University Extension Departments; Ontario Federation of Agriculture; Indian Affairs Branch; Indian-Eskimo Association; Ontario Recreation Association; Society of Directors of Municipal Recreation of Ontario; Ontario Folk School Council; Ontario Camping Association; Ontario Field Naturalists; various sports associations; and several Branches of other Provincial Departments.

FITNESS AND AMATEUR SPORT

The Fitness and Amateur Sport Programme is administered jointly by the Physical and Health Education Branch and the Community Programmes Branch. In 1964, bursaries in the amount of \$27,500 were provided for students enrolled in physical education and recreation courses. There were 58 projects organized to assist municipalities in the development and training of their leaders and coaches.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Division provides Correspondence Courses for Ontario persons who are unable to attend school. During 1964, over 20,000 persons submitted applications for enrolment or re-enrolment. The age-group from which the greatest number of applications was received was that of persons between the ages of 20 and 25. Most applicants indicated that they were employed and were seeking to improve their positions by raising their educational standing. Applications from students under the age of 16, unable to attend school because of temporary absence from Ontario, distance from school, or illness, constituted only a small part of the total number of applications received.

The courses which are offered are academic subjects for Grades 1 to 13 (the courses at the elementary school level include courses in English for English-speaking children, bilingual courses for French-speaking children and courses for adults) and eleven trades courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice and Radio Theory and Practice. All academic courses are free; a fee of \$10 per course is charged for trades courses. The academic courses are available to residents of Ontario and to persons normally resident in Ontario but living temporarily outside the Province; the trades courses are available to residents of all provinces.

During 1964, sixteen new secondary-school courses were prepared. Of this number, eight were courses in subjects which had not been previously offered and eight were courses prepared to meet curriculum changes or to improve presentation of material. Four elementary school courses and one trades course were also prepared. The addition of courses not previously offered enables students to qualify for Departmental Statements of Standing and Diplomas at any grade level.

ENROLMENT

Enrolment during 1964 in courses in both the elementary- and secondary-school grades shows a marked increase over the enrolment in 1963. Enrolment in Grade 13 continues to be greater than the enrolment in any other grade. The number of students working in the Correspondence Courses is constantly changing since in all secondary-school grades except Grade 13 a student may enrol at any time of the year and complete his course at any time of the year. The number of lessons marked during the 1963-64 school year was 186,630.

CERTIFICATES AND STANDING

In June, 1964, students prepared through Correspondence Courses wrote 1,788 Grade 13 Departmental Examination papers and were successful in 1,172, or 66% of the papers written. During the year July 1, 1963, to June 30, 1964, 462 Statements of Grade 12 Standing, 1,173 certificates covering subjects in other secondary-school grades and 38 trades-courses certificates were issued. Elementary-school courses were completed by 148 adults, and 139 elementary-school children were promoted.

Guidance Services

PROGRESS

More than ever, Ontario school principals are recognizing, and attempting to cope with, the need for improved guidance services designed to assist students towards greater achievement, better educational planning and more effective vocational adjustment. The Guidance Services Division has provided leadership and encouragement to principals and teachers in their efforts to improve guidance services in the schools. For example, at the four summer courses in Guidance offered by the Ontario Department of Education in 1963, enrolment was 24 per cent higher than the previous top figure; in 1964, another 26 per cent increase took place, the number of participants being well over 900. To date, more than 3,400 Ontario teachers have received basic training for guidance duties.

As part of the effort to provide more trained counsellors for this Province, a pilot winter course in Guidance, planned and operated by the Board of Education of North York with the approval of the Department of Education, has been established. More than 160 teachers are enrolled in this course leading to certification in Guidance.

During the past summer, members of the Guidance Services Division co-operated with the Ontario Secondary School Teachers' Federation to provide a Refresher Course for trained guidance personnel. Throughout the year, the Guidance Services Division has continued to encourage local in-service training courses in Guidance, and is now able in increasing measure to involve as leaders some of the trained counsellors of the area concerned.

SUPERVISION AND INSPECTION

This year, one additional inspector was added to the staff of the Guidance Services Division, raising the inspectorial complement to six and making possible a more nearly adequate inspection coverage of the Guidance programmes in the schools.

INFORMATION SERVICES

In co-operation with the Guidance Centre of the Ontario College of Education, the Department of Education continues to provide up-to-date educational and occupational information to all publicly-supported secondary schools in the Province. Several promising projects designed to increase the interchange of vocational

information between business and industry and the schools have been launched. Liaison is maintained with such allied services as the National Employment Service, the University Counselling and Placement Association, the Ontario Chamber of Commerce, and the Canadian Association for Adult Education, in order that current information about developments and trends in education and employment may be made available to counsellors in the schools.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 81 per cent of the elementary schools of the Province. Music was also taught in 321 secondary schools. There were 329 school choirs, 238 bands and 92 orchestras in these schools; 19 Gilbert and Sullivan operettas were performed during the year. Music festivals, competitive and non-competitive, were held in approximately 150 centres with more than 60,000 pupils participating.

TEACHER TRAINING

There were 1,102 certificated music teachers and supervisors engaged in the elementary schools and 427 in the secondary schools of the Province during the school year 1963-64. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 724 teachers at the summer courses in music in 1964.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1964, Grade 12 standing was attained by 4,259 pupils. Credit in music towards a Secondary School Honour Graduation Diploma was obtained by 773 pupils who tried the Departmental Grade 13 examinations and by 1,510 pupils who presented equivalent certificates.

RADIO

Twenty-five music broadcasts were presented in four series during January, February, March and April: "Primary School Music," five 15-minute programmes for Grades 1 to 3; "Junior School Music," five 15-minute programmes for Grades 4 to 6; "Music for Young Folk," ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings," five 15-minute programmes for Grades 5 to 8. All were broadcast with commentary prepared and given in each case by the Music Branch of the Department of Education.

Ontario School for the Blind

ENROLMENT

In September, 1964, a record enrolment of 251 students was admitted to the Ontario School for the Blind, Brantford. Of the 245 who were in attendance the previous year, 20 withdrew after graduation or to seek employment or for other reasons, and their places were taken by 26 students new to the school. Thirteen of the newcomers were beginners and the remainder were evenly scattered through Grades 2 to 11, having spent a varying number of years in the regular schools. One hundred and forty-one boys and 110 girls make up the student body, 195 being Ontario children; of the rest, 6 are from Alberta, 25 from Saskatchewan, 18 from Manitoba, 5 from Quebec and two are Eskimo children. The normal age-range is from 6 to 20 years but six students over the age of 21 were admitted by special permission because of unusual circumstances.

PROGRAMME

A comprehensive educational programme is provided to meet the varying needs of visually handicapped children. The Ontario Courses of Study for Grades 1 to 12 inclusive are followed, consideration being given to students who will continue their education in university and to those who will leave school at the completion of Grade 10 or Grade 12. The basically academic programme is supplemented with a variety of vocational courses designed to develop both living skills and those which will be of use for future employment. The boys have industrial-shop and piano-tuning classes while the girls study home economics and crafts and both have regular typing classes.

Music is an integral part of the work of each grade, the regular elementary-school music course leading naturally into the high-school music option. Opportunity is given each student to develop musical interest and talent to the limit of his ability. Active participation in a full programme of physical education includes indoor and outdoor games, track and field, skating and hockey. Extra-curricular activities include: Cubs; Scouts; Guides; Brownies; a United Nations Club; social activities, such as parties and dances; and regular attendance at musical and dramatic presentations in the city.

GRADUATES

Nine students graduated from Grade 12 in June, 1964. Of these, one enrolled directly in university, three are attending Grade 13 in their home schools prior to university entrance, one is employed as a piano-tuner, one is being trained by the C.N.I.B. to be a dictaphone-typist, two are employed in canteens pending the securing of other work and the ninth is back at the school studying the pipe-organ for an attempt at the A.R.C.T. degree in music. If successful, he will enrol in the Royal Conservatory to prepare for a second degree in music.

NEW ACCOMMODATION

During the year, a new dormitory to provide accommodation for sixty senior boys has been under construction. The completion date is February, 1965, and the new quarters will be occupied, in part at least, almost immediately.

Ontario School for the Deaf, Belleville

ENROLMENT

The Ontario School for the Deaf, Belleville, continued to serve deaf children from all parts of Ontario except junior children from Southwestern Ontario, who attended the new school at Milton. Thirty-eight beginners, ages five to eight years, from Central, Eastern and Northern Ontario were enrolled in Belleville in September, 1964. The enrolment on October 15, 1964, was 503 (293 boys and 210 girls), all from Ontario and distributed as follows: Junior School 189, Intermediate School 117, Senior School 197. Pupils range in age from five to twenty years.

PROGRAMME

With a staff of specially trained teachers and residence counsellors, the school aims to provide a comprehensive academic, vocational, physical, social and religious education to prepare deaf and severely hard-of-hearing children to take their places in society as self-supporting adult citizens. In the junior grades, vocabulary and language development are necessarily given first importance. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. The opening of the new Boys' Vocational Building in January, 1964, has made possible more varied and more

advanced vocational courses for the older boys. Extensive programmes of physical education and recreation, as well as such extra-curricular activities as club and hobby groups and driver instruction, are conducted by teachers. Religious instruction is given by the teachers assisted by local clergymen.

For the first time, all pupils were able to go home for the Christmas vacation in December, 1963. At Christmas, 1964, all the students again went home. More week-end home-going by pupils of all ages is being encouraged. In October, 1964, senior students began to use regular public transportation to travel to and from their homes for week-ends. To develop more independence and responsibility, a Student-Council form of student government has been inaugurated this term.

GRADUATES

An unusually large group of forty students graduated in June, 1963. The majority of these went directly to employment in their home communities through the co-operation of their parents, the school guidance department and the placement officers of the Canadian Hearing Society. Six students were successful in gaining admission to Gallaudet College for the Deaf in Washington, D.C. Four of these entered the preparatory course there and two entered directly into the freshman year.

Ontario School for the Deaf, Milton

ACCOMMODATION AND ENROLMENT

From an enrolment of 159 in October, 1963, an additional 48 students have been accepted, making a total of 207 children—104 boys and 103 girls. The capacity of the junior residence is 210.

Construction of buildings for intermediate and senior students has begun. This group of buildings includes an academic school, a vocational school, an auditorium, senior girls' and senior boys' residences, a sports complex, a vehicle-storage building and three staff houses. These new facilities will permit the transfer, in due time, of older students who now attend the Belleville School but who live in the part of Ontario served by the Milton School, that is, west of Highway 400.

SERVICES

The present academic programme is serving junior-school children aged from 5 to approximately 13 years. Audiological services are provided in the school clinic for both resident children and children referred to the school by public-health and other authorities. A home-visiting teacher assists parents of pre-school children in suitable home training methods for their young deaf children. A total of over 40 children are involved in this programme. As the school grows and develops, the value of its programme for deaf students in Western Ontario increases accordingly.

Physical and Health Education

SERVICES

The Physical and Health Education Branch is responsible for the supervision of the Physical and Health Education programmes of the schools in the Province. In addition, the Branch is responsible for the operation and administration of two centres devoted to the development of leadership potential in selected secondary-school students and for organizing summer courses and in-service training courses

for teachers and supervisors of physical and health education. The Branch also serves as liaison for the Department of Education with military services and cadet programmes, non-profit camping organizations and other agencies with interests in fitness, amateur sport, health or physical education. The Physical and Health Education Branch and the Community Programmes Branch are responsible for the implementation of co-operative planning with the Department of National Health and Welfare in the areas of fitness and amateur sport.

Enrolment in the Physical Education summer courses continued to increase in 1964. The programme of bursaries and scholarships to students in Physical Education undergraduate courses was expanded. This year, 159 bursaries or scholarships were awarded. These are available to the students under the terms of the Federal-Provincial Agreement on Fitness and Amateur Sport. The Inter-departmental Committee on Health has continued the development of liaison between the Department of Education and the Department of Health, and has formed a sub-committee to consider smoking and health. The Health Curriculum Committee, which was formed with the co-operation of the Curriculum Branch, continues to meet. The complexity of the problems and the thoroughness with which they are being discussed have resulted in more time being required than was at first anticipated.

It is expected that the activities phase of the Physical Education programme will be revised upon completion of the Health course. In the interval, secondary schools have been given permission to introduce new activities to broaden the programmes so that students will have an opportunity to develop skills which will be more closely allied to their needs. In recognition of the need for facilities to develop adequate Physical Education programmes, the Department of Education recently advised school boards that, if an addition is planned for a secondary school which has an enrolment exceeding 200 but does not have a gymnasium, an amount of \$50,000 may be approved for grant purposes for a single gymnasium.

ONTARIO ATHLETIC LEADERSHIP CAMP

One boy and one girl from each secondary school in the Province are eligible to attend an intensive two-week leadership course at the Ontario Athletic Leadership Camp, Longford Mills. It is encouraging to note the development of the students' leadership potential during the course. The Physical Education Branch recently circulated a follow-up questionnaire to schools which have sent students to the camp. The information regarding their educational level and careers which was gained from this questionnaire will allow the officials of the Department to make a better estimate of the success of the programme. A total of 768 Grade 11 students attended the courses in 1964. Two girls' courses were held in July and two boys' courses in August. The facilities of the camp are used by many provincial organizations during the remainder of the year for educational conferences.

ONTARIO CAMP LEADERSHIP CENTRE

Three courses—two for girls and one for boys—were conducted at the Ontario Camp Leadership Centre, Irondale. The 280 leaders-in-training, who were recommended for attendance by the directors of non-profit camps throughout the Province, follow a programme designed to provide them with the techniques and skills of camping and of leadership. When they return to their sponsoring non-profit camp, they are prepared to make a significant contribution to the programme. In the past year, a programme of construction has begun which will eventually provide opportunities for more leaders to participate in the programme. This has included the installation of hydro-electric power.

GRANTS TO NON-PROFIT CAMPS

The Department of Education is aware of the educational values of progressive, challenging camp programmes. Grants are paid to non-profit camps in accordance with Regulation 86, the terms of which were revised during the year after consultation with the camp authorities. Some \$65,000 was awarded in such grants during the last fiscal year.

Provincial Library Service

PUBLIC LIBRARY DEVELOPMENT

Regional library development was an important theme in public library affairs in 1964. Three new regional library co-operatives were formed: the Lake Erie Regional Library Co-operative and the Midwestern Regional Library Co-operative in Southern Ontario; and the Lake Ontario Regional Library Co-operative in Eastern Ontario. In Northern Ontario, the Algonquin Regional Library Co-operative was enlarged by the addition of Nipissing District.

Four new municipal library boards were formed, and several buildings were constructed or enlarged. The legislative vote for assistance grants to public libraries was increased to \$2,800,000. A grant was made to the Ontario Library Association to permit the beginning of a series of studies of library organization and service.

USE OF LIBRARIES

Circulation of books in 1963 reached 39,837,642, and the total circulation, including use of reference books, films and other materials, was just under forty-two million. Public library expenditure for the Province was \$14,250,000, or \$2.30 per capita.

LIBRARIANSHIP

Increased enrolment was reported for the course leading to the Bachelor of Library Science degree with the result that 101 students graduated from the Library School of the University of Toronto. Library courses were also given by the University of Ottawa and by the Department of Education.

PROVINCIAL SERVICE

Workshops, conferences, meetings, reports, the publication of the **Ontario Library Review** and compilation of statistics are instances of the work of the Provincial Library Service Branch. The Branch also operates a library service for isolated communities and schools, as well as a reference service for teachers.

In Memoriam

HARRY E. AMOSS, B.A., D.Paed., who retired from the position of Superintendent of Professional Training in November, 1948, died on December 20, 1964. Shortly after his retirement, Dr. Amoss served very ably for several years as Honorary Adviser to the Minister of Education with respect to the then developing programme of schools for retarded children. A tribute to his service as a staff member in the Department of Education was given in the 1948 Report of the Minister.

ROBERT W. ANGLIN, M.A., who retired on January 11, 1944, from the position of Inspector of Secondary Schools, and who had served as Registrar and Inspector for more than 30 years, died on September 11, 1963. Mention was made of his service in the 1945 Report of the Minister.

T. R. BROWN, B.A., M.Ed., Inspector of Public Schools, Haldimand No. 1, died suddenly on November 27, 1964. Mr. Brown was born in Armour Township, District of Parry Sound, and received his elementary education in Woodstock Public Schools. After graduating from Woodstock Collegiate Institute, he attended London Normal School. In 1934, he began his teaching career in S.S. No. 2 Machin. He taught in S.S. No. 7 East Oxford and in Hespeler Public School. Mr. Brown served as principal of schools in Neustadt, Petrolia and Fort William from 1937 to 1956. He received a Bachelor of Arts degree from the University of Western Ontario in 1954 and a Master of Education degree from the University of Toronto in 1963. He was appointed Inspector of Public Schools, Haldimand No. 1, with residence at Caledonia, on September 1, 1957. Mr. Brown was a dedicated, conscientious inspector who enjoyed the respect and affection of the teachers and principals with whom he worked in Haldimand County. His interest in exceptional children was reflected in his work with the Haldimand Association for Retarded Children.

A. W. ROSS DOAN, M.A., D.Paed., who retired on June 30, 1948, from the position of Public School Inspector for the Toronto Board of Education, died on November 13, 1964. A tribute to his service was given in the 1948 Report of the Minister.

CLARA E. ELLIOTT, who retired on December 31, 1950, from the position of Instructor of Home Economics and Dean of Women at the Hamilton Normal School, died on October 19, 1964. She was born in Hamilton and received her elementary and secondary school education in that city. Upon graduating from secondary school, she enrolled in a Teacher Training and Home Economics Course at Macdonald Hall in Guelph. On completion of this course, she was appointed, as Instructor of Home Economics, to the staff of the Hamilton Normal School where, for more than forty years, she devoted herself to teaching and practising the best and most modern methods. During her years of service, she was Principal of many Departmental summer courses in Home Economics and was mainly responsible for establishing the Home Economics programme in rural schools. As Dean of Women, she gave guidance and wise counsel to thousands of young students. Her keen interest in Home Economics, her instructional skill and her kind and sympathetic manner were an inspiration to many teachers in the schools of this Province.

HERMAN E. FAWCETT, B.A., Secondary School Inspector for the City of Brantford, died on November 15, 1964. He was born in Clarksburg and was a graduate of Hamilton Normal School, Queen's University and the Ontario College of Education. He taught in Lefroy, Embro, Melbourne, Salford and Seeley's Bay, then was Principal of Lakefield High School and on the staff of the Fort William Vocational School. He was appointed to the Brantford Collegiate Institute and Vocational School staff in 1944, to the principalship of the Pauline Johnson Collegiate Institute in 1954 and to the position of Secondary School Inspector in July, 1964. Mr. Fawcett made important contributions in the field of teaching history. In 1942, he devised a 3-unit method of teaching history in Grades 9 and 10. Later he developed new methods in teaching Grade 12 history. He was a man of fine scholarship, generous with his talents and wise in his judgments. He participated in community activities and accepted positions of leadership in church and other social organizations.

JOSEPH LAPENSEE, B.A., who retired on April 11, 1964, as Separate School Inspector for Plantagenet R.C.S.S. Division, died on September 24, 1964. After graduation from the University of Ottawa in 1916 and from the Ontario College of Education in 1917, he successively held the positions of Principal of the Alfred Separate School, Assistant of the Model School at Sturgeon Falls, Separate School Inspector first at Ottawa and then at Windsor, Vice-Principal of the Model School at Sturgeon Falls and Principal of the Embrun Model School. Since October, 1932, he had been a School Inspector in Eastern Ontario, with residence for most of the time at Plantagenet. Mr. Lapensee thus served for a period of 45 years and 4

months as a devoted public servant in the Department of Education, acting in different capacities in Model Schools and School Inspectorates in the Province. His scholarship and paternal solicitude were continuously recognized by the students and teachers whom he taught or supervised.

HAROLD M. MATTHEWS, who retired on January 1, 1962, from the position of Registrar of Trade Schools, and who had earlier served for many years as an Inspector of Industrial Arts in the elementary and secondary schools, died in Florida on November 21, 1964.

J. LINDSAY McCULLOUGH, B.A., B.Paed., who retired on July 31, 1956, from the position of Assistant Superintendent of Public Schools for the Toronto Board of Education, died on October 21, 1964. A tribute to his service was given in the 1956 Report of the Minister.

NORMAN POMFRET, Master at the Hamilton Institute of Technology, died on May 9, 1964. In England, his native country, he received extensive training in textile technology and worked for a quarter of a century in the textile industry. Subsequently, before coming to Canada, he held an important position in the cotton industry in the West Indies. In Canada, after service in a managerial capacity with Montreal Cottons Limited at Valleyfield, Quebec, he joined the textile department of the Hamilton Institute of Technology. In addition to teaching a full-time course in cotton-processing there, he participated actively in the affairs of the Textile Society of Canada, Western Division. Mr. Pomfret's personality, broad general experience and detailed knowledge of the cotton industry in all its aspects were highly respected on both sides of the Atlantic.

J. V. SCANLAN, B.A., who retired on January 4, 1958, from the position of Separate School Inspector in the City of Hamilton, died on May 20, 1964. A tribute to his service was given in the 1958 Report of the Minister.

HAROLD J. VALLENTYNE, B.A., M.A., LL.D., who retired on December 31, 1955, as Superintendent and Principal of the Ontario School for the Blind at Brantford, died in Brantford on November 3, 1964. A tribute to his service was given in the 1956 Report of the Minister.

Retirements on Superannuation

A. F. BROWN, B.A., Inspector of Public Schools for Grey No. 1 and the City of Owen Sound, retired on August 31, 1964. Mr. Brown was born near Owen Sound and received his early education in a rural school. He then attended the Owen Sound Collegiate Institute and later North Bay Normal School. After teaching in Northern Ontario for a few years, he went to the Oshawa Collegiate Institute as a teacher of Science. In 1932, Mr. Brown was appointed a Public School Inspector, with headquarters at Haliburton, and later served as Inspector in Prince Edward County. In 1953, Mr. Brown returned to his home area of Grey County where he was Public School Inspector for eleven years. His quiet, kindly and sympathetic manner meant a great deal to the many hundreds of teachers and students with whom he was associated. Mr. Brown will long be remembered for his sound scholarship, his personal integrity and his never-failing interest in the problems of his teachers and his associates.

GEORGE N. EDWARDS, B.A., B.Paed., retired from the position of Public School Inspector for Perth No. 2 on July 31, 1964, after serving as an inspector for thirty-three years. Born in the village of Brussels in Huron County, he attended elementary school there, and then received his secondary school education in Stratford. He was a graduate of the University of Western Ontario and of the Faculty of Education of the University of Toronto. After teaching in the City of London public schools for eleven years, he was appointed Inspector of Public

(continued on page 28)

STANLEY D. RENDALL, B.A., LL.D.

STANLEY D. RENDALL, B.A., LL.D., retired on August 31, 1964, from the position of Superintendent of Secondary Education for Ontario. Dr. Rendall was born in Blenheim Township, Oxford County, and received his elementary and secondary education in the Plattsville Public and Continuation Schools and the Woodstock Collegiate Institute. He graduated with honours in Classics from Queen's University and obtained his High School Specialist's Certificate from the Faculty of Education, University of Toronto. He holds also the High School Principal's Certificate. He taught in the Paisley, North Augusta, Plattsville and Elmira Continuation Schools and, in 1921, was appointed to the staff of the Woodstock Collegiate Institute. In 1929, he became Vice-Principal and Head of the Classics Department of the Brantford Collegiate Institute and Vocational School. Dr. Rendall was appointed a Provincial Continuation School Inspector in 1931 and became a general Secondary School Inspector in 1936. During the year 1942, he was on loan to the National Selective Service Branch of the Federal Government's Department of Labour. From 1945 to 1950, under the direction of the Department of Education, he was engaged in advising and assisting county and municipal councils in dividing the counties and including the municipalities in high school districts. His conception, and subsequent organization, of secondary school districts constituted a major contribution to the progress of education by way of adequate school buildings and the provision of transportation for rural secondary school pupils. Dr. Rendall was appointed an Assistant Superintendent of Secondary Education in charge of school organization in 1952 and Superintendent of Secondary Education in 1956. In May, 1959, the University of Western Ontario bestowed upon him an honorary Doctor of Laws degree in recognition of his work in education. Under his leadership in recent years the secondary school boards of the Province took full advantage of the opportunity to construct vocational school accommodation under the Federal-Provincial Technical and Vocational Training Agreement, while his wisdom and vigour contributed much to the launching of the reorganized programme of studies in secondary schools during his superintendency. A man of energy and vision, Dr. Rendall will be remembered for his constructive influence on the development of Ontario's secondary school system.

(Continued from page 26)

Schools for Glengarry County, a position which he held for six years prior to his transfer to Stratford. There, for the next twenty-seven years, he served as Inspector of Public Schools in Perth No. 2. Particularly interested in Language, Reading and Phonics, Mr. Edwards edited workbooks and text-books in these subjects and taught for a number of years in Language and Reading at Dalhousie University Summer School in Halifax, Nova Scotia. Mr. Edwards has made a significant, scholarly contribution to the improvement of academic standards, not only in the schools under his jurisdiction but also farther afield.

T. ORVAL W. FOWLER, B.Com., B.Paed., retired on August 31, 1964, from the position of District Secondary School Inspector for the Counties of Ontario and York and for the municipalities of Forest Hill, Leaside and East York in Metropolitan Toronto. He was born in Huron County and obtained his elementary and secondary education in Alberta. After attending Normal School he taught in rural and graded schools in Alberta and became Principal of the Public School in Red Deer. Upon graduation in Commerce from Queen's University he served as Principal of the Red Deer High School. Following attendance at the Ontario College of Education, he taught in Malvern Collegiate Institute, Eastern High School of Commerce, and as Head of the Commercial Department at East York Collegiate Institute. In 1943, he was appointed a Secondary School Inspector of Commercial Classes and in 1959 became a District Inspector. During his long service in the field of commercial education, he served as President of the Ontario Commercial Teachers' Association and the Ontario School Inspectors' Association. His tireless efforts to raise the standards of commercial education in Ontario have done much to achieve a close liaison between Department officials and business personnel.

ROBERT GAUTHIER, B.A., D.Paed., F.R.S.C., retired as Director of French Instruction for the Ontario Department of Education on October 31, 1964. After obtaining the degrees of B.A., Ph.B., and Ph.L. from the University of Ottawa, he graduated from the Faculty of Education of the University of Toronto. Later he received the degrees of B.Paed. and D.Paed. from the University of Montreal and D.Paed. from Laval University. In 1957, he was elected a Fellow of the Royal Society of Canada. He served for a time as R.C. Separate School Inspector with the Ontario Department of Education and as a Master in the Ottawa Normal School, and in 1937 he was appointed to the position of Director of French Instruction. In 1949, at the request of the Ontario Minister of Education, Dr. Gauthier conducted a survey of systems of education in six countries of Europe and, in 1954, he carried out a UNESCO educational mission in Burma. In 1959, he was a Canadian delegate to the International Conference on Education in Geneva. He has been President of L'Association canadienne des Édicateurs de Langue française and of La Société des Conférences de l'Université d'Ottawa; Vice-Chairman of the National Committee of the Canadian Conference on Education; Vice-President of l'Alliance française d'Ottawa; and a director of the English-speaking Union of the Commonwealth, Ottawa Branch. He is the author of a French reader entitled *Frou-Frou et Fin-Fin*, published in 1939. Dr. Gauthier will be remembered for the service that he gave in the direction of French instruction for French-speaking pupils and for the encouragement he gave to the establishment in recent years of French classes for English-speaking pupils in the elementary schools.

JOSEPH A. GIBSON, B.A., B.Paed., retired as Superintendent of Public Schools for York No. 5 (Vaughan T.S.A.) on July 31, 1964, after 44 years of faithful service to education in the Province. Mr. Gibson had previously been employed as a Provincial Inspector, and a tribute to his service in that capacity was included in the 1960 Report of the Minister.

S. ALEC GORDON, Instructor in Professional Training at the Ontario School for the Deaf, Belleville, retired on August 31, 1964, after thirty-nine years of distinguished service to deaf children in this Province. Born in London, England,

Mr. Gordon received his elementary education in Belleville public schools and was the Carter Scholarship winner at Belleville Collegiate Institute in 1924. After graduation from Toronto Normal School, he joined the staff of the Ontario School for the Deaf in 1925 and took the training course to become a specialist in teaching the deaf. An able musician, he developed a rhythm programme for deaf pupils which was closely related to the teaching of speech and auditory training throughout the school. In April, 1953, he was appointed Instructor in Professional Training with special responsibility for the rhythm programme, the teaching of speech, auditory training and lip-reading. For many years the School's annual concerts featured operettas composed and directed by Mr. Gordon. A man of high principles and great organizing ability, Mr. Gordon, through his enthusiasm, industry and consistent good humour, was an inspiration to all who learned from him and worked with him.

WILLIAM A. HAYDEN, M.A., M.Ph., Inspector of Separate Schools for Toronto R.C.S.S. Division No. 5, retired on September 11, 1964. Mr. Hayden was born in Ottawa and obtained his elementary school education in St. Patrick's School in that city. He attended the University of Ottawa, from which he graduated with a Bachelor of Arts degree and a Master's degree in Philosophy. Following his successful post-graduate studies, Mr. Hayden joined the staff of the University of Ottawa as a lecturer in languages. Subsequently, he accepted the appointment of Head of the Department of English on the opening of St. Patrick's College, Ottawa. In the year 1933-34, Mr. Hayden attended the Ontario College of Education, and on his graduation he received the appointment to teach English and History in Lisgar Collegiate, Ottawa, a position which he held until he was appointed a Separate School Inspector on September 1, 1940. Mr. Hayden was untiring in his efforts to assist and direct his teachers at all times to the end that a maximum of educational accomplishment might be achieved by the pupils under their care.

WILLIAM K. F. KENDRICK, B.A., B.Paed., retired from the position of Principal of the Ottawa Teachers' College on August 31, 1964. Born in the County of Leeds and Grenville, he received his early education in a rural school and at Brockville Collegiate Institute. Upon graduating from secondary school with a Carter Scholarship, he taught in a rural school for a year, then enrolled at the Faculty of Education in Kingston. Before completing his training as a teacher, however, he enlisted and served overseas with a Canadian Army unit for three years during World War I. In 1920, he returned to the Faculty of Education and graduated in the same year. After teaching and serving as Principal of an elementary and continuation school in Sioux Lookout for two years, he joined the staff of the Ottawa Technical School. While teaching, he continued his studies at Queen's University and graduated in 1926 as Bachelor of Arts with honours in English and History. A few years later, he received a Bachelor of Pedagogy degree from the University of Toronto. In 1931, Mr. Kendrick was appointed to the staff of the Toronto Normal School where he continued to teach until his appointment as Principal of the Ottawa Normal School in January, 1946, except for a two-year interval as Inspector of Public Schools in South Simcoe. During his long and distinguished career in the field of teacher education, Mr. Kendrick has given wise counsel to thousands of students and teachers. His good judgment, sound scholarship and strong leadership will long be remembered by his former students, members of his staff and associates.

NORMAN MUIR, B.A., B.Paed., was born at Glenannan, Huron County. He attended public school in S.S. No. 3 Turnberry and graduated from the Wingham High School and Toronto Normal School. He taught public school in S.S. No. 3 Turnberry. He attended Queen's University, graduated with an honour degree in English and History in 1934 and received a Bachelor of Pedagogy degree from the University of Toronto in 1938. From 1942 to 1946, he served with distinction in the army in England and Holland. From 1938 to 1942, and again from 1946

to 1948, he taught high school in Ridgetown. He was appointed Public School Inspector in 1948 and served in Rainy River District from 1948 to 1956 and in Peel County from 1956 until his retirement on September 14, 1964. His genial personality and wise counsel endeared him to all who sought his help. His conscientious service to education will long be remembered with appreciation by his former students and associates.

ELWOOD OAKES, B.A., B.Paed., retired from the position of Public School Inspector for Middlesex No. 3 on August 31, 1964, completing almost forty-two years in the employ of the Department of Education. He received his elementary and secondary school education in the City of Guelph and his teacher training at Stratford Normal School. He was a graduate in Arts from Queen's University and in Pedagogy from the University of Toronto. After teaching for more than six years in rural schools near Guelph and in the Galt Public School, he joined the staff of the Ottawa Normal Model School in January, 1923, serving as Principal between 1930 and 1939. In 1939, Mr. Oakes was appointed Public School Inspector for Leeds No. 2; in 1949 he assumed similar duty in Middlesex No. 3, with an office in Strathroy, the position which he held at his retirement. A firm advocate of the improvement of school accommodation in the rural areas, he encouraged the construction of rural central schools. The many rural central schools in the vicinity of Strathroy attest to his leadership in this field. A wise and kindly inspector, Mr. Oakes gave invaluable assistance through the years to teachers and school boards as well as to his colleagues in the inspectors' ranks.

L. E. ROUSE, B.A., B.Paed., retired from the position of Public School Inspector for the Hamilton Board of Education on August 31, 1964. Mr. Rouse was born in Dereham Township, Oxford County, and received his early education in the Tillsonburg Public Schools. After completing his secondary education in Tillsonburg, he attended Hamilton Normal School. Mr. Rouse's first teaching assignment was in S.S. No. 3 Moulton in Haldimand County. In 1923, he was appointed Principal of Lloyd George Public School in Barton Township. He held this position until 1929 when, by annexation, the school became one of the Hamilton Public Schools and was renamed Inverness School. During this period, he obtained a Bachelor of Arts degree at McMaster University and a Bachelor of Pedagogy degree from the University of Toronto. He served as Principal of the G. L. Armstrong, Bennetto and W. H. Ballard Public Schools and was appointed to the position of Inspector of Public Schools for the City of Hamilton on January 1, 1949. Mr. Rouse has had a very successful career in education. Among other laudable qualities, his tact, warmth of heart and good judgment have always been outstanding characteristics. He is greatly respected by those with whom he has worked and will be remembered with appreciation by teachers and pupils alike.

VERA E. RUSSELL, Mus. Bac., B.Ed., Master at the Toronto Teachers' College, retired on August 31, 1964. Born in Emsdale, Ontario, she received her elementary and secondary education in Toronto. While attending secondary school, she studied vocal music, theory, piano and organ at the Toronto Conservatory of Music. Prior to her appointment to the staff at the Toronto Normal School in 1938, Mrs. Russell served for fourteen years as Music Supervisor in Halton County schools and was responsible for organizing, in 1928, the first music festival in Ontario held outside the large urban centres. During the many years she taught music at the Toronto Teachers' College, she was an inspiration to thousands of students and a competent adjudicator at music festivals throughout the Province. While teaching, she continued her studies and obtained a Music Baccalaureate degree from the University of Montreal and a Bachelor of Education degree from the University of Toronto. As an outstanding teacher and author of books on the teaching of music, Mrs. Russell has made a lasting contribution to education in Ontario. Her fine personal qualities and her dedication to music education will long be remembered by her former students and associates.

J. W. TRUSLER, B.A., M.Ed., retired as Public School Inspector for Nipissing No. 5 on December 31, 1964. Born at Camlachie in Lambton County, he attended elementary and secondary schools at Plympton and Forest. He graduated from Stratford Normal School on June 6, 1917, and joined the Royal Flying Corps on the following day. He served as fighter pilot and as instructor in advanced flying from 1917 until May, 1919, and again as Assistant Chief Flying Instructor with the R.C.A.F. at Camp Borden from July, 1929 to April, 1932. Between 1919 and 1929, he taught in elementary schools for over 8 years, including 4 years as a principal in Chappleau and 2 years as a vice-principal in Kitchener. After leaving the Air Force in 1932, he taught in East York, served as Provincial Secretary of the Ontario Public School Men Teachers' Federation, and spent two years as Field Secretary of The Ontario Educational Association. Mr. Trusler received a B.A. degree from the University of Toronto in 1937 and a Master of Education degree in 1955. In 1939, he was appointed Public School Inspector with residence in North Bay where he served until his retirement. During his twenty-five years as an inspector, he took an active part on Provincial curriculum committees and, for 20 years, he volunteered his services as an instructor for Departmental summer courses. Keenly interested in community affairs, he served on the North Bay Public Library Board and was Chairman of the Northeastern University Executive Council. A man of vigour and perception, he contributed much to education over a large area, including parts of Nipissing District, Parry Sound District and the City of North Bay.

ANNIE W. WANNAMAKER, Instructor in Professional Training at the Ontario School for the Deaf, Belleville, retired on August 31, 1964, after 38 years of dedicated service to the school. Born in England, she came to the Belleville area at an early age and attended Cannifton-Corbyville Public School. After graduation from Belleville Collegiate Institute, she taught in the one-room school at Hartsmere, North Hastings, until her marriage. Following the death of her husband, she attended Peterborough Normal School and taught for two years in the one-room Milltown Public School. She was appointed to the staff of the Ontario School for the Deaf in 1926 and took the training course as Teacher of the Deaf. Specializing in the teaching of speech and language, she took summer courses in Toronto, Halifax and Northwestern University in this field. In 1953, she was appointed Instructor in Professional Training. During her career at the School for the Deaf, her sound teaching techniques and keen interest in each individual not only endeared Mrs. Wannamaker to her students but were an example to the many teachers whom she has guided and supervised.

SERVICE RECORD — PERSONNEL EMPLOYED BY PROVINCE OF ONTARIO DIED IN SERVICE

- T. R. Brown.....Elementary School Inspector, Elementary Education Branch, November 27, 1964.
- N. H. Pomfret.....Master 1, Hamilton Institute of Technology, Technological and Trades Training Branch, May 9, 1964.

RETIREMENTS ON SUPERANNUATION

- A. F. Brown.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Grey No. 1 and City of Owen Sound, August 31, 1964.
- G. N. Edwards.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Perth No. 2, July 31, 1964.
- T. O. W. Fowler.....Secondary School Inspector, Secondary Education Branch, August 31, 1964.

- Dr. R. Gauthier.....Director of French Instruction, Elementary Education Branch, October 31, 1964.
- S. A. Gordon.....Instructor in Professional Training, Ontario School for the Deaf, Belleville, August 31, 1964.
- W. A. Hayden.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Toronto R.C.S.S. Division No. 1, September 10, 1964.
- W. K. F. Kendrick.....Principal, Ottawa Teachers' College, Teacher Education Branch, October 19, 1964.

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas, and for the use of schools for practice teaching.

(2) Commencing with 1963, the former special grants were incorporated into the general legislative grant. The legislative grants for 1955, 1956, and 1957 are special per pupil grants. The legislative grants for 1961, 1962, and 1963 are the Residential and Farm School Tax Assistance Grant. The latter grant was incorporated into the general legislative grant in 1964. The amount shown for 1964 is in respect of the 1963 Grant.

NOTE: During the calendar years 1962, 1963, and 1964, payments in the amounts \$116,880,945, \$108,645,957 and \$24,209,090 respectively were made to School Boards for the construction and equipment of vocational accommodation under the terms of the Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario.

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare. These reports give the number of families transferring accounts into and out of each province. The data are compiled for a census year, June to May up to and including 1958-59 but for the school year thereafter. In order to show the number of children rather than families, the average for Canada—2.48 children per family—has been used as a multiplier.

TABLE 15—FULL-TIME TEACHERS IN ELEMENTARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1963..... 40,875

ACQUISITIONS—September 30, 1963 to September 30, 1964:

From private elementary schools.....	56
Teachers' Colleges (all courses).....	4,018
Letters of Standing.....	410
Former secondary-school teachers.....	108
Letters of Permission on September 30, 1964.....	373 (1)
Certified teachers re-entering profession.....	2,033
Others.....	226
Total, Acquisitions.....	7,224

WITHDRAWALS—September 30, 1963 to September 30, 1964:

To further education in teachers' colleges, universities, and other educational institutions.....	501
To teach in secondary schools, private schools, teachers' colleges, or schools outside Ontario.....	977
Employment in a non-teaching occupation.....	465
Marriage.....	283
Retirement.....	533
Illness.....	108
Death.....	36
Resumption of household duties (married women).....	2,281
Others.....	165
Total, Withdrawals.....	5,349

ACQUISITIONS LESS WITHDRAWALS..... 1,875

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1964..... 42,750

EXPLANATORY NOTE:

1. This total shows only the number of Letters of Permission issued for the school year 1964-65 for the month of September.

Source: Elementary-School Principals' September Statistical Reports, 1964.

TABLE 16—FULL-TIME TEACHERS IN SECONDARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1963..... 17,170

ACQUISITIONS—September 30, 1963 to September 30, 1964:

From private secondary schools.....	63
From Ontario College of Education (all courses).....	2,288(1)
Former elementary-school teachers qualified to teach in secondary schools.....	124
Qualified teachers re-entering profession who were employed previously on full-time basis.....	376
Letters of Standing.....	29
Letters of Permission on September 30, 1964.....	788(2)
Others.....	11
Total, Acquisitions.....	3,679

WITHDRAWALS—September 30, 1963 to September 30, 1964:

To enrol in a university or other educational institution.....	248
To teach in an elementary school, private school, teachers' college, or school outside Ontario.....	296
Employment in a non-teaching occupation.....	342
Marriage.....	199
Retired.....	81
Illness.....	29
Death.....	23
Resumption of household duties (married women).....	278
Others.....	148
Total, Withdrawals.....	1,644

ACQUISITIONS LESS WITHDRAWALS..... 2,035

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1964..... 19,205

EXPLANATORY NOTES:

1. This total of 2,288 does not include persons who were employed by Boards on Letters of Permission during the school year 1963-1964, who served as teachers during that school year, and who returned to the schools as teachers after successful completion of the 1964 eight-week summer course at the Ontario College of Education.
2. This total shows only the Letters of Permission issued for the school year 1964-1965 in the month of September.

Total.....	284,793	1,022	317,950	576,381,000

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

Source: Technical Adviser, Department of Education.

TABLE 19—DESTINATION OF PUPILS WHO LEFT ONTARIO ELEMENTARY AND SECONDARY SCHOOLS DURING THE TWELVE MONTHS ENDING THE LAST SCHOOL DAY IN SEPTEMBER, 1964

Destination of Pupils	Number	Percentage Distribution
Retired from school life to enter:		
Proprietary and Managerial.....	135	0.1
Professional.....	511	0.5
Clerical.....	13,910	11.6
Agricultural.....	3,179	2.7
Fishing, Hunting, Trapping and Mining.....	597	0.5

TABLE 24—ELEMENTARY SCHOOL ENROLMENT
(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST DAY IN SEPTEMBER, 1963	1,233,164
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public or separate school for the first time	163,475
(b) Pupils enrolled previously in another public or separate school in Ontario	264,371
(c) Pupils entering from private schools	1,888
(d) Pupils re-entering after a period of non-attendance	2,150
(e) Pupils from outside Ontario	24,391
TOTAL ADMISSIONS	456,275
TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS	1,689,439
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER	
(a) To public or separate schools	262,980
(b) To secondary schools—promoted	98,301
(c) To secondary schools—not promoted	11,482
TOTAL TRANSFERS	372,763
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario	18,670
(b) To Private Schools	7,501
(c) Died	430
(d) Health and other reasons	2,420
(e) Ceased to attend school (other than in (a), (b), (c) or (d))	9,182
TOTAL RETIREMENTS	38,203
TOTAL TRANSFERS AND RETIREMENTS	410,966
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964	1,278,473

TABLE 31—PUBLIC SCHOOL ENROLMENT

(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963.....	901,830
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public school for the first time.....	116,482
(b) Pupils enrolled previously in another public or separate school in Ontario.....	196,300
(c) Pupils entering from private schools.....	880
(d) Pupils re-entering school after a period of non-attendance....	1,485
(e) Pupils from outside Ontario.....	18,077
TOTAL ADMISSIONS.....	333,224
TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS.....	1,235,054
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) To public or separate schools.....	201,711
(b) To secondary schools—promoted.....	76,869
(c) To secondary schools—not promoted.....	8,281
TOTAL TRANSFERS.....	286,861
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario.....	14,134
(b) To private schools.....	1,660
(c) Died.....	311
(d) Health and other reasons.....	1,566
(e) Ceased to attend school (other than in (a), (b), (c), or (d)....	5,454
TOTAL RETIREMENTS.....	23,125
TOTAL TRANSFERS AND RETIREMENTS.....	309,986
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964.....	925,068

TABLE 44—ROMAN CATHOLIC SEPARATE SCHOOL ENROLMENT

(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963.....	331,334
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a separate school for the first time.....	46,993
(b) Pupils enrolled previously in another public or separate school in Ontario.....	68,071
(c) Pupils entering from private schools.....	1,008
(d) Pupils re-entering school after a period of non-attendance at any school.....	665
(e) Pupils from outside Ontario.....	6,314
TOTAL ADMISSIONS.....	123,051
TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS.....	454,385
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) To public or separate schools.....	61,269
(b) To secondary schools—promoted.....	21,432
(c) To secondary schools—not promoted.....	3,201
TOTAL TRANSFERS.....	85,902
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario.....	4,536
(b) To private schools.....	5,841
(c) Died.....	119
(d) Health and other reasons.....	854
(e) Ceased to attend school (other than in (a), (b), (c), or (d)).....	3,728
TOTAL RETIREMENTS.....	15,078
TOTAL TRANSFERS AND RETIREMENTS.....	100,980
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964.....	353,405

TABLE 56—SECONDARY SCHOOL ENROLMENT
(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963	364,210
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a secondary school for the first time:	
(i) from public and separate schools—promoted	89,047
(ii) from public and separate schools—transferred	11,464
(iii) from private schools	2,705
(b) Pupils enrolled previously in another secondary school in Ontario	33,772
(c) Pupils re-entering school after a period of non-attendance	3,478
(d) Pupils from outside Ontario	3,751
TOTAL ADMISSIONS	144,217
TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS	508,427
TRANSFERS SINCE THE LAST SCHOOL DAY IN SEPTEMBER	31,724
RETIREMENTS SINCE THE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Death, disability, marriage, etc.	2,898
(b) Left Ontario	4,185
(c) To continue their education	22,554
(d) Ceased to attend school (other than (a) and (b))	51,765⁽¹⁾
TOTAL RETIREMENTS	81,402
TOTAL TRANSFERS AND RETIREMENTS	113,126
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964	395,301

⁽¹⁾ Of this number, 31,824 students held secondary school diplomas or certificates.

TABLE 66—CERTIFICATES AND DIPLOMAS, 1964

A—STATEMENT OF STANDING, CERTIFICATE OF STANDING, AND CERTIFICATE OF TRAINING, 1964*

1. STATEMENT OF STANDING

Total

(a) Secondary Schools:

Issued by the principal, **upon request of pupils** who have left a secondary school, and who have completed successfully Grades 9 and 10 of the Four-Year or Five-Year Program in one of the Branches:

Continuing Program.....	802	
Reorganizing Program.....	833	1,635

(b) Elementary Schools:

Issued to pupils who have completed successfully Grades 9 and 10 in an elementary school.

Grades 9 and 10 of Public Schools.....	395	
Grades 9 and 10 of Roman Catholic Separate Schools.....	5,980	6,375

2. CERTIFICATE OF STANDING

Issued to pupils who have completed successfully Grades 9 and 10 of the Two-Year Program in a secondary school.

Two-Year Program.....	953	953
-----------------------	-----	------------

3. CERTIFICATE OF TRAINING

Issued to pupils who have completed successfully a One- or Two-Year course of study in the Occupational Program in a secondary school.

Occupational Program.....	2,992	2,992
		11,955

*INTERMEDIATE CERTIFICATES WERE LAST ISSUED
IN JUNE, 1963

TABLE 66—CERTIFICATES AND DIPLOMAS, 1964—(Continued)

B—THE SECONDARY SCHOOL GRADUATION DIPLOMA

Issued to pupils completing Grade 12 in 1964

Classes of Schools	Total number of pupils recom- mended	Pupils Classified by Courses								
		General				General Tech- nical	Tech- nical	Home Eco- nomics	Com- mer- cial	Art
		4 Options	5 Options	6 or more Options	Total

Northeastern..... Districts of Cochrane and Temiskaming (H.Q. Box 670, Kirkland Lake)	123,898	15	352,120	35,453	199,649	1.61
Northwestern..... Districts of Kenora, Rainy River and Thunder Bay (H.Q. Fort William, Waterloo and Moodie Streets)	181,090	21	239,000	80,661	423,333	2.34
Southwestern..... Counties of Essex, Kent and Lambton (H.Q. Chatham P.L.)	447,763	50	1,063,898	2.38

Regional Library Co-operatives are established under Part III of the Public Libraries Act and are designed to provide and encourage co-operative services among member libraries.

(1) Member libraries listed are totals for the region and do not necessarily participate in all services. (2) Headquarters circulation and (3) expenditure are unduplicated: they do not include totals reported elsewhere. (4) Total of all public library expenditure in the region, and (5) expenditure per capita for the region.

TABLE 85—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION

(Dates indicate year of printing or reprinting without revision)

A. COURSES OF STUDY

Grades 1 to 10

Programmes of Studies for Grades 1 to 6 of the Public and Separate Schools reprinted with minor revisions in 1963.

Programme for Religious Education in the Public Schools, 1949.

Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10) Music, English (Grades 7-8) 1964.

Curriculum I. 1(e), Intermediate Division Science (Grades 7-10) 1961.

Curriculum I. 3 & S. 5, Guidance in the Intermediate and Senior Divisions, 1961.

Curriculum I. 4, Reading List for the Intermediate Division (Grades 7-10) 1957.

Curriculum I. 4A, Supplement to Intermediate Division Reading List (Grades 7-10) 1964.

Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, (Grades 7-10), 1952.

Curriculum I. 6, Intermediate Division Home Economics, 1964.

Curriculum I. 7 & I. 9, Geography, History and Government, Social Studies, Intermediate Division, 1962.

Curriculum P. & J. 4, Primary and Junior Divisions Reading List, 1960.

Curriculum P. & J. 4(b), Primary and Junior Divisions Reading List, 1963.

Curriculum P. 5, Physical Education, Primary Division, 1956.

Curriculum J. 5, Physical Education, Junior Division, 1959.

Curriculum I. 12A, Intermediate Division Mathematics, (Grade 7) 1963.

Curriculum I. 12B, Intermediate Division Mathematics, (Grade 8) 1964.

Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1959, 1961.

Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.

B. REVISION OF CURRICULUM

Curriculum 2, Promotion from Grade 8 and Admission to Grade 9, March 30, 1950, 1958.

C. COURSES OF STUDY

Grades 9 to 13

Circular H.S. 1, Requirements for Certificates and Diplomas, issued annually. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas and Secondary School Honour Graduation Diplomas.

Circular H.S. 1B, List of Publications re Courses of Study (Grades 9-13) issued annually. Lists Circular Numbers and Titles of the various Courses of Study.

Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10) 1964.

Curriculum S. 4A, Reading List for Senior Division (Grades 11-13) 1961.

Curriculum S. 4AC, Supplement to Senior Division Reading List (Grades 11-13) 1962.

Curriculum S. 8, Grade 13 Curriculum Bulletin, 1964.

Curriculum I. & S. 15, Intermediate and Senior Divisions Modern Languages (Grades 9-13) 1961.

Curriculum I. & S. 16, Music (Grades 9-13) 1960.

Courses in the various subjects of Grades 11, 12 and 13. These should be requested by subject and grade.

Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1959, 1961.

Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.

Circular 58, Prescriptions in English and Modern Languages for Grade 13 Departmental Examinations. issued annually.

D. TEACHING AIDS

Art

Art and Crafts in the Schools of Ontario, 1949, 1960.

Art Education in the Kindergarten, 1952, 1956.

Art Education for Slow Learners, 1953, 1959.

Art Education during Adolescence, 1954, 1958.

Children and Their Pictures, 1954, 1961.

Library

Teachers' Library Catalogue.

TABLE 85—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION—(Concluded)

Music

- Circular Mus. 3, School Music Festivals, 1950.
- Circular Mus. 5, Memorandum relating to the Teaching of Music in Elementary and Secondary Schools, 1955. (Out of print).
- Circular Mus. 6, Careers in School Music, 1957.
- Circular Mus. 8, Song Books for School, 1958.

Radio

- School Radio Broadcasts, issued annually.

Religious Exercises, Religious Education and Religious Instruction

- List of Bible Readings for Schools, 1944, 1949, 1958.

The statistical tables in the Report of the Minister 1965 have been regrouped to conform with the reorganized structure of the Department. In addition, the tables have been renumbered in accordance with the principle of the Dewey decimal system. For the convenience of readers, the numbers of tables in the 1964 edition of the Report to which the current tables correspond will be found in the second of the two right-hand columns below under the heading "1964 table 1 Reference".

This year, for the first time, a large proportion of the statistical material in the Report of the Minister is the product of the electronic data-processing equipment installed at the Education Data Centre.

By way of experiment, the tables in Appendix 3 (pp. 199), "Secondary Schools, Enrolment and Teachers," have been reproduced in the form in which they came from the computer.

STATISTICS—1. SUMMARY

	Page	1964 TABLE REFERENCE
TABLE 1.1 Summary of Public Education in Ontario, September, 1965 (Schools, Teaching Areas, Teachers, Enrolment, Boards)	68	1
1.2 Population and School Enrolment in Ontario (1947-1965)	69	3

	Page	1964 TABLE REFERENCE

Report of the Minister of Education 1965

To The Honourable W. Earle Rowe, P.C. (C)
Lieutenant-Governor of the Province of Ontario

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1965. In the period under review, continuing efforts were made to extend and re-orientate the well-tried educational system of the Province along lines that would ensure growth to meet the changing needs of today while creating a sound foundation for dealing with a prospective pattern of change in the future.

One important forward-looking feature of the year's activities was the extensive reorganization in January of the departmental structure itself, which is discussed in some detail in the following pages. A further move in the same direction was the inauguration of a computer-based approach to the processing of educational data. Although this is already reflected to some extent in the statistical section of the present report, its effects will be more clearly observable as the new methods are tested and established in the coming years.

Enrolments in September 1965 reached levels never before attained. The provincial total for elementary and secondary schools in that month stood at 1,738,781. The overall increase surpassed the 1964 figure by 65,007 or 3.9%, which represented a rise of 41,570 or 3.25% in the elementary schools and 23,437 or 5.9% in the secondary schools.

As the range of subject matter in the schools grows wider and more complex, the need for teachers with a higher level of qualification gains in urgency. For elementary schools the supply of teachers during the year broadly balanced the requirements, although a shortage persisted in the separate schools. Students registering at the Teachers' Colleges as of October 15 numbered 5,913, a figure which was influenced by the fact that the last group of candidates for the emergency Two-Year Course enrolled in September 1964. Last fall a new Teachers' College opened in temporary quarters at Brock University in St. Catharines. At the end of 1965 the committee engaged on a study of the training of elementary school teachers had almost completed its work and preparation of a report was in progress.

A total of 4,052 candidates took initial training leading to secondary teaching certificates, an advance of 458 on 1964. Summer courses attracted 8,049 teachers who outnumbered their counterparts in the previous year by 827. The drive to find untapped sources of recruits for the teaching profession was prosecuted through the medium of three experimental courses, one for teachers of French in elementary schools.

As a result of the application of Bill 54 (1964), which accelerated the movement towards larger units of school administration, the number of Township School Areas

into which former three-man rural school boards had been consolidated stood, by the late fall, at 596. Under the provisions of Bill 88, passed during 1965, the trend towards enlarged administrative entities was extended in such a way that county councils in Southern Ontario and municipal councils in the north were given authority to alter the boundaries of all school sections other than those involving cities or separated towns. Following passage of the legislation, a number of county and district school areas, as well as enlarged township school areas, were set up. They included the Peterborough and Prescott County School Areas, each encompassing the whole of the appropriate county, and the South Grey Board of Education, which takes in three urban municipalities, two whole townships and parts of two others. Two district school areas on similar lines were established in the District of Algoma. As the year ended, the prospect was for early formation of other enlarged units of the same kind.

In the field of school building, the creation of township school areas has, of course, sustained the demand for centrally located graded schools in rural areas which has been in evidence for the past three years. At the secondary level the tendency during the year was towards the construction of a larger number of smaller projects providing more elaborate and, in many cases, expanded facilities such as libraries and teaching areas for commercial subjects. In the five-year period since 1961 the unit cost per pupil place in elementary schools has risen from \$806 to \$1,002 and in secondary schools from \$1,636 to \$3,510. In the latter case the sharp increase in capital costs was largely due to the unprecedented expansion of vocational facilities under the Federal-Provincial Technical and Vocational Training Agreement.

Curriculum, a key sector of educational change in the Department, received intensive attention. Forty-one committees, several of them set up during the year, were occupied with a continuing reappraisal and modernization of courses of study. To complement and support their efforts, a start was made on broadening liaison between the Curriculum Division and classroom teachers.

Solutions for Grade 13 problems moved closer to decision. By the end of the year, recommendations made in March by the General and Advanced Committee in respect to the preparation of tentative courses of study had been implemented and outlines of the courses had been completed by committees representative of the secondary schools and the universities. The outlines will be distributed for study early in 1966.

Since the publication of the Hope Report (by the Royal Commission on Education in Ontario) in 1950, no thoroughgoing study of purpose and direction in the educational system of the Province has been undertaken. In the intervening fifteen years, the social, economic and technological changes sweeping the world have affected the whole structure of education almost everywhere. For these reasons, the Provincial Committee on Aims and Objectives of Education, formally appointed in June, came into existence at an opportune time. Its 21 members, under the distinguished chairmanship of Mr. Justice Emmett M. Hall, include 15 leading lay citizens of the community, five nominated members of the teaching profession and the Superintendent of Curriculum. At the end of the year, submissions from many quarters had been made to the committee in briefs and at public hearings. In 1966, members will hear expert views, and their own researches will be extended to educational practice in other provinces and countries. While their report is awaited, interim steps to update

courses of study for the Kindergarten and Grades 1 to 6 are being taken by the Curriculum Division.

In response to the rising demand for teachers of French, among other foreign languages, special summer courses were again offered and a new course for candidates proficient in oral French was instituted at several Teachers' Colleges in the fall.

Growing interest in school library services throughout the school system resulted in a sharp increase in enrolments in a course for teacher-librarians and stimulated active interest in school librarianship as a profession. Departmental book grants for elementary schools and building grants for both elementary and secondary schools spurred local boards to embark on larger school library projects.

The newly created Educational Television Section, which was integrated into the Curriculum Division, marked the important first step on the road to a provincial educational television service. Two series of programs—one in Grade 7 Mathematics, the other in Grade 13 Physics—went into production. They were the forerunners of others, now in the planning stage, which will be directed at audiences of many types from the pre-school to the adult years.

Two related developments were designed to establish continuity between the elementary and secondary panels of the provincial system and, at the same time, to produce more streamlined and effective administration. A program combining many features was put into effect to integrate the supervision of elementary and secondary schools. Simultaneously, the first five units in a plan to decentralize the administrative structure were created. Five new Area Offices were opened, each under the control of an Area Superintendent who will gradually acquire a large measure of supervisory and administrative responsibility. In due course, this network of area offices will extend throughout the Province.

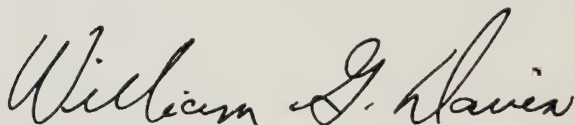

Year by year a story of quiet achievement is built up by those who work with handicapped children of all kinds. In 1965, the Special Schools and Services Branch in its reconstructed form added to its activities a new Schools for Retarded Children Division which will be responsible for the educational programs in 93 day schools operated by Retarded Children's Education Authorities.

Opportunities for technical and vocational training at the post-secondary level were the focus of much student interest. All the Institutes of Technology, all the Vocational Centres and the Advanced Technical Evening Classes under the jurisdiction of the Technological and Trades Training Branch reported rises in enrolments, some of them large, with the attendant accommodation problems. The Ryerson Polytechnical Institute in Toronto announced an expansion scheme designed to raise its capacity to 10,000 full-time students by 1970. Small business courses under Program 4 and retraining courses for unemployed persons under Program 5 of the Federal-Provincial Technical and Vocational Training Agreement drew ever-increasing interest.

In the final assessment of the year, from which the research and community counselling of the Youth Branch cannot be omitted, two innovations are likely to stand out as having had special significance. The first was the legislation that paved the way for the development of Colleges of Applied Arts and Technology, whose evolution will

establish new opportunities in post-secondary education in this Province; the second, no less important, was the establishment of the Ontario Institute for Studies in Education, whose planned projects and pursuit of new directions in many fields constitute a research program that seems certain to exert great influence upon schools in the years ahead.

Respectfully submitted,

A handwritten signature in dark ink, reading "William G. Hawes". The signature is written in a cursive style with a large, prominent initial "W".

Toronto, December 31, 1965.

Minister of Education.

Reorganization of The Department

In 1950, the Report of the Royal Commission on Education in Ontario, in a discussion of the aims of education, said:

“We have reason to be proud of Ontario’s educational system. But education must always be on the march in order to meet new conditions. If those who are responsible for our educational system ever believe that it has attained a stage of final perfection, it will have become a crystallized agency for indoctrination.”

Today education is “on the march” as at almost no other period in our provincial history. “New conditions” could have been a predesigned label for our own time and for the years that will take us into the twenty-first century. In our pursuit of the goal of equality of opportunity in education for all our citizens, we are confronted by an explosion of knowledge in all the sciences, old and new, and in many other branches of learning. At the same time, the services and institutions which our educational system has thrown up as the need arose in the course of a hundred years and more of development have become increasingly complex, particularly since the end of World War II.

It had consequently become evident that the operations of the Department of Education, which is the hub of the educational system of Ontario, needed to be re-examined and, perhaps, refashioned if the Department were to be equal to the new demands, new needs and new perspectives in education which have been developing over the past twenty or so years.

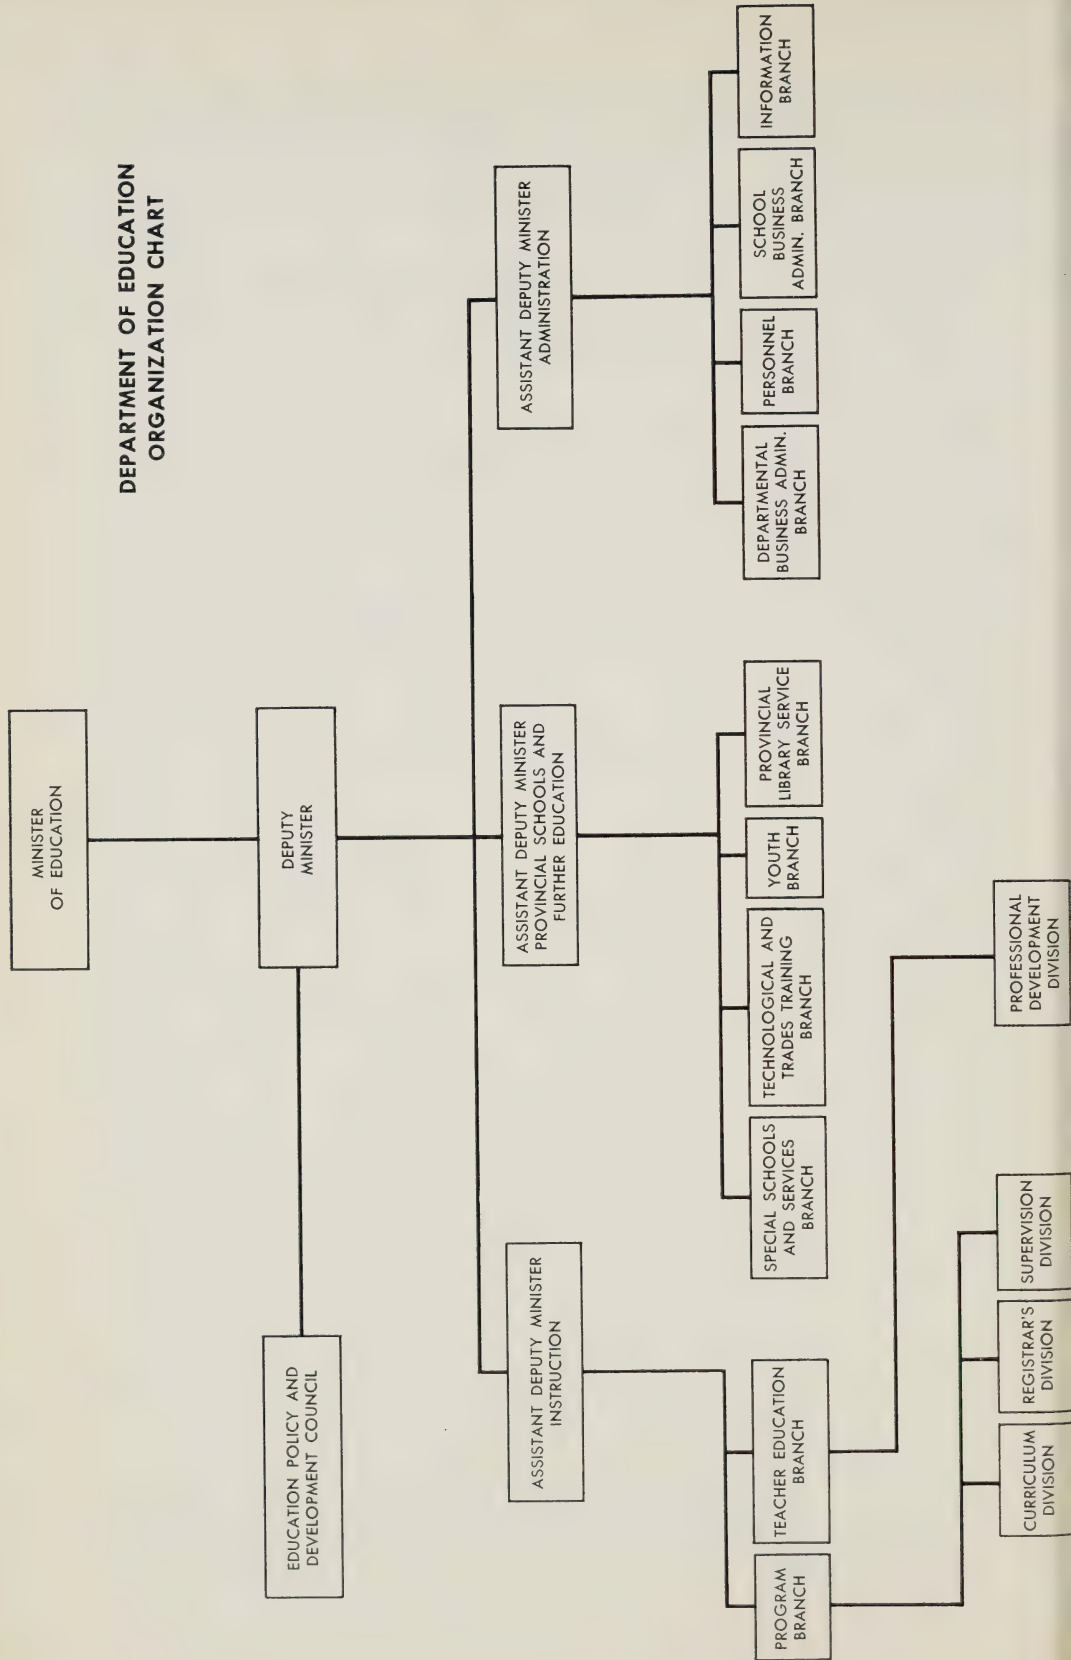

Accordingly, in 1962, officials from various government agencies were asked to review the staffing and organization of the Department. After making their own studies and consulting with members of the Department and others over a period of two years, they produced a reorganization plan which was put into effect at the beginning of 1965. Explanations of the application of the plan are given in the present report at points where they have been thought necessary to assist in providing a comprehensive picture of the Department and the system it serves under present conditions. What follows, therefore, is a broad outline of the organization itself, which is clearly presented in graphic form on the organization chart on page 2.

In place of a Chief Director, an office which has been discontinued, the senior administrative officer of the Department under the Minister of Education is now the Deputy Minister. Like him, the Policy and Development Council, a body which concerns itself with planning and with the co-ordination of educational development, reports directly to the Minister. Supporting the Deputy Minister are three Assistant Deputy Ministers, to whom large areas of responsibility are delegated.

The Assistant Deputy Minister, Instruction, is answerable for two branches:

1. the Program Branch, which has charge of the entire instruction program for the Province, and oversees curriculum, elementary and secondary education, examinations and supervision;
2. the Teacher Education Branch, which is responsible for the training of elementary-school teachers at Teachers’ Colleges, for the professional development of teachers, and for liaison with the Ontario Colleges of Education, where secondary-school teachers are trained.

DEPARTMENT OF EDUCATION ORGANIZATION CHART

The second pillar of the supporting structure is provided by the Assistant Deputy Minister for Provincial Schools and Further Education. Four branches operate under his jurisdiction:

1. the Special Schools and Services Branch, which is concerned with schools for blind and deaf children, schools for retarded children, community programs and correspondence courses;
2. the Technological and Trades Training Branch, which operates the Institutes of Technology and the Ontario Vocational Centres and which will be generally responsible for the relations of the Department with the new Colleges of Applied Arts and Technology;
3. the Youth Branch, whose work is directed at helping young people to meet the opportunities and challenges of the modern world; and
4. the Provincial Library Service, which, by a variety of means, assists county and municipal councils, individuals and public library boards in furthering standards of library service.

All the administrative apparatus of the Department of Education is now concentrated under the third of the three Assistant Deputy Ministers, whose title therefore is Assistant Deputy Minister, Administration, and whose authority covers four branches:

1. the Departmental Business Administration Branch, which controls the internal operations of the Department;
2. the Personnel Branch, which has the task of administering departmental personnel matters, including staffing, employee relations, job evaluation, staff development and organizational studies;
3. the School Business Administration Branch, which attends to business and administrative matters affecting the schools of the Province; and
4. the Information Branch, whose function it is to create and sustain two-way channels of information about the Department and its activities with the general public, school trustees and teachers.

In essence, the main purposes of the arrangements outlined here are to achieve and maintain a smoothly functioning, flexible organization, and to release the full energies of educators for the manifold tasks now facing them by relieving them to the greatest possible extent of purely administrative activity.

Details of the structure and workings of each of the individual branches are spread through the report that follows, together with an account of the operations of the re-constructed Department in its first twelve months of existence.

Program Branch

The Program Branch, formed in January, 1965, is responsible for the entire instruction program in the schools of Ontario.

One of its main functions is to put into effect the integration of elementary and secondary education in the Province. An additional purpose is to gather together,

under unified authority, curriculum, school supervision, examinations, testing and certification.

A number of individual responsibilities, formerly administered by small specialist branches in the Department, have been incorporated into the framework of the Program Branch.

CURRICULUM DIVISION

Scope and Function

In January, 1965, the Curriculum Division was expanded to include representation from the former branches concerned with art, guidance, music, and physical and health education. The directors of those branches became assistant superintendents in the new Division, and inspectors who had been active in the branches were transferred to the Supervision Division. Under the new divisional arrangements, the former Audio-Visual Education Branch became a Section, and a new Section, to administer Educational Television, was created during 1965.

The objectives of the Division can be stated as follows:

- (1) to articulate courses of study for Grades 1 to 13;
- (2) to provide new courses and programs designed to meet a wide variety of student needs;
- (3) to promote the best of new teaching methods, materials and techniques, including educational television and other audio-visual media and technological devices;
- (4) to carry out a continuing revision of curriculum publications in order that the school program may benefit from the findings of educational research, from the latest developments in scholarship, and from contacts with business and industry;
- (5) to redirect emphasis in the curriculum so as to prepare students for life in a technologically advanced society;
- (6) to ensure, within the limits of the school program, that the sense of identity and integrity of the individual and the values of society are preserved and enhanced.

Since September, 1965, members of the staff have been visiting the elementary and secondary schools of the Province to identify needs of the classroom teacher, to gather suggestions for improvement of courses, and to assist in the interpretation of new and revised courses.

In view of the additional responsibilities assigned to this Division, it is anticipated that the staff will be augmented to include specialists in all areas of the school program.

Curriculum Developments

During 1965, some 41 curriculum committees were engaged in the development of curriculum materials and course outlines for use in the schools. Members of the committees, totalling 345 in number, included teachers, inspectors, staff personnel of Teachers' Colleges and representatives of the professions and industry, all working with the Division staff.

Course outlines were completed for Chemistry (Grades 12 and 13), a Co-operative Course for Nursing Assistants (Grades 11 and 12), a Dietary Supervisors' Course (Grades 11 and 12), Marketing, Mathematics (Senior Division), Music (Intermediate Division), World Politics (Grades 11 or 12), and fifteen General and Advanced Level

Grade 13 Courses. Study Guides to assist in the implementation of new Grade 13 Courses in Biology and Physics were distributed to all secondary schools.

Committee work continued on many other courses: Grade 12 Chemistry; French (Grades 7 and 8 for English-speaking Pupils); Health; Home Economics (Grades 12 and 13); Hospital; Home and Associated Aids; Latin; Mathematics (Grade 10, Five-year Program); Mathematics (Grades 10, 11 and 12, Four-year Program); Music (Grades 7-13).

New committees formed in 1965 were concerned with the following topics:

Curriculum Revision for Kindergarten and Grades 1-6; Chemistry for the Four-year Program; Computer Science Education; Data-Processing; Electronics and Electricity; Fashions; and a Consultative Committee on Occupations. Additional committees were set up to develop sample examination papers in Grade 13 Biology, Grade 13 Physics, and Grade 12 Mathematics.

Grade 13 General and Advanced Project

In 1964, a Grade 13 Study Committee was set up to inquire into and report upon the nature and function of the Grade 13 year in the Ontario educational system. This committee recommended that instruction in the Matriculation Year be offered at two levels, general and advanced, and that a representative committee be appointed to study the implications of the recommendation regarding general and advanced levels of courses. The General and Advanced Committee submitted its report to the Minister in March, 1965, and recommended that committees with both secondary-school and university representation be established in each subject field to prepare broad, tentative outlines of courses, as guides for experimentation and as an indication to the universities of what they may expect from students taking each level.

In September, 1965, such committees were appointed for most subject fields. The chairmen of the committees visited the universities and other post-secondary institutions to discuss topics for the proposed outlines; they met secondary-school teachers singly or in groups, and invited guests to present ideas to the committees. Written suggestions were received from several interested groups.

By the latter part of December, the committees had reached agreement on the broad, tentative outlines which will be submitted early in 1966 for general study and for consideration by the Minister.

Provincial Committee on Aims and Objectives of Education in the Schools of Ontario

Most of the children who entered Ontario schools in September, 1965, are likely to spend a considerable proportion of their working lives in the twenty-first century. If, as many authorities predict, the rate and extent of social, economic and technological change is maintained, or accelerates, in the coming decades, educational objectives will need continuing reappraisal and school programs will have to be designed to respond accordingly.

With this prospect in view, it has become evident that educational programs of the future must be characterized by a flexibility that will satisfy society's changing requirements, by a diversity that will meet a variety of interests and aptitudes among students and by a continuity that will do justice to the ethical and democratic traditions of the Province.

It was against this background that the Provincial Committee on Aims and Objectives of Education in the Schools of Ontario was established. The 21 members of the Committee are made up of 15 leading citizens of the community, chosen to represent all geographic areas and as many as possible of the religious, ethnic, economic and cultural facets of provincial life, together with five teachers nominated by the Ontario Teachers' Federation, and the Superintendent of the Curriculum Division in the Department of Education. The Hon. Mr. Justice E. M. Hall, D.C.L. was appointed Chairman. After the death on October 22 of Sister Mary Stanislaus, one of the original members, Sister Alice Marie, Mount Saint-Joseph, London, was appointed to take her place.

Although the committee was concerned at the outset with the education of children in the Kindergarten and Grades 1 to 6, it quickly became clear that the aims and objectives formulated would be effective only if they were valid at all levels of the school system. The committee's terms of reference were, therefore, so phrased as to take into account the school years ranging from Kindergarten to Grade 13.

The terms of reference in operation are as follows:

- (1) to identify the needs of the child as a person and as a member of society;
- (2) to set forth the aims of education for the educational system of the Province;
- (3) to outline objectives of the curriculum for children in the age-groups presently designated as Kindergarten, Primary and Junior Divisions;
- (4) to propose means by which these aims and objectives may be achieved;
- (5) to submit a report for the consideration of the Minister of Education.

Meetings of the committee were held from April 7, 1965, onwards. Public hearings took place in Ottawa in December and others were planned for London, Toronto and Sudbury early in 1966.

Kindergarten to Grade 6 Revision

Pending the report of the Provincial Committee on Aims and Objectives in Education, interim steps to update the courses of study for the Kindergarten and Grades 1 to 6 are being taken by the staff of the Curriculum Division, in consultation with inspectors, Teachers' Colleges, teachers, and the Ontario Teachers' Federation.

The principal purposes of the interim revision are to draw recent curriculum changes to the attention of teachers, to introduce new content, and to suggest new approaches. It is not expected that the revision will be of such magnitude as to require extensive retraining of teachers or the development of new textbooks.

Textbook Policy

Any program of instruction is designed to satisfy a wide range of interests and abilities, to equip students with skills and knowledge for the world of work, and to provide the best possible general education capable of development and adaptation at the local level.

For these reasons, schools should be free to select from a multiple listing of approved textbooks those that best suit their needs. Circular 14, in which such approved textbooks are listed, is gradually being expanded in accord with this principle.

The contribution that has been made to Canadian education and to Canadian culture by the Canadian textbook publishing industry is recognized. The Department,

therefore, looks forward to continuing its constructive co-operation with Canadian authors and publishers under changing conditions.

Provision of Textbooks by Local Boards

From September, 1965, local boards were required to provide, without cost to the students, the textbooks necessary for all courses in Grades 11 and 12. To assist in the implementation of the plan during the introductory year, the Department reimbursed the boards at the rate of \$20 per student of average daily attendance of the preceding year.

The extension of the departmental grant for textbooks in these grades marks the final phase of a policy to provide equality of educational opportunity as regards textbooks to the students in the elementary and secondary schools of the Province.

Because of the many new courses that have been developed under the Reorganized Programs of Study, it is important that a reasonably wide choice of texts be available to teachers. Although the new grants may cover the cost of textbooks in some areas, many school boards may find it desirable to supplement the amount of the grant for their own local purposes.

Joint Committee on Textbooks

In June, 1965, a Joint Committee on Textbooks was established to inquire into, and report upon, the results of the introduction of special grants for the provision of textbooks for students in the secondary schools of Ontario; to identify the educational and administrative problems arising from the implementation of the textbook grants; and to make such recommendations for the modification of the existing procedures as they deem necessary.

Members of the committee are drawn from the Ontario Secondary School Teachers' Federation, the Ontario Teachers' Council, and the Department of Education.

Modern Languages

There was an ever-growing awareness during the year of the importance of foreign-language instruction in Ontario schools. To meet the demand for French teachers, special summer programs were again provided in Ottawa and Toronto where 286 candidates were certificated as instructors in French for elementary schools. In the fall, French was offered as an option to 70 orally proficient candidates in the two Teachers' Colleges in Toronto. During the year much work was done in preparation for the special 'immersion' program in French to be offered in the summer of 1966 to 200 French teachers from elementary and secondary schools who wish to improve their qualifications.

A curriculum committee was formed within the Curriculum Division to prepare a course of study in French (Level One and Level Two) which, in the autumn of 1966, will become an official option in Grades 7 and 8. Other curriculum committees prepared broad outlines of courses in French and German for possible use at the General and Advanced Levels of Grade 13. The Department of Education initiated two experimental programs in French-language instruction; one, conducted in six secondary schools of the Province, evaluated audio-lingual material designed for the Four-year Program; the other examined the feasibility of oral testing of languages at the Grade 13 level.

School Libraries—Elementary and Secondary

A rapidly developing interest in the improvement of school library services has been shown at all levels.

Encouraged by the increase in the departmental grant from \$1 to \$2 per pupil of average daily attendance for library books and by the continuance of the legislative grant to build a library in schools with 12 or more classrooms, many elementary boards have not only built central libraries but have also attempted to match the departmental book grant. A further indication of growing interest in elementary school libraries was the rise in enrolment in the Summer Course for Elementary-School Teacher-Librarians: 196 teachers registered for the first-year section and 86 for the second-year section, an increase overall of more than 100% over the figures for 1964.

At the secondary level, an improved legislative grant for construction of library quarters has spurred many boards to provide the larger libraries required to support an increasing emphasis in new curricula upon independent research and study. Libraries in new secondary schools are usually planned to function as library materials centres, a concept which places audio-visual media in the library for students to use in conjunction with books and periodicals.

More teachers were attracted to school librarianship as a career during the year. There was an increase of about 40% in the enrolment in summer courses for school librarians offered by the Ontario College of Education. The number of secondary-school librarians who hold the degree of Bachelor of Library Science increased from 49 to 71. Of the nearly 500 secondary schools in Ontario, 252 now have librarians-in-charge who possess library training ranging from one summer course to the post-graduate degree in library science.

Audio-Visual Education Section

Film Distribution

Demands for film services from elementary and secondary schools served directly by the film library continued to increase. The screening reports indicate 153,539 showings of films to a total school audience of 6,439,918 students during the current school year.

The policy of encouraging local boards of education, employing a substantial number of teachers, to operate their own basic film service was continued. Some additional blocks of films were placed with these local film libraries on extended loan. The Audio-Visual Section has deposited 6,515 films with 28 libraries, and improved service to teachers in areas concerned has resulted.

New Films

To keep pace with the growing emphasis on curriculum revision, new titles were acquired by the Audio-Visual Section. Since the publication of the Department's 1965 film catalogue, 79 additional titles have been obtained. Regular monthly screening sessions took place during the school year to evaluate recent educational film releases. Other special screenings were held to suit the convenience of select committees investigating specific subject materials.

Other Aids

Lists of Recommended Filmstrips, Recommended Recordings, and Free and In-

expensive Materials were prepared and widely distributed, on request, to Ontario schools.

School Radio Broadcasts

School radio broadcasts continued to be widely received in the elementary and secondary schools of Ontario. Evaluation reports indicate that this service makes a worthwhile contribution to the work of those classes where radio broadcasts are used. With the co-operation of the Canadian Broadcasting Corporation, 160 programs were prepared and presented. In addition, 40 national broadcasts and 20 exchange programs from the British Broadcasting Corporation were offered.

Radio manuals outlining the series of broadcasts were distributed in quantity during September to all elementary and secondary schools.

Educational Television Section

This new Section was established, as an integral part of the Curriculum Division, to plan and develop the role which the Department of Education will play in the evolution of educational television in the Province.

A number of staff appointments were made, and at the end of the year production of two series of programs for schools was in progress. The series covered respectively 18 half-hour programs in Grade 7 Mathematics and 17 half-hour broadcasts in Grade 13 Physics. Production of the two sets of programs was accomplished with the co-operation of the CBC and television station CFTO-TV in Toronto. The actual telecasts will be carried out through the facilities of the CBC, CFTO-TV and all the private television stations in Ontario.

During 1966, the Department will apply to the Board of Broadcast Governors for a licence to establish a television broadcasting station for the purpose of producing and transmitting programs of an educational nature.

Plans are now being made to expand the number of broadcasts for the school year 1966-67 to include some programs striking out in new directions in curriculum development.

REGISTRAR'S DIVISION

Grade 13 Departmental Examinations

In 1965, 3-hour examinations in English, Français and other languages were introduced for the first time. These replaced the two 2½-hour papers of former years. The opportunity of writing a single 2-hour examination was given to pupils who had obtained standing in the complementary paper in English, Français or another language at a previous examination. In this transitional year, ten more papers were set than in 1964. In all, 45 different papers were prepared, the subjects including Latin in French, and Problems. In the period from June 8 to June 29, a total of 48,350 students wrote 223,077 papers. The examinations were held in secondary schools in this Province and in universities in Canada and throughout the world. The results were released to school principals on August 16. At the same time, universities were provided with books of marks and magnetic tapes of the Grade 13 records for the current year for use in their admissions offices.

In the candidate's final standing, 25% was based on a mark which, in the opinion of the principal and the teachers, represented his proficiency in the subject concerned

during the school year. The written examinations accounted for 75% of the mark. The examinations of 1966 will implement the Grade 13 Study Committee's recommendation that the teacher's mark should represent 35% of the candidate's departmental standing.

Recognition was accorded for the first time to some 3,718 students from private schools by the issuance of Secondary School Honour Graduation Diplomas to pupils who had earned the required number of credits. Eighteen students who wrote as privately prepared candidates also received Secondary School Honour Graduation Diplomas.

Teacher Certification

The program of exchange and upgrading of teachers' certificates, introduced in 1962, continued to produce a heavy volume of work involving the evaluation of various types of certificates and university courses. In 1964, a total of 8,672 teachers exchanged their certificates for the new type or for a higher certificate. This number levelled out in 1965 to 4,956. The number of applications for summer courses that passed through the Division rose from 10,772 in 1964 to 12,774 in 1965. Applications for admission to Teachers' Colleges were processed by the individual colleges.

Scholarships for Study Outside Ontario

From the \$8,000 provided by the Province for scholarships for study outside Ontario, awards for the school year 1964-65 were made to: Mr. Keith D. Beckett, Parkdale Collegiate Institute, Toronto, to study at the Sorbonne, France; Miss Florence E. Bradford, Supervisor, Public School Board, Ottawa, to study in France; Mr. F. G. Bull, Stamford Collegiate Institute, Niagara Falls, to study at the Middlebury College (Vermont) Graduate School in France; and Mr. K. C. Tancock, of the Collegiate Institute, Agincourt, to study at the Institute of Education, University of London, England.

Teacher Exchange

During the school year 1964-65, a total of 28 Ontario teachers took part in exchange arrangements: 23 in the United Kingdom, four in the United States and, by special arrangement, one in Australia.

Transportation Assistance

The transportation subsidies offered by the Department of Education for persons who reside in the territorial districts and who are enrolled in eligible institutions of university rank have been provided for the past 18 years. In the year 1964-65, the sum of \$23,040 was paid to 933 students, of whom 616 resided east of Sault Ste. Marie and 317 west of that city. Of the students receiving assistance, 333 were in the first year of their courses, 259 in the second, 242 in the third, 86 in the fourth, 9 in the fifth, and 4 in the sixth.

SUPERVISION DIVISION

Scope and Function

The Supervision Division supervises and assesses the educational program carried out in the public, separate and secondary schools of the Province. Its school inspectors maintain constant contact with the schools and teachers. Inspectors residing in their

inspectors co-operate with school boards to the end that the schools may best serve the needs of the pupils. Both the resident inspectors and staff inspectors who are specialists in particular subjects of the school program assist teachers to improve their practice so that classroom work may match the changing requirements of students in a society which is itself in a state of flux.

Since the establishment of Area Offices in the Province (see page 12), many of the functional aspects of the Division are now being undertaken at the area level. Division officials at the head office work in close conjunction with the Area Superintendents in carrying out the policies of the Minister and the Department.

A continuing conversation is maintained with officials of the Curriculum Division whose function is complementary to that of the Supervision Division.

Integration of Elementary and Secondary Education

One of the purposes of the departmental reorganization was to bring the elementary- and secondary-school panels of the school system more closely together with a view to serving more effectively the best educational interests of the pupils. The Supervision Division of the Department now combines the supervision and assessment functions of the former elementary and secondary branches. Program Branch, of which Supervision is one segment, reports through the Assistant Deputy Minister, Instruction, to the Minister. In the field, the inspectors, regardless of jurisdiction, are now called inspectors of schools. At the head office, assistant superintendents, who formerly were responsible for either elementary or secondary education, are now responsible for both on a geographical or functional basis.

Particular emphasis has been given to integration of the inspectors' supervisory and assessment functions in the Intermediate Division (Grades 7-10), so as to encourage all inspectors affected to familiarize themselves with courses and classes which were previously outside their immediate responsibility.

With the objective of improving learning conditions for all students, many positive steps have been taken to stimulate the interests and activity of people in supervisory positions by extending their spheres of observation and action. Joint conferences have been held to bring together men and women of varied experience so that their combined talents may be brought to bear on common problems. Various techniques are being used to link the elementary and secondary panels more closely, for example: joint meetings of elementary- and secondary-school boards; programs for the induction of elementary-school pupils into secondary-school procedures, and the provision of guidance programs in elementary schools; frequent meetings of elementary- and secondary-school personnel on curriculum committees, to consider promotion policies, and for the discussion of common concerns and educational philosophy.

Decentralization

Another basic aim of the departmental reorganization was to achieve more efficient and effective operation within a streamlined structure. Decentralization is one of the methods by which this aim is being pursued.

As a first step, the Province is being divided into areas of educational jurisdiction, each under an Area Superintendent who will be responsible for all elementary and secondary education within his area.

Under the new organization, which is gradually replacing arrangements previously

in force, many decisions relating to local needs, which were formerly made at the central office, will now become the responsibility of the Area Superintendent.

The first five Area Offices, which were established on September 1, 1965, are located as follows:

AREA 1, NORTHWESTERN ONTARIO, at Port Arthur (Districts of Kenora, Rainy River, and Thunder Bay)

Area Superintendent, R. R. Steele, B.A., M.Ed.

AREA 2, MIDNORTHERN ONTARIO, at Sudbury (Districts of Algoma, Sudbury, and Manitoulin)

Area Superintendent, G. R. Allan, B.A.

AREA 3, NORTHEASTERN ONTARIO, at North Bay (Districts of Cochrane, Timiskaming, Nipissing, Parry Sound, and Muskoka)

Area Superintendent, J. H. Kennedy, B.A.

AREA 4, WESTERN ONTARIO, at London (Counties of Essex, Kent, Lambton, Elgin, Middlesex, Huron, and Bruce)

Area Superintendent, W. T. Laing, B.A.

AREA 5, MIDWESTERN ONTARIO, at Waterloo (Counties of Grey, Wellington, Waterloo, Brant, Norfolk, Oxford, and Perth)

Area Superintendent, R. F. Bornhold, B.A., M.Ed.

The number of areas will be increased progressively to embrace the entire Province. Provincial elementary- and secondary-school inspectors in each of the areas work under the direction of the Area Superintendent and municipal supervisory officials in both the elementary and secondary panels in the area deal with the Superintendent in matters affecting the Department. The Superintendent, in addition to co-ordinating the work of all school inspectors in his area, maintains a close association with the superintendents of municipal inspectorates within the same territory in order that efficient use may be made of all the available educational resources.

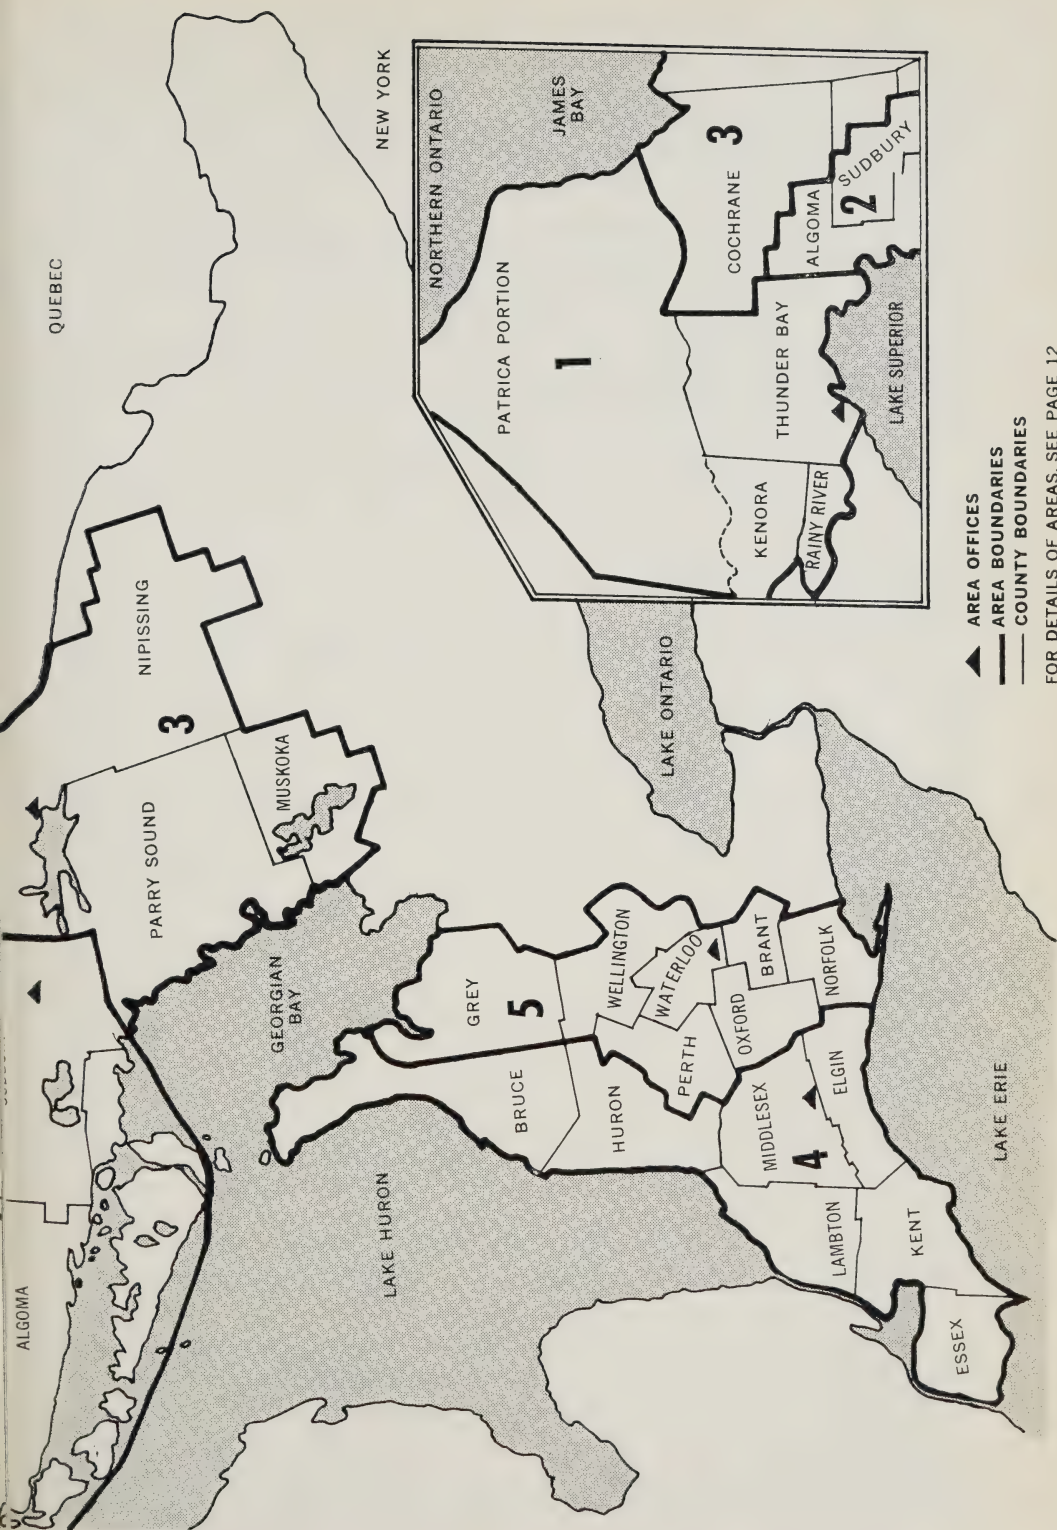

In due course, it is planned to attach business administrators to each Area Office to take over most of the administrative detail associated with building programs, transportation and school grants, so that inspectors can concentrate on educational tasks.

Once supervisory and administrative responsibility is centred in organized areas covering the Province, a great variety of problems can be solved at the area level and the careful but quick decisions that are called for in the rapidly expanding and changing educational system of Ontario will be facilitated.

Larger Units of Administration

The passage of Bill 88, An Act to Amend the Public Schools Act, by the Provincial Legislature during 1965 extended the existing legislation concerning larger units of administration. Under the new provisions, county school areas for public school purposes can be established in the municipalities that form a high school district. This means that a county school area will have to be at least as large as a high school district.

The county councils in Southern Ontario and the municipal councils in Northern Ontario now have the authority to alter the boundaries of all school sections except those involving cities or separated towns.

▲ AREA OFFICES
 — AREA BOUNDARIES
 — COUNTY BOUNDARIES

FOR DETAILS OF AREAS, SEE PAGE 12

Provision is also made for the county council, on the recommendation of the consultative committee (which is appointed under the authority of the Public Schools Act), to enlarge school areas by joining them together, provided no school section has fewer than 120 pupils. To further the process of consolidating school areas, the county councils are now required to pass by-laws attaching all school areas with fewer than 100 pupils to adjoining school areas.

In accordance with the new legislation, a number of county and district school areas and enlarged township school areas were established during 1965. Among them were the Peterborough County School Area, comprising the entire County of Peterborough; the Prescott County School Area, comprising the entire County of Prescott; and the South Grey Board of Education, which was set up to serve three urban municipalities, two townships and portions of two other townships. In the north, two district school areas have been formed in the District of Algoma.

The duties and responsibilities of the public school consultative committees have been broadened and it is expected that, in the near future, county councils in the south and municipal councils in the north will establish more larger units of administration.

Special Education Section

General

In the refashioned departmental pattern, the former Auxiliary Education Services Division became the Special Education Service of the Supervision Division, Program Branch. Decentralization of service has begun with the appointment of an Inspector, Special Education, to the West Central, East Central and Kingston offices.

The regulations concerning Special Education that became effective in June, 1964, attempted to provide a legal framework retaining successful elements of past practice and incorporating innovations which would encourage the establishment of advantageous new services. A review of Table 6.3 indicates the increase in the number of classes now available for emotionally disturbed pupils and educable retarded pupils at the level of the primary opportunity class.

Services

Special education is concerned with the educational growth of all exceptional children of school age. Exceptional children are those who for physical, intellectual, social or emotional reasons are in need of a modified or special educational program. Such children include those who are superior in learning capacity; those of limited intellectual ability; those who are socially immature or emotionally disturbed; those with orthopaedic, neurological, physical or speech disability; and those who are educationally retarded.

In the course of the year 1964-65, Special Education Inspectors assisted local school authorities through:

- (1) 446 visits to special classes, special teachers and schools where units are established to assist the teachers concerned;
- (2) work with 141 children referred for assistance in the diagnosis of the problem and the development of an appropriate educational program;
- (3) assistance in the establishment of new services by
 - (a) the organization of 21 surveys,
 - (b) the assessment of children,
 - (c) working with the local staff and school boards; and

- (4) participation in 54 in-service training programs for teachers on special education topics, in relation not only to special classes but also to atypical pupils in regular grades.

A library of approximately 6,775 magnetype books is maintained to assist pupils with limited vision, as well as a professional library of some 2,000 books for the free use of teachers and inspectors.

During August, the Department of Education and the Parents' Association for Children with Learning Disabilities co-sponsored a one-week training program for teachers and parents of neurologically impaired children.

Summer Course Training

Summer courses leading to the elementary, Intermediate and Specialist Certificates in Auxiliary Education were offered at Toronto. Courses at the elementary level were offered also at North Bay and Belleville. Eleven different options covering various areas of exceptionality were available. During 1965, a new option, The Education of Emotionally Disturbed Children, was introduced at the intermediate level and proved to be highly successful.

A total of 1,255 candidates attended the summer courses in special education, representing an increase of 144 over the previous year. One hundred and twenty teachers completed the summer school attendance requirements for the Specialist Certificate in Auxiliary Education.

School Attendance

Enrolment

The total enrolment in elementary and secondary schools in September 1965 was 1,738,781 an increase of 65,007 or 3.9% over the preceding year. The elementary schools showed an increase of 41,570 or 3.25% and the secondary schools an increase of 23,437 or 5.9%.

Employment and Home Permits

A child who has attained the age of 14 years may be granted a home permit or an employment certificate if his services are urgently required at home or in some gainful occupation elsewhere. A child under 14 years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

The total number of employment certificates issued during the year 1964 was 2,252, a decrease of 872 from the figure for the preceding year, and the total number of home permits issued during the same period was 1,177, a decrease of 133 from the previous figure. The total number of cases brought before magistrates was 413.

The Teaching of French to English-Speaking Pupils

At the end of November, 1965, French was being taught to English-speaking pupils in schools operated by 231 public and separate school boards.

In these elementary schools, 164,145 pupils were receiving such instruction in regular classroom grades and 2,590 pupils in special classes, making a total of 166,735 pupils. Special or itinerant teachers employed by boards to teach French only or French as well as other subjects numbered 581. In addition, 537 regular classroom teachers included this special subject in their teaching.

In the autumn of 1965, a representative Departmental Curriculum Committee was

appointed to prepare a course of study for Grades 7 and 8. It is expected that this will be available to schools in the spring of 1966.

The supply of teachers for the elementary-school program is increasing. Apart from the regular summer course, which was successfully completed by 125 teachers, a new course was offered for mature men and women who speak French fluently but who may not have had any previous teaching experience. This course attracted many Ontario residents originating from Quebec, Western Europe, North Africa and other parts of the world. One hundred and twenty-five persons completed the course and earned a temporary certificate, renewable annually upon the recommendation of the inspector.

One hundred students registered at the Lakeshore, Ottawa, Toronto and Windsor Teachers' Colleges were accepted for the new course in teaching French offered for the first time this year to a select group of students enrolled in these colleges.

The establishment of a provincial course of study and the training of a greater number of teachers qualified to teach this special subject will be major factors in advancing the teaching of French in the elementary schools.

Schools Attended by French-Speaking Pupils

Teacher Supply

On October 15, 1965, there were 386 French-speaking student teachers in attendance at the University of Ottawa Teachers' College and the Sudbury Teachers' College, 78 of whom were enrolled in the course leading to the Interim Elementary School Teacher's Certificate and 308 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25% of French-speaking teachers held First and Second Class Certificates; in 1965-66, 96.6% of French-speaking teachers hold Standard I or Second Class Certificates.

Secondary-School Enrolment

On September 30, 1965, the total enrolment of French-speaking pupils taking Français in secondary schools was 7,985, an increase of 980 over 1964. There were, in addition, 5,612 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

Elementary-School Enrolment

On September 30, 1965, 92,274 French-speaking pupils had enrolled in separate and public schools, an increase of 1,605 over the preceding year. The number of French-speaking pupils in Kindergarten classes was 8,863.

Correspondence Courses

Correspondence courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. The number of pupils taking these courses in November, 1965, was 30. The decrease in enrolment, compared with previous years, is due to the increasing number of schools being built in remote parts of the Province or to the provision of transportation facilities making it possible for pupils to attend central schools.

Inspection of Indian Schools

The Indian Affairs Branch of the Department of Citizenship and Immigration has an arrangement with the Government of Ontario by which Civil Service school in-

spectors make an annual inspection of the Indian schools in this Province. These inspections are carried out to ensure that the Indian schools are following the program laid down in the Ontario Courses of Study. As a result, Indian children leaving Grade 8 in the Indian schools may be integrated into classes in provincial secondary schools. During the school year 1964-65, 32 provincial school inspectors inspected 253 classrooms operated in schools under the jurisdiction of the Indian Affairs Branch.

Ontario Athletic Leadership Camp

The Ontario Athletic Leadership Camp at Longford Mills was inaugurated in the summer of 1948 as an experiment to develop the leadership potential of the Province's youth. Since then, the camp has grown in acreage, buildings, numbers of students and of staff. Each year one girl and one boy from each secondary school in the Province is eligible to attend one of the two-week courses. Recent surveys have shown that the aims of the camp are being fulfilled since the vast majority of the students are continuing their training in universities, Teachers' Colleges, nursing institutions, or in other forms of advanced education.

Transportation

The steady increase in transportation services which has been maintained for a number of years continued in 1964-65.

New legislation pertaining to all the school boards is now in effect. Where a board provides transportation for more than 30 pupils, the board may, with the approval of the Ontario Municipal Board, make an agreement for a term not exceeding five years. Previously, only secondary-school boards could make such an agreement.

Elementary Schools

During the school year 1964-65, elementary-school boards provided transportation for 180,061 pupils, an increase of 16.5% over the figure for the previous year. Included in this number were 8,932 secondary-school pupils residing outside any high school district. Of the 5,513 routes over which these pupils were transported, 677 were routes on which vehicles owned by boards transported 31,527 pupils. This represents an increase over 1963-64 of 16% in the number of routes and 13% in the number of pupils.

Seventy-eight per cent of the pupils transported resided within six miles of the school which they attended, 17% from 6 to 12 miles, and 5% of those transported travelled a distance of 12 miles or more.

Provision has been made for an elementary-school board in the districts of Northern Ontario to pay \$3 per day board allowance in lieu of daily transportation for its pupils who do not reside in a secondary-school district and who reside 15 miles or more from the nearest publicly supported secondary school. The Department of Education refunds to the board the grant percentage applicable to the school section on such expenditures.

Secondary Schools

During the school year 1964-65, secondary-school boards provided transportation for 104,156 pupils, an increase of 12% over the figure for the previous year. These pupils were transported over 2,522 routes at a cost of \$52,990 per day. The number of routes by vehicles owned by boards was 163, an increase of 17% over 1963-64, while

the number of pupils on these routes increased by 1,400, which represents an increase of 24% over last year.

Sixty-five per cent of the pupils transported resided within six miles of the school which they attended, 23% from 6 to 12 miles, and 12% of those transported travelled a distance of 12 miles or more.

In the case of secondary schools without vocational courses, pupils in the area who elect to take such courses are transported by the boards concerned to a secondary school which offers vocational training in another high school district.

Scholarships and Bursaries

During the fiscal year 1964-65, the Department of Education awarded scholarships and bursaries to Ontario students taking courses in specified institutions. The total expenditure for this purpose was almost \$2,400,000.

Scholarships

Ontario Scholarships of \$400 each are granted to graduates of Grade 13 who obtain at least 80% on eight Grade 13 departmental examinations, including English or Français. On the examinations of 1964, 1,226 persons qualified academically for these awards.

The highest-ranking Ontario Scholar each year is awarded the King George VI and Queen Elizabeth Scholarship which carries a value of \$500 for each year of a three- or four-year university degree course in Ontario.

Bursaries

Student-Aid Bursaries are granted to Ontario residents in financial need who meet the academic requirements of second-class standing, and who are attending full-time courses in the following institutions: Canadian universities, Ontario Colleges of Education, Osgoode Hall Law School, Ontario College of Art, Ontario Teachers' Colleges, Provincial Institutes of Technology and Ontario secondary schools (final year only).

The amounts of the bursaries vary from \$100 to \$500, depending on the school and course attended and the financial need of the individual applicant. In 1964-65, almost 7,200 students benefited from these awards which represented a total expenditure of over \$1,950,000. Of this sum, approximately \$149,000 was contributed by the Federal Government.

Trustee Organizations in Ontario

A summary was prepared in 1965 of the number of school boards which were members of the affiliated organizations of the Ontario School Trustees' Council in the previous year; the results are tabulated below. Each organization listed appoints two representatives to the Council.

<i>Organization</i>	1964			
	<i>Secondary</i>	<i>Public</i>	<i>Separate</i>	<i>Total</i>
The Associated Secondary School Boards of the Province of Ontario	92	—	—	92
L'Association des Commissions des Écoles bilingues d'Ontario	—	3	222	225
The Ontario School Trustees' and Ratepayers' Association	89	618	3	710

Ontario Separate School Trustees' Association	—	—	345	345
The Public School Trustees' Association of Ontario	21	362	—	383
Ontario Urban and Rural School Trustees' Association	81	69	7	157
Northern Ontario Public and Secondary School Trustees' Association	34	46	—	80
TOTALS	317	1,098	577	1,992

Teacher Education Branch

Reorganization

Under the new departmental structure, this Branch, formerly concerned only with the supervision of the Teachers' Colleges, was given additional responsibilities. Consequently, the Teacher Education Branch now supervises the training and professional development of elementary-school teachers, maintains close liaison with the Colleges of Education in Toronto and London, and provides summer courses in several subject areas for secondary-school teachers.

Teacher Supply

Elementary

It was decided in 1964 to discontinue the Two-year Course in the Teachers' Colleges. The last group of students to train as teachers under this emergency scheme, which was launched in September, 1953, entered the Teachers' Colleges in September, 1964. Enrolment in the One-year Course increased from 3,868 in 1964 to 4,558 in 1965. In addition, 85 applicants with university degrees enrolled in special courses for graduate students at the London and Toronto Teachers' Colleges, and 40 students enrolled in the Primary-School Specialist Certificate Course at Toronto. In the One-year Second Class Course offered at the Sudbury and University of Ottawa Teachers' Colleges, the enrolment increased by 14 over the previous year's level to reach a total of 308.

In September, 1965, a new St. Catharines Teachers' College began operations with an enrolment of 219 students in quarters rented from Brock University. A new building for this institution is now being planned and new accommodation for the Sudbury Teachers' College is also being provided.

Teacher Supply

Secondary

In 1965, the registration in the Initial Eight-Week Summer Course, held at Kingston, London and Toronto, reached an unprecedented high of 2,244, an increase of 292 over the previous summer's figure. The opening of the Althouse College of Education at London in September, with an enrolment of 197, had little effect on the registration in the Winter Course at the College of Education, Toronto. The total of students registered in the Type A and Type B full-year courses in both London and Toronto was 726, a net rise of 160 students over the previous year's registration at Toronto alone.

The increase in the number of teachers who registered in courses leading to Vocational, Commercial and Occupational Certificates has kept pace with the pupil enrolment in these courses.

A total of 360 teachers holding certificates valid in elementary schools obtained qualification as teachers in secondary schools by attending the Summer Course for Teachers with Professional Training. In addition, 28 female teachers holding Permanent Elementary-School Certificates enrolled in a summer course in Physical Education, with the understanding that they would commence to qualify for a university degree through summer school and extramural study.

Registration in Type A Summer Seminars increased from 493 in 1964 to 560 in 1965. In all, 4,052 candidates took initial training leading to secondary teaching certificates during the year, an increase of 458 candidates over the total for the previous year. The number of teachers who received summer-course training in 1965 rose to 8,049, as compared with last year's total of 7,222.

By November 30, 1965, 1,521 Letters of Permission had been issued to boards on behalf of secondary-school teachers not holding secondary-school teaching certificates. From February 1, 1965 to November 30, 1965, secondary-school Letters of Standing were issued to 51 well-qualified teachers.

New Courses

A pilot course in the teaching of French to English-speaking pupils in the elementary schools, begun at Ottawa in 1964, was extended in 1965 to the colleges at Toronto, Lakeshore and Windsor. One hundred and sixteen well-prepared students whose oral French was graded excellent were admitted to the course, which provides for daily conversation in French and twice-weekly classes in teaching methods.

At Toronto Teachers' College, 71 university graduates enrolled in a reorganized course for elementary-school teachers designed for applicants with acceptable degrees. This course features hour-long lecture periods, programs involving large and small group instruction, seminar discussions and special demonstrations. Final examinations will be held in Educational Psychology, School Management, History and Philosophy of Education, Methods in English, and Methods in subjects other than English.

At the Althouse College of Education, London, 14 students enrolled in a course organized on a co-operative basis by two colleges: instruction in Educational Psychology, History and Philosophy of Education, and one secondary-school option was provided by the Althouse College of Education, while instruction in School Management and Elementary-school Methods was arranged by the London Teachers' College. Successful graduates from this course, whose practice-teaching experience includes work in the secondary schools, will obtain an Elementary-School Teacher's Certificate, Standard 4, endorsed for the teaching of one option at the secondary-school level, Grades 9 to 12.

Evaluation of these courses at the end of the college year in 1966 will help to determine whether they should be continued in their present form.

McArthur College of Education, Kingston

Agreement was reached with Queen's University, Kingston, to establish a new College of Education to be known as the McArthur College of Education at Queen's

University. The planning of the college building was begun in the year under review. This new institution will provide additional space for the training of secondary-school teachers in academic and vocational work. The name of the College honours the memory of Dr. Duncan McArthur, one-time head of the history department of Queen's University, and a former Chief Director and Deputy Minister of Education for Ontario who later became Minister of Education, 1940-43.

Extension of Jurisdiction of Certificates

Any holder of a Permanent Elementary-School Teacher's Certificate, Standard 4, may now, upon accepting a contract from a board to teach in a secondary school, be granted an Interim High-School Assistant's Certificate, Type B. Similarly, any holder of a Permanent High-School Assistant's Certificate may, upon accepting a contract to teach in an elementary school, be granted an Interim Elementary-School Teacher's Certificate, Standard 4.

Most of such transfers are likely to take place in the general range of Grades 7 to 10. Teachers transferring to grades outside this range can obtain advice from Teacher Education Branch regarding summer courses which may help them in adjusting to their new duties.

Letters of Standing and Permission

Letters of Standing, granted during the school year 1964-65 to elementary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth, totalled 898, an increase of 312 over the previous year. Letters of Permission, issued on behalf of uncertificated teachers, totalled 1,302 at the end of November, 1965, an increase of 238 over the previous year. Of the latter category, 473 were issued to teachers who held basic certificates but lacked qualification for their special work.

Minister's Committee

A Study Committee on the training of elementary-school teachers has been meeting regularly since September 1964. At the close of 1965, the Committee had almost completed its work and its report to the Minister was expected to be available early in 1966. Recommendations in the report may well form the basis of new plans for the training of elementary-school teachers in Ontario.

PROFESSIONAL DEVELOPMENT DIVISION

In 1965, in response to increasing demands, the Department of Education summer course program for teachers was expanded to include 46 schools offering 21 different types of course in 20 Ontario communities stretching from Windsor to Dryden. The 11,826 teachers who enrolled represented an increase of approximately 20% over the 1964 totals.

Courses in Language Arts and Teaching the Deaf as well as a Special Course in Teaching French to English-speaking Pupils, were offered for the first time.

New courses planned for 1966 include an Intensive French Conversation Course at Elliot Lake for 200 Ontario teachers, and a series of updating courses in Physics, Chemistry, and Mathematics for Grade 13.

Twenty-nine school boards received permission from the Minister of Education to conduct 33 winter courses for departmental certification credit. The Professional Development Division supervises these programs.

The number of teachers attending summer and winter courses and other types of in-service programs indicates an ever-increasing interest in improving qualifications.

Technological and Trades Training Branch

The Technological and Trades Training Branch assumed responsibility, within the revised departmental arrangements, for the supervision of all aspects of post-secondary and adult education, other than university courses. The Branch also administers the various programs of the Federal-Provincial Technical and Vocational Training Agreement, as related to Ontario. A significant development in educational philosophy during 1965 was the introduction of a plan to set up Colleges of Applied Arts and Technology as a means of extending additional opportunities for continuing education to the citizens of the Province.

Colleges of Applied Arts and Technology

Legislation for the establishment of Colleges of Applied Arts and Technology was passed in June, 1965, and the regulations pertaining to this legislation were published in the Ontario Gazette on November 6, 1965. A Council of Regents, already appointed, will assist the Minister in the planning, establishment and co-ordination of the programs of instruction. Each college will be administered by a Board of Governors, to be assisted by Advisory Committees in the development of programs for each course.

Although the programs of instruction will vary from college to college as local needs dictate, each college will, in general, have three major responsibilities:

- (1) to provide technological, technical, trades, business and applied arts courses of types and levels beyond or not suited to the secondary-school setting;
- (2) to meet the needs of graduates from any secondary-school program, apart from those wishing to attend university; and
- (3) to meet the educational needs of adults and out-of-school youth, whether they are secondary-school graduates or not.

Institutes of Technology

In September, 1965, the five Institutes of Technology in Ottawa, Hamilton, Windsor, Haileybury, and Kirkland Lake enrolled 2,536 full-time students in three-year technological and business administration courses. This represents a 26% increase over the 1964-65 enrolment. In order to accommodate the rapidly increasing demand for post-secondary education at the level in question, most of the Institutes of Technology found it necessary to rent additional temporary classroom space for the 1965 fall term. All five institutes require building programs to provide facilities adequate for the efficient performance of their educational function.

In October, 1965, there were 2,146 part-time students enrolled in advanced technical and business evening classes in the Institutes of Technology. This 29% increase in evening-school registration is an indication of the rising interest in continuing education at the level offered.

Ryerson Polytechnical Institute

Full-time students enrolled in the three divisions—Engineering Technology, Business, and Applied Arts—of the Ryerson Polytechnical Institute in September, 1965, numbered 3,687. In May, 1965, Ryerson adopted the trimester system to increase the net capacity of the institute by conducting classes during the summer. Two classes in engineering technology and two in business administration were enrolled in the 1965 summer term. A further 7,540 part-time students registered for extension classes in the fall term.

The Board of Governors of the Ryerson Polytechnical Institute is planning a unique extension to the campus which is intended to increase the capacity of Ryerson to 10,000 full-time students by 1970.

Advanced Technical Evening Classes

In 1965, Advanced Technical Evening Classes were available at four Institutes of Technology, two Ontario Vocational Centres, the Provincial Institute of Trades and at 24 secondary schools across the Province. The enrolment of adult students in September, 1965, exceeded 5,000; their interests ranged over more than 55 different technological subjects. The enrolment figure represents an increase of 70% in one year.

An increasing number of holders of A.T.E.C. certificates at each of the three available levels are being certified as Engineering Technicians or Engineering Technologists by the Certification Board of the Association of Professional Engineers of Ontario. Appropriate A.T.E.C. certificates are now recognized by the Chemical Institute of Canada. The program continues to be well supported by industry, and graduates are improving their positions as engineering technicians and technologists.

Ontario Vocational Centres

The Ontario Vocational Centre in Sault Ste. Marie opened its doors to students for the first time on September 27, 1965. Initial enrolment in this most recent of the Centres was 315 students, drawn from more than 30 localities in Northern Ontario. A total of 20 courses which are designed to meet the specific requirements of Northern Ontario are being conducted at this Centre.

The Ontario Vocational Centres in London and Ottawa commenced their second year of operation in September, 1965. With technician students returning for the second-year courses and an increasing number of students enrolled in apprenticeship, pre-employment, and commercial courses, these two Centres are now at full capacity. The Vocational Centre courses are designed to meet the need for post-secondary education of students who successfully complete four years of any secondary-school program.

Vocational Centres, together with the three Institutes of Trades in Toronto, enrolled a total of 2,889 full-time students in September, 1965. Since there are several intakes of apprentices during the school year, some 3,400 additional students are expected to register in the course of the year.

Training, Business and Industry

Under Program 4 of the Technical and Vocational Agreement with the Government

of Canada, over 100 courses in management for owners and managers of small businesses have been conducted during 1965. Three new courses—Finance and Taxation, Personnel, and Retail Selling—were added during the fall.

The pilot project for a new course called Effective Supervision was conducted in conjunction with one industrial firm in the Toronto area. Plans were made to launch early in 1966 twenty-five courses for supervisory persons in other places.

In view of the success of pilot projects designed to assist industry by providing courses for employees, particularly in English, Mathematics and Science, more employers have adopted this approach to provide the concept of career security for their staff members. At present, a large number of companies reaching from Atikokan to Hawkesbury and from Timmins to Metropolitan Toronto are offering upgrading and skill courses. A range of more than 40 skill courses is now offered. Ontario Civil Service employees in the Toronto area are taking updating courses in the clerical field for two hours a day on four days a week.

Training of Unemployed

Although the total number of unemployed persons decreased considerably during 1965, there was a 54% increase in enrolment in retraining courses operated under Program 5 of the Technical and Vocational Training Agreement with the Federal Government. By December 31, 1965, 8,158 students were enrolled in 43 different courses conducted in 40 centres across the Province. Although such factors as rising population figures and increased awareness of the value of the programs were partly responsible for the increased enrolment, much of the success of this program was due to the opening of an Adult Training Counselling Centre in Toronto. During October, 769 persons reported to the Centre for orientation; 444 were posted to one of the training centres within the Toronto area; and 1,203 persons received counselling.

Along with the usual commercial and shop courses, there has been a significant increase in the number of classes for the upgrading of adults to prepare them for vocational courses. Some 200 persons with less than Grade 6 education were brought to centres in Elliot Lake, Quetico, Ottawa and Petrolia for special upgrading courses. A course in rustic furniture manufacturing was developed on the Cape Croker reservation for unemployed Indians there.

It was previously necessary for landed immigrants to wait for a period of six months from the date of their arrival in Canada before becoming eligible for courses. Reduction of this waiting period to 30 days made possible the initiation of a special course in English for skilled immigrants who could not find employment owing to language difficulties.

In June, 1965, a new kind of educational venture was launched at the Elliot Lake Centre for Continuing Education when a group of 50 white and Indian students were enrolled in an experimental full-time residential course to determine the best means of teaching basic reading and writing skills to a group of adults whose educational background varied from no former schooling to attainment at the Grade 6 level. The Centre for Continuing Education is operated by a Board of Governors and is financed through the Federal-Provincial Technical and Vocational Training Agreement. Renovation of eight apartment blocks in Elliot Lake will provide classrooms and living quarters for up to 800 residential students.

Special Schools and Services Branch

Within the new departmental framework, the former Special Educational Services Branch was renamed the Special Schools and Services Branch. In accordance with the principle of integrating all school inspection activities under the jurisdiction of the Program Branch, the staffs of the former Auxiliary Education Services Division were transferred to the Program Branch and the inspectors were assigned to Area Offices in keeping with the decentralization program which was one of the objectives of the reorganization.

The Special Schools and Services Branch, in its turn, assumed control of the Community Programs Division and a newly established Schools for Retarded Children Division. In addition, the Branch is responsible for the Ontario Camp Leadership Centre at Irondale and the Ontario Athletic Leadership Camp, Longford Mills, which are administered through the Community Programs Division.

The Branch administers a vote designed to provide assistance to the handicapped for whom no other provisions are available. This assistance is provided through the establishment of Habilitation Units. Requests for assistance are considered individually; during 1965, a total of 53 units were approved. Through these units, the Department contributed towards the cost of tutoring for Grade 13 blind students, transportation for temporarily physically handicapped children, fees for two blind and deaf children who attend the Perkins School for the Blind near Boston, U.S.A., correspondence courses for patients in sanatoria, and a variety of other services.

At present, the Special Schools and Services Branch is composed of the Schools for the Blind and Deaf Division, the Schools for Retarded Children Division, the Community Programs Division and the Correspondence Courses Division.

SCHOOLS FOR THE BLIND AND DEAF DIVISION

This Division is responsible for the administration and supervision of the residential Schools for the Blind and Deaf and also for the supervision of day classes for the deaf operated by local school boards. Consultative services are provided to school boards in the establishment and administration of such day classes for the deaf.

Close liaison is maintained by the Division with the Canadian Hearing Society and the Canadian Institute for the Blind in matters relating to the training of deaf and blind children respectively.

Ontario School for the Blind

Enrolment

The Ontario School for the Blind began the school year in September, 1965, with an enrolment of 247, made up of 144 boys and 103 girls. At the close of the previous school year in June, 1965, 31 students withdrew—21 after graduation, 4 to seek employment, 3 by transfer to another province and 3 for reasons of health. The September enrolment included 27 students new to the school, among them 11 beginners and 16 scattered through Grades 2 to 12. In addition to the 188 Ontario children, 5 are from Alberta, 23 from Saskatchewan, 18 from Manitoba and 8 from Quebec; 1 child is a Bermudan, while 2 Eskimo and 2 Indian pupils are wards of the Federal Government.

Program

The varying needs of visually handicapped children are met by a specially trained staff of teachers and residence counsellors. Using the Ontario Courses of Study, Grades 1 to 12, as a base, the school offers a comprehensive program of academic, vocational, physical, cultural and social education providing opportunities for blind children to develop into independent, self-supporting adults. The academic courses are designed to prepare students for a university, while the vocational courses assess potential for future employment. Instruction in all phases of home economics for girls and training in the use of the white cane are indicators of the emphasis that is placed on the acquisition of skills for independent living.

The music staff provide classroom music throughout all elementary and secondary-school grades. Opportunities exist for the development of individual talent or interest, to the limit of ability. Except where medical considerations dictate otherwise, full participation in an active physical education program, both indoor and outdoor, is required of all students. Different types of ball games, hockey, skating, and track and field sports are popular. Extracurricular activities such as Cubs, Scouts, Guides, Brownies, social clubs, a United Nations Club and a French Club provide opportunities for the cultivation of a variety of interests.

Current changes in the teaching of mathematics across the Province are being paralleled in the School. A form of the abacus, especially adapted for use by the blind was introduced in Grades 4 to 12 in September. It was received eagerly by the students and has already become an integral instrument of calculation in mathematics. Another innovation in 1965 was the beginning of oral French classes in Grades 5, 6, 7 and 8.

Graduates

Ten students completed Grade 12 in June and were awarded Secondary School Graduation Diplomas. Of these, five are enrolled in universities and two are taking Grade 13 prior to entering a university; the others are undergoing training, one to be a home teacher of the blind, another to be a dictaphone typist and still another to do clerical work. Those who withdrew from the school after completing Grade 10 are either being prepared for employment or have secured positions.

Accommodation

A new residence with accommodation for 60 boys was ready for occupancy in September. Adequately equipped and beautifully furnished, it has relieved the crowded conditions which had developed in the other boys' residence and provides facilities for an increase in enrolment of 30 boys.

Ontario School for the Deaf, Belleville

Enrolment

The Ontario School for the Deaf, Belleville, was able to accept all eligible deaf children from Central, Eastern and Northern Ontario who had reached the age of 5 years before September 1, 1965, who applied for and needed its services, and who were mentally, physically and socially ready to profit from its program. In cases of doubt concerning readiness, trial periods of attendance were arranged. Thirty beginners, aged 5 to 8 years, and 15 older students were newly enrolled. The enrolment on October 15, 1965, was 507 (300 boys and 207 girls), all from Ontario and distributed as follows: Junior School 190, Intermediate School 105, Senior School 212. Pupils range in age from 5 to 20 years.

Program

The school aims at preparing deaf and severely hard-of-hearing children to become well-adjusted, self-supporting and respected adult citizens of their communities by providing a broad program of academic, vocational physical, social and religious education specially suited to their needs. Because of the language deprivation resulting from early deafness, the junior classes are considered as preparatory grades in which vocabulary and language development receive prime emphasis. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. An extensive program of physical education and recreation is conducted by teachers. This includes inter-school athletics, swimming at Albert College, skating and hockey at the Belleville arena, curling at the Quinte Curling Club, and such extra-curricular activities as clubs, hobby groups and driver instruction. Religious instruction is provided by teachers assisted by local clergymen.

To help parents develop early language skills in their young deaf children and prepare them for the school program, a home-visiting teacher was specially trained in the summer and added to the staff in September. A summer course for teachers of the deaf was conducted at the school in 1965 as part of the special training needed for teaching deaf children. Thirty teachers from the Belleville, Milton and Toronto Schools for the Deaf attended the course. Twelve of these are continuing their training at the Belleville School this year. A further eleven teachers who began their special training last year are also still under instruction this year. Twenty-one houseparents and two nurses from the Belleville School attended the summer course inaugurated at the Milton School in July and August 1965.

For the first time, all pupils were able to go home for the Easter vacation in April, 1965, as well as for the preceding Christmas vacation. Teacher escorts in charge of special rail coaches travel to main-line cities throughout the Province to make this possible.

As usual, the graduates of the school last June were assisted in finding employment in their home communities by Placement Officers of the Canadian Hearing Society, working in cooperation with parents and the guidance staff of the school.

Ontario School for the Deaf, Milton

Development

The construction of Stage II of the building program, which is progressing rapidly, is expected to be finished in time for inauguration in September, 1966. At that time, approximately 100 senior students from the Ontario School for the Deaf at Belleville will be enrolled and the school's program will then embrace all courses from the junior through to senior academic, and vocational training. Completion of Stage II will provide accommodation in 16 classes for intermediate and senior students and in eight classes for vocational courses. Two gymnasias and a swimming pool, as well as two residences, are included in the project.

Enrolment

In September, 1965, 250 children (130 boys and 120 girls) were enrolled. This represents a tripling of enrolment since the first buildings, constructed under Stage I of the project, were opened in April 1963. The home-visiting service accounts for a further 68 pre-schoolers, aged 2 to 4 years, who either are visited or who come to the school

where they are taught while their parents receive training. There is every indication that other such pre-school children will be discovered as the year progresses. A growing number of multiple-handicapped deaf children are being educated and suitable programs of instruction are being applied.

Program

This year has seen the establishment of four intermediate-level classes in addition to the 25 classes in the junior program. A curriculum closely parallel to that offered at Belleville is being evolved, with the identical aim of providing a comprehensive academic program, as well as vocational, physical, social and religious education, to prepare the children to be self-supporting, useful citizens.

SCHOOLS FOR RETARDED CHILDREN DIVISION

General Information

The new Schools for Retarded Children Division was formed in September, 1965, and is responsible for the educational programs in 93 day schools for retarded children operated by 88 Retarded Children's Education Authorities. In addition, this Division will be responsible for the educational programs in the Ontario Hospital Schools at Cedar Springs, Orillia, Palmerston, Smiths Falls, and the Children's Psychiatric Research Institute in London, effective April 1, 1966.

The operation of retarded children's schools by the Retarded Children's Education Authorities became effective as of January 1, 1965. Authorities are paid a grant of 80% of the cost of operation by the Department of Education while the remaining 20% is paid by the municipality concerned. The local Retarded Children's Association is responsible for providing the school premises and receives a 50% grant from the Department of Education for capital construction.

Services

Consultative service is provided for teachers, principals and local inspectors of retarded children's schools. During the school year 1964-65, 61 schools were visited and individual interviews were conducted with 186 teachers to discuss programs for trainable retarded children.

Other activities included participation in meetings with Retarded Children's Education Authorities, Retarded Children's Associations, Home & School Associations, and parent counselling.

A preliminary survey of the educational programs in the Ontario Hospital Schools was completed.

Summer Course Training

A five-week course for teachers of trainable retarded children was conducted in the summer of 1965 with an enrolment of 58 teachers.

COMMUNITY PROGRAMS DIVISION

Services

The Community Programs Division assists communities to provide better opportunities for people to use their leisure enjoyably and constructively through recreation and adult education. The assistance to communities involves grants, advice, guidance,

leadership training, conferences, seminars, clinics and surveys. The Division works in co-operation with municipal recreation committees; school boards; national, provincial and local organizations; and other departments in the Federal and Provincial Governments. Communications with the municipalities are maintained through a field staff which has offices in Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa, Toronto and Sudbury. There are also special advisers, working out of the central office, on such matters as art, crafts, drama, music, puppetry, senior citizens, recreation buildings and areas, rural programs, and women's physical fitness activities. In order to make resource material available for community use, the Division produces a number of publications and operates a loan service in drama, music, instructional films, slides and reference books.

Professional Training and Certification

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in this field. The three-year in-service training course which was initiated by this Division in 1951, through the University of Western Ontario, has served its purpose and was officially closed in June, 1965. In May, the first graduates from the two-year Diploma Course, operated by the Division at the University of Guelph, received diplomas. The majority of the 32 graduates were hired by municipal recreation committees while the others found employment in institutions, hospitals and private organizations.

Recreation Development

Ontario Regulation 92/60 Programs of Recreation, made under The Department of Education Act, provides provincial grants to municipalities that pass the necessary by-law to appoint a municipal recreation authority and conduct or assist local recreation programs. During the year 1965, some 23 municipalities established recreation committees for the first time. There were 117 recreation directors as well as 155 assistant directors employed by Ontario municipalities on a yearly basis. The sum of \$725,895 was paid to 356 municipalities to assist in the development of the recreation program.

Leadership Training

The training of leaders is a basic need in the fields of recreation and adult education. The Community Programs Division is continuously involved in training volunteer and semi-professional leaders in art, crafts, drama, music, executive skills, sports and group leadership. The Division conducts courses either co-operatively or directly if the training serves a number of communities jointly.

In co-operation with the Province of Ontario Council for the Arts, the Community Programs Division assisted in bringing together in April professional and semi-professional craft workers and community leaders in crafts to discuss mutual concerns. As a result of this meeting, the Ontario Craft Foundation has been established. Conferences on music, recreation and drama are being planned for the year 1966.

During 1965, 364 leadership courses were planned and organized to assist 18,293 community leaders.

Co-operation

In order to provide an efficient service in programs and leadership, the Community

Programs Division works closely with the following agencies: The Canadian Association for Adult Education; Ontario Federation of Home and School Associations; Ontario Arenas Association; Ontario Federation of Agriculture; Rural Learning Association; Ontario Recreation Association; Ontario Camping Association; various sports associations, and other Provincial and Federal Departments.

Fitness and Amateur Sport

Under the terms of the Federal-Provincial Agreement on Fitness and Amateur Sport, 108 projects were arranged at various locations in the Province for the development of coaches, referees and leaders in rowing, rugger, tennis, hockey, basketball, skiing, field hockey, wrestling, sailing, horsemanship, lacrosse, scuba diving, competitive swimming, water polo and many other sports. In 1965, bursaries in the amount of \$47,500 were provided for students enrolled in physical and recreation courses in Ontario universities.

Grants to Non-profit Camps

The Department of Education is aware of the educational value of progressive, challenging camp programs. Grants are paid to non-profit camps in accordance with Ontario Regulation 175/64, made under The Department of Education Act. Some \$66,000 was awarded in such grants during the last fiscal year.

The Department of Education also provides a consultative service to the non-profit camps in Ontario, conducts workshops for camp directors and employs 5 camp consultants to visit non-profit camps during the summer to assist and to give advice to camp leaders.

Ontario Athletic Leadership Camp

One boy and one girl from each secondary school in Ontario are eligible to attend a two-week course at the Ontario Athletic Leadership Camp, Longford Mills. Three hundred and eighty-four girls in July, and 384 boys in August were given a variety of athletic and camp activities to develop their leadership potential and ability to accept responsibility. Many students, as a result of such training in the past, have chosen the teaching profession as their life's work. The facilities of the camp are used by many provincial organizations during May, June, September and October for educational conferences.

Ontario Camp Leadership Centre

Three hundred and twelve counsellors-in-training, 192 girls and 120 boys, were selected by non-profit camp directors to attend the Ontario Camp Leadership Centre, Irondale. This campsite offers excellent opportunities for leadership experience through work in nature lore, camp craft, water safety, canoeing, orienteering, planning and a variety of other camp activities. As part of the plan, leaders who receive this training contribute a period of volunteer service to the sponsoring camp.

CORRESPONDENCE COURSES DIVISION

General Information

Free correspondence courses are available for any Ontario adult or child who is unable to attend school. Not only are the lessons provided and corrected free of charge,

but all necessary materials are supplied and postage covered. Prior to September, 1964, textbooks had been lent only to students enrolled in the elementary-school grades. After September, 1964, the lending of free textbooks was extended to include students enrolled in Grade 9 and Grade 10; and since September, 1965, free textbooks have been lent to students enrolled in Grade 11 and Grade 12.

The elementary-school courses offered in English cover the courses of study from Grade 1 to Grade 8. Bilingual courses cover the same grades for French-speaking children. The academic courses offered at the secondary-school level are sufficient in number to enable students to qualify, by means of correspondence course instruction alone, for Departmental Statements of Standing and Diplomas at any grade level. During the year, courses in new-approach Mathematics, Physics and Biology have been prepared to meet recent developments in curricula. Courses in English, French and Latin have been revised to meet changes in prescriptions. New courses in commercial subjects are being prepared for presentation in September, 1966. All academic courses are available, free of charge, to residents of Ontario and to persons normally resident in Ontario but living temporarily outside the Province.

Eleven trades courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice and Radio Theory and Practice are provided. These are available to any resident of Canada for a fee of \$10 per course. Through federal-provincial arrangements, numerous other trades courses have been prepared by the Departments of Education in the other provinces. These Canadian Technical and Vocational Correspondence Courses are available to any Canadian for a nominal fee. During the current year, the Correspondence Courses Division, in co-operation with the Provincial Institute of Trades on Dartnell Avenue, Toronto, has prepared six courses in Marine Navigation and Engineering to assist seamen in upgrading their qualifications. Several additional courses are being prepared for this series.

Enrolment

During the school year 1964-65, a total of 25,309 students enrolled in correspondence courses. Enrolment began on July 1, 1964, and closed on June 30, 1965. Except in the elementary-school grades and Grade 13, students were permitted to enrol at any time during the year and were given valid Statements of Standing as soon as they completed the courses in which they were enrolled. The age-group from which the greatest number of applications was received was that embracing persons between the ages of 20 and 25, and the level at which the greatest number of students was enrolled was Grade 13. Most applicants indicated that they were employed and were seeking to improve their employment prospects by raising their educational standing. Applications from students under the age of sixteen, who were unable to attend school because of temporary absence from Ontario, distance from school, or illness, constituted only a small part of the total number of applications received.

Enrolment was distributed as follows: 22,376 students in secondary-school academic courses; 2,227 adult students in academic courses at the elementary-school level; 208 students in trades courses; 454 elementary-school children in courses from Grade 1 to Grade 8; and 44 elementary-school children in bilingual courses from Grade 1 to Grade 8.

Departmental Business Administration Branch

One of the main responsibilities of the Branch is to prepare the annual budget estimates for the Department, in connection with which complex and detailed studies and reports on present and planned program costs are carried out. Related to the work on these estimates is the subsequent control and recording of the payments made by the Department, as well as the preparation of the material for inclusion in the Public Accounts.

Under the Federal-Provincial Technical and Vocational Training Agreement of 1961, the Branch administers, in Ontario, the funds for vocational building projects and a number of programs and services in vocational and technical training, the cost of which is shared by the Government of Canada and the Ontario Government.

The Grants Division handles the very considerable task of calculating and distributing grants to the boards of all elementary and secondary schools in the Province, to public libraries, grants to cover the cost of education of non-resident pupils and grants for the education of retarded children.

Within the reorganized departmental scheme, the Branch is now responsible for the Administrative Services Division which acts as the communications link between the Department and its outside units and personnel, school boards and other interested organizations.

School Business Administration Branch

After the creation of the School Business Administration Branch within the revised departmental structure, it began a gradual process of assuming responsibility for such matters as research into school planning, designing facilities for schools, and procedures for determining the extent of provincial financial assistance for school building projects. Development of the operations of a fast-growing computer and data-processing centre has become one of its chief functions. The Branch has also launched preparations to take over progressively administrative services and leadership in fields such as transportation agreements and school boundaries.

EDUCATION DATA CENTRE

On the strength of careful study by the Advisory Committee on Electronic Data-Processing and its recommendations, the Education Data Centre was established in 1965 with new equipment and well qualified staff. In the preparatory stage, visits were made to data-processing installations specializing in educational problems in the United States. A survey was conducted of the data-processing needs of the Department and of the Ontario Teachers' Superannuation Commission.

During the second half of the year, after the Treasury Data Centre had been transferred to new quarters and provided with a new computer, the Education Data Centre moved into the accommodations thus vacated and took over the Treasury's former computer.

Besides continuing the work of the former Statistical Services Division, the Centre assumed responsibility for data-processing services to the Ontario Teachers' Superannuation Commission. Recruitment of a staff of systems analysts, programmers and computer operators was successfully carried out under highly competitive conditions. The Centre began to take on many of the service functions formerly discharged by the Institute for Studies in Education. Members of the newly recruited staff were assigned to make systems studies, working in co-operation with the directors and staff of other branches, in order to ensure that data-processing is extended to all appropriate areas of the Department's operations.

DIVISION OF SCHOOL PLANNING AND BUILDING RESEARCH

Formed in June, 1964, the Division of School Planning and Building Research was in full operation by the following November. Its function is to develop a program of research and investigation into all aspects of the construction of school buildings and their equipment. In its first complete year of activity, the Division organized four design workshops at Sudbury, the Lakehead, Windsor and Kingston. All the meetings attracted large attendances and aroused great interest which was reflected in extensive press coverage.

Publications

By the end of 1965 two publications written by the staff of the Division had appeared: *Physical Education Facilities for Secondary Schools* and *Guidance Centres for Secondary Schools*. A number of papers, reports and articles were further prepared for educational and professional magazines. These dealt with the forecasting of trends in school planning and building or with such topics as school design and component construction.

Minister's Committee on School Planning

This committee was set up in December, 1964, to keep the Department informed on all factors which affect school design under rapidly changing conditions. These factors include the relationship of design to curriculum, to experimentation in the use of staff and the grouping of students, to the application of modern technical teaching aids, and to quality of construction, all of which need to be considered in a framework of economical financing.

An important practical outcome of the committee's work during the year was the initiation by the Metropolitan Toronto School Board of a research project on Component School Construction. This project holds great promise for more rationalized design and construction of school facilities in the future.

Consultation

Elementary- and secondary-school boards, officials and architects across the Province consulted the Division on a broad range of subjects, including the planning of actual schools and area planning for growth in school systems.

The Division's consultative facilities were also made available during the year to Teachers' Colleges, Ontario Colleges of Education, Institutes of Technology and Vocational Centres.

External Inquiries

Inquiries on the Division's activities were received from all the Canadian provinces and from Czechoslovakia, Guatemala, Mexico, the United Kingdom and West Germany.

SCHOOL PLANT APPROVALS

In the new departmental setting, the School Plant Approvals unit continued to carry out the functions of the former Technical Adviser's office. In broad outline, these are concerned with scrutiny of all school building projects on behalf of the Department, and the Government of Canada, when necessary. The review process embraces each grant-aided school building project in the Province from the original submission by a local school board to construction, during which, and after the completion of which, spot checks are made by officials of the School Plant Approvals office.

At each of the intervening stages—such as the passing of sketch plans, production of working drawings and specifications, and tendering of contracts—the approval of the Department is required. In the case of vocational facilities, approval from the Government of Canada is mandatory. A key function of the School Plant Approvals unit is to make the analysis of facilities, construction estimates and final costs upon which the legislative and vocational grants to be made to the board in question are based.

Building Program

During the year, elementary-school accommodation was increased by 84,280 pupil places in 480 new buildings and additions at an estimated cost of \$84,497,000.

In the 20-year period from 1946 to 1965 inclusive, 1,028,630 additional pupil places have been provided in elementary schools at an estimated cost of \$778,299,000.

In the same period, 12 new secondary-school buildings and 57 additions to existing secondary schools were completed. These contained 16,972 new places for pupils enrolled in both the arts and sciences programs and vocational courses. These new buildings were constructed at an estimated cost of \$59,581,000.

From 1946 to 1965 inclusive, 334,712 additional pupil places have been provided in secondary schools at an estimated cost of \$635,906,000.

Information Branch

The Information Branch was established in August, 1964. In its first 18 months of operations, the Branch has developed a firm organization and procedures for discharging its allotted function, which is to provide two-way channels of communication between the general public, the teaching profession, boards of education and trustees on the one hand and the Department of Education on the other.

Intense public interest in education and in the work of the Department has shown itself not only in a steadily increasing volume of business during the period but also in widespread and continuing press reaction and television and radio coverage across the Province.

The activities of the Branch fall naturally into four groupings.

Exhibitions

One important means of bringing problems and progress in education to the notice of the public and professionals alike is through carefully designed exhibits. During the year the Department took part in exhibitions in Ottawa, Toronto and London.

At the Central Canada Exhibition, which ran in Ottawa from August 20 to 27, emphasis was placed on courses available at the Institutes of Technology and Teachers' Colleges.

Toronto was the site of three exhibitions. The exhibit of the Canadian Education Showplace, held on February 5 and 6, focused on the reorganization of the Department. A panel of specialists supplied answers to public inquiries. Changes in the structure of the Department were also the main theme of the booth exhibit at the Convention of the Ontario Education Association from April 19 to 21.

The display at the Canadian National Exhibition centred on current trends in education at the elementary, secondary and post-secondary levels. Questions on a great variety of topics were answered daily by a roster of officials during the entire run of the exhibition from August 20 to September 6. For the first time in the Department's history, a non-competitive Student Talent Festival took place in the theatre of the Ontario Government building in conjunction with the exhibit. A total of 258 talented students from 35 elementary and 31 secondary schools gave public performances of vocal and instrumental music, dancing and puppetry.

Local opportunities in technical education and teacher education formed the subject of the exhibit at the Western Fair which was staged between September 10 and 18 in London.

Press Services

Up-to-the-minute information concerning the work of the Department was issued in 95 press releases which were circulated to weekly and daily newspapers, the members of the Ontario Legislative Press Gallery, radio and television stations, educational publications and a variety of other addressees across the Province. Each press release served an average of 280 outlets.

Photographs produced by a staff or local photographer were distributed for press and other needs.

Public Inquiries

The Branch regularly receives a large volume of inquiries by telephone and letter on a wide range of subjects, some directly connected with the work of the Department, others concerning education in the broadest sense. Replies to these inquiries often involve a good deal of investigation on the part of branch officers. Requests for information submitted by teachers and others working on degree courses or on graduate studies likewise call for research by members of the staff. Other branches of the Department are served with press clippings from across Ontario to keep them informed on public discussion of educational topics. Organization of informative tours for visitors, both Canadian and foreign, is undertaken by the Branch.

During the year, staff writers carried out a large number of assignments which included articles, messages and other major productions.

Publications

An early task of the Branch was to make a start on a process of reorganizing the many publications produced in various parts of the Department with a view to incorporating them into a codified design system. Sixty publications were so processed during the year. All publications of the Department now carry, or will carry, a distinguishing symbol, the new Department "logo".

Ontario Education News, a newsletter with a circulation of about 2,600 is now issued monthly within the Department to brief the staff on departmental activities, personalities and projects. It carries feature articles and photographs dealing with particular aspects of education.

Provincial Library Service Branch

Public Library Development

1965 saw the completion of the first major survey in Ontario of public library service and organization. The report on the survey, which was made possible by funds provided by the Department of Education, is expected early in 1966.

Regional library development proceeded rapidly in 1965: three new regional library co-operatives were formed and one existing co-operative was enlarged. The boards for the Eastern Ontario, South Central and Central Ontario Regional Library Co-operatives held their first meetings in 1965, and each adopted a regional program with the aim of raising standards of library service among the member library boards. The North Central Regional Library Co-operative was enlarged by the addition of the District of Algoma. There are now twelve regional boards in Ontario: only two regions remain to be organized.

Several new library buildings were constructed in 1965, the largest being the main library in the City of Guelph, which was opened by the Prime Minister, the Honourable John P. Robarts, in November.

Use of Libraries

Circulation of books and other items reached the figure of 44,000,000. Public library expenditure for the Province was \$15,852,513 or \$2.50 per capita.

Librarianship

A large enrolment was reported for the course leading to the Bachelor of Library Science degree, with the result that 100 students graduated from the School of Library Science of the University of Toronto. Library courses were also made available by the University of Ottawa and by the Department of Education.

Provincial Service

The legislative vote for assistance grants to public libraries was increased to \$3,250,000. The Provincial Library Service Branch increased its service to the Department of Education and to teachers. Development of the three regional boards and two county public library boards was assisted by the advisory service of the Branch.

Youth Branch

General Information

The Youth Branch assists communities in identifying factors which influence the development of youth, such as population movements, employment, education, social adjustment and recreation. With the aid of information thus obtained, programs and policies are developed by the community as a whole to help young people meet the opportunities and challenges of contemporary society.

The Branch employs a Research Officer in Education and will engage Research Officers in Economics and Sociology.

In addition to advising communities in their local investigations, the officers gather and systematize data concerning youth in society which are made available for use by interested organizations. Such material includes drop-out studies, employment trends and special youth projects in Canada and abroad. The Branch also undertakes specific investigation, the findings of which will be useful to youth-serving agencies.

Activities

To date, three studies have been completed:

- (1) Continuing Education in Ontario: Opportunities by Sources.
- (2) Population, Labour and Educational Statistics for Ontario.
- (3) Preparation of a Bibliography and Evaluation of Films on Sex Education.

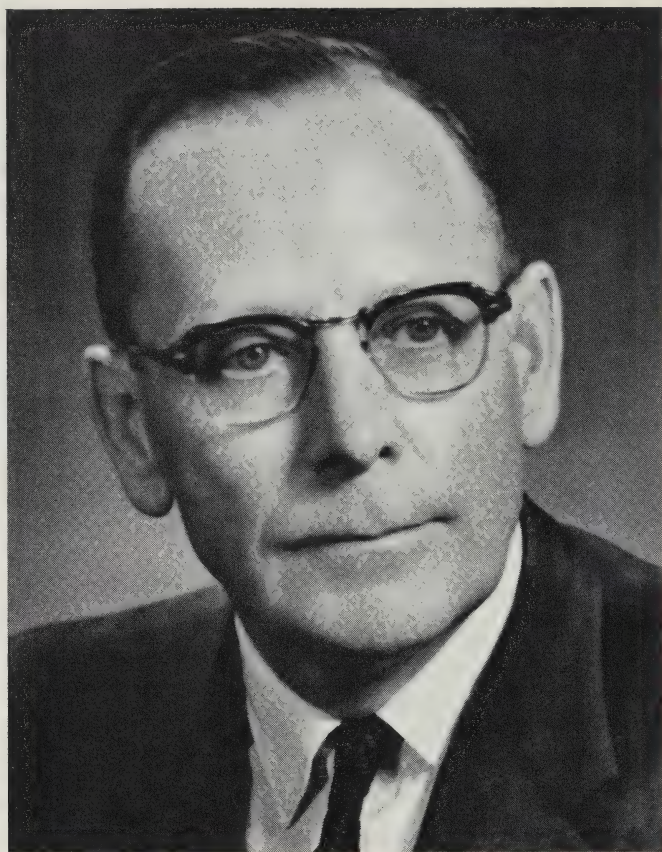

At the request of the Social Planning Council of Metropolitan Toronto, acting in consultation with the Youth Branch, the Department of Education has recently allocated funds for research on the subject of unreached youth in Metropolitan Toronto.

The staff of the Youth Branch have participated in many conferences and acted as consultants for various organizations, such as: Frontier College, groups operating under the Agricultural Rehabilitation and Development Act, Girl Guides of Canada, Boy Scouts of Canada, Canadian Camping Association, Ontario Recreation Association, Indian-Eskimo Association, Federal-Provincial Co-ordinating Committee for Indians, Big Brother Movement, Sex Information and Education Council of Canada. Members of the staff have also taken courses for their professional advancement.

Future

Requests have been received from Ontario communities for assistance in identifying the social, educational and employment problems of young people in their areas. The Youth Branch has prepared an instrument for such studies and recommends that the requisite material be collected by a community study team with representation from the following interests: youth, education (particularly guidance teachers), industry, labour, municipal councils, National Employment Service, police, probation, recreation, religion and welfare. The interpretation of the findings of the study team will be applied with the object of expanding and extending employment, educational and recreational programs.

In Memoriam

F. STANLEY RIVERS, B.A., B.PAED., LL.D.

Deputy Minister of Education, 1956-1961

Chief Director of Education, 1961-1965

Death on February 26, 1965, brought to an end the distinguished career of a man who had devoted long and highly useful years to the service of education in Ontario. Dr. Floyd Stanley Rivers was born at Teeswater, Ontario and attended a rural school in Huron County. After high school education in Owen Sound he moved to the University of Toronto, from which he graduated with first class honours in Arts and the Prince of Wales Gold Medal for general proficiency. He then qualified at the Ontario College of Education for teaching in both elementary and secondary schools, and later took post-graduate work in education at the University of Toronto and at Edinburgh University in Scotland. Beginning his teaching career at Owen Sound Collegiate and Vocational Institute, he then became a public school principal in the same city, subsequently joining the staff of the North Bay Normal School in 1931. He next served the Department of Education as an Inspector of Public Schools in the Kirkland Lake area, and then as principal of the Ottawa Normal School. Appointed in 1944 to the

staff at the Department's head office, he held in succession the posts of Assistant Superintendent of Elementary Education, Inspector of Professional Training, Superintendent of Teacher Education, and Deputy Minister of Education. His administrative career was interrupted between 1947 and 1950 by a period of service as assessor to the Royal Commission on Education which produced in 1950 the document that became known as the Hope Report. The contribution he made to education in the Province in these responsible positions was recognized by Assumption University which conferred upon him the honorary degree of Doctor of Laws in May, 1959. His appointment as Chief Director of Education dated from April 1, 1961. Dr. Rivers's interest in schools was not limited to Ontario and he took an active part for many years in the activities of The Canadian Education Association, of which he became President in September, 1963. From time to time he ably represented Canada at a number of important educational conferences at Paris, Geneva, Ottawa and Tokyo. A man of outstanding ability and great personal charm, the late Dr. Rivers will long be remembered with great affection by his many friends and colleagues in education.

J. A. BANNISTER, B.A., D.PAED., who retired on August 31, 1943, from the position of Principal of the Peterborough Normal School, died on November 11, 1965. A tribute to his service was given in the 1943 Report of the Minister.

JOSEPH BEAULIEU, B.A., MUS.BAC., who had retired on May 31, 1965 from the position of Assistant Director of Music for Ontario, died on October 1, 1965 in North Bay. Mr. Beaulieu was born on May 21, 1895, in Mattawa where he received his early education. After graduating at the University of Ottawa, he took a teaching post at an elementary school in Glen Robertson, Ontario and later taught at the University of Ottawa High School for 18 years. In August, 1942, he left Ottawa to take up an appointment as Assistant Director of Music for the Province with residence at North Bay. In the course of his activities there he founded an Opera Society and composed the music for more than 200 songs, for many of which he wrote the lyrics. Six of these songs now exist on long-playing records. Known today under the title "Chantons à l'école", these songs are officially approved by the Department as part of the music course in the bilingual schools of Ontario, a course for which Mr. Beaulieu was largely responsible. Mr. Beaulieu was a man of great musical enthusiasms who enjoyed the affection of his colleagues and of the teachers and principals with whom he was associated.

Miss CHERRY GRANT, B.A., who retired from the position of Librarian at the Ottawa Teachers' College on August 31, 1961, died in Ottawa on November 2, 1965. A tribute to her service was given in the 1961 Report of the Minister.

THOMAS O. M. JACKSON, Executive Assistant in the Grants Division of the Department, died on December 29, 1965, after suffering a seizure while on holiday in September. He was born on April 1, 1907 at Clinton, Ontario, where he attended public and high school and afterwards worked for five years in the Royal Bank. Mr. Jackson joined the staff of the Department on February 25, 1941. Shortly thereafter, he was placed in charge of accounting for the Dominion-Provincial War Emergency Training Scheme for the Royal Canadian Air Force, a function which he carried out until his enlistment

in the R.C.A.F. in January 1942. He was discharged from the R.C.A.F. on August 30, 1946, with the rank of flight-lieutenant. On September 16 in that year he resumed service with the Ontario Department of Education, with which he remained until his death. Mr. Jackson earned great respect for his sympathetic approach to the problems of school boards across the Province and, by his pleasant, cheerful manner, won himself a host of friends among school administrators and his departmental colleagues.

Miss AGNES JOHNSTON, who retired on August 31, 1946 from the position of Librarian at the Stratford Normal School, died on November 2, 1965. A tribute to her service was given in the 1946 Report of the Minister.

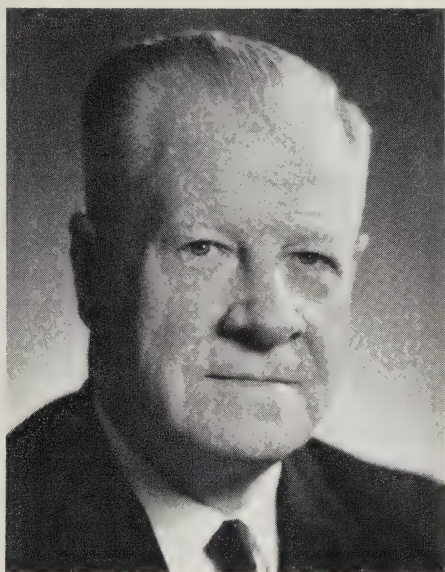

HERMAN H. LANGFORD, B.A., who was serving as Inspector of Public Schools in the Inspectorate of Lennox No. 1, Addington No. 2 and Hastings No. 4, died suddenly at his home in Napanee on April 29, 1965. Born in Western Ontario, Mr. Langford was a graduate of the Stratford Normal School. From 1922 until 1929 he taught in various public schools, after which he became a bush pilot in the Province of Quebec. In 1932 Mr. Langford entered Queen's University where he obtained the degree of Bachelor of Arts with honours. He then served as Vice-Principal and Principal of the Victoria Public School, Kingston, until 1938 when he was appointed Public School Inspector. During the war Mr. Langford served as a wing-commander in the Royal Canadian Air Force, returning in 1945 to his position as Public School Inspector at Napanee. Mr. Langford's contribution to education was marked by sincerity and integrity, and he will be remembered with warm affection by teachers to whom he gave leadership, as well as by his colleagues.

A. B. LUCAS, B.A., B.PAED., LL.D., who retired from the position of Director of Education for the London Board of Education on June 30, 1962, died on January 3, 1965. A tribute to his service was included in the 1962 Report of the Minister.

HELEN B. PAUL, B.A., who retired on August 31, 1958 from the position of Inspector of Public Schools for Lanark County, died on January 5, 1965, at Brockville. A tribute to Mrs. Paul's service was given in the 1958 Report of the Minister.

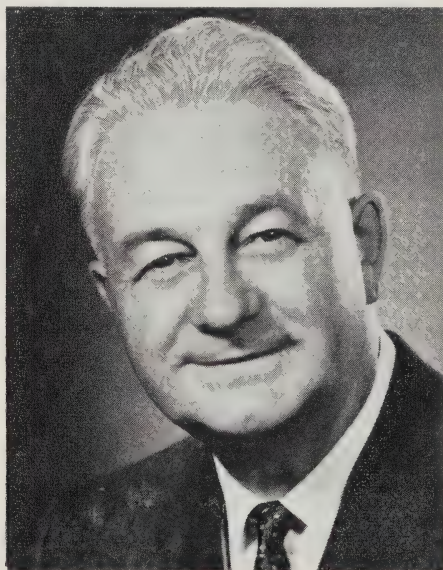

J. BLAKE SPEERS, B.A., M.ED., Assistant Superintendent, Collegiate Institute Board of Ottawa, died on November 11, 1965. Mr. Speers was born in Huntsville, Ontario, and graduated in arts from McMaster University in 1930 and in education from the University of Ottawa in 1961. He began his teaching career at the High School of Commerce where he remained as a teacher until 1949. He served as Principal of that school from 1949 to 1958 and later transferred to open the new Ridgemont High School as its first Principal. He remained at Ridgemont High School until July, 1964, when he took over the responsibility of being Assistant Superintendent of Secondary Schools. Mr. Speers was a Past President of the Ontario Headmasters' Association and a member of the Board of Regents of the Ontario Secondary School Teachers' Federation. Besides being responsible for the standards of commercial education in Ottawa, he had a great deal to do with the organizing of an extensive summer school program and pioneered in the field of Saturday morning tutorial classes for students wishing to improve their grades. Mr. Speers was active in his community and was the founding President of the Ottawa South Kiwanis Club.

Retirements on Superannuation

HOWARD R. BEATTIE, B.A.

CORBIN A. BROWN, M.A., D.PAED.

HOWARD R. BEATTIE, B.A., retired on December 21, 1965, from the position of Director, Special Schools and Services Branch. Mr. Beattie is a native of Middlesex County, a graduate of London Normal School and of the University of Western Ontario, and has done post-graduate work at the Harvard Graduate School of Education. For 17 years he was a teacher or principal in Ontario schools at Lobo, Merlin, Ayr and London. As Director of Vocational Guidance in London, Ontario, he organized in 1941 the first city-wide system of guidance in Ontario. Later, as Director of Career Planning in Hamilton, Ontario, he set up the initial organization for guidance services in the schools of that city. On July 1, 1944, Mr. Beattie was appointed the first Director of Guidance for the Department of Education of the Province of Ontario. In 1949-50 he was President of the Council of Guidance and Personnel Associations, the predecessor

sor of the American Guidance and Personnel Association. In 1953 he was appointed Assistant Superintendent for both Elementary and Secondary Education, in charge of School Attendance, Guidance Services, Special Education, and Statistics. On November 1, 1956, Mr. Beattie became the first Superintendent of Special Services for the Department of Education and in January, 1965, he was appointed Director, Special Schools and Services Branch. Prominent among his special interests were the schools for retarded children, the modernization of statistical services within the Department, and the establishment of the Ontario School for the Deaf at Milton. In each of these areas he made a distinctive contribution. His humanity, good judgment and freshness of approach as an executive won him the respect of educators across the Province while his sense of fair play and sincerity gained him the warm friendship of his associates.

CORBIN A. BROWN, M.A., D.PAED., retired on June 1, 1965, from the position of Registrar of the Department of Education after 20 years' service as head of the Registrar's Branch. Dr. Brown obtained his elementary education in a one-room rural school in Middlesex County and his secondary education at London Collegiate Institute. Following his graduation from the London Normal School in 1919, he taught in a rural school in Kent County and in public schools in London where he was appointed Principal of Alexandra School and later of Ryerson School. In January, 1929, Dr. Brown became Inspector-Administrator for the Chatham Board of Education, and in 1933, Inspector-Administrator of Public Schools for St. Catharines. In 1940 he joined the Department of Education to assist the Registrar and to act as Secretary of the Teachers' Superannuation Commission. On July 1, 1945, Dr. Brown was appointed Registrar of the Department of Education, and in November of the same year was designated by the Minister as Chairman of the Teachers' Superannuation Commission; he remained in both of these positions until his retirement on June 1, 1965. Dr. Brown was awarded the degree of Bachelor of Arts by Queen's University in 1924, the degree of Master of Arts by Columbia University in 1927, and the degrees of Bachelor of Pedagogy and Doctor of Pedagogy by the University of Toronto in 1932 and 1948 respectively. In his capacities as Registrar, Secretary of the University Matriculation Board and Chairman of the Board of Examiners, Dr. Brown was responsible in large measure for the Grade 13 departmental examinations. He will be remembered for his part in maintaining high standards and introducing new techniques in these examinations, and for his active participation in the studies directed at improving the Grade 13 program. Dr. Brown's term of office saw a tremendous expansion in the Registrar's duties and responsibilities, particularly in the fields of teacher-certification, standards and diplomas, and examinations. Dr. Brown, in his educational career, has demonstrated the qualities of a sound educator and administrator—intelligence, understanding, tolerance and foresight. The Department of Education has valued highly his contribution to education. Since his retirement, his election as a Fellow of the Ontario Teachers' Federation and as an Honorary Life Member of the Canadian Education Association indicates the esteem in which he is held throughout Canada.

J. K. EVANS, B.A., B.PAED., retired on December 31, 1965, as Inspector of Schools for the Inspectorate of Wentworth No. 1 after more than 45 years devoted to the cause of education in Ontario. Mr. Evans was born in Petrolia, Lambton County, and attended elementary and secondary schools in that area. In 1919 he enrolled at the

London Normal School, and, after graduation, spent the next 19 years as teacher, principal and supervising principal for schools in Wyoming, Oil Springs and Petrolia. During this period he earned a Bachelor of Arts degree from the University of Western Ontario. In 1938 he was named Inspector of Public Schools in Collingwood where he remained until the fall of 1942. He then taught as Master, successively, at the Ottawa and Hamilton Teachers' Colleges. In 1945, having obtained the degree of Bachelor of Pedagogy from the University of Toronto, he resumed the duties of Inspector of Public Schools, this time in Wentworth County, a position which he held until his retirement. Mr. Evans will be remembered by all with whom he came in contact for his quiet and kindly manner and for the many educational advantages that he brought to the areas in which he worked.

FLORENCE A. FITZGERALD, R.N., retired on November 18, 1965, after 31 years of devoted service as nurse in charge of the school hospital at the Ontario School for the Deaf, Belleville. Born in Simcoe County, Miss Fitzgerald received her elementary education in Foxmeade, her secondary education in Orillia, and her nursing training at Belleville General Hospital. She continued on staff at that hospital as a nurse and later as a supervisor. She served in the Victorian Order of Nurses for two years and also as a private nurse before being appointed in 1934 to the staff of the Ontario School for the Deaf as resident nurse. Here, under the direction of the school physician, she faithfully cared for the varying health needs of hundreds of deaf children. Because the hospital was her home as much as her place of work, Miss Fitzgerald's kindly interest in the well-being of all her charges not only made the hospital a happy place but permeated the atmosphere of the whole school.

ALAN J. HANCHARD, Assistant Superintendent of the Business Administration Branch of the Department, retired on August 5, 1965. He was born in London, England, where he received his early education, and was brought to Canada in 1910. After a lengthy career in the trust and estate business with the National Trust and Toronto General Trust Corporation, he joined in December, 1944, what was then called the Accounts Branch of the Department as Assistant to the Chief Accountant. From late 1948 until July 1957 he served as Executive Officer in the Community Programs Branch and, in that capacity, had a great deal to do with the organization and development of the Branch. In 1957 he was recalled to the Chief Accountant's staff and was subsequently appointed Assistant Superintendent, Business Administration Branch, in which position his particular responsibility was estimating and budgeting for the Department. His vigour, ability and diligence in the discharge of his duties won the respect of all his associates. Ill health during his last ten months of employment led Mr. Hanchard to retire. The good wishes of his many friends follow him to his new home in Vancouver.

L. B. HYDE, B.A., retired from the position of Vice-Principal of the London Teachers' College on December 31, 1965. Born in Huron County, he received his elementary education in Stratford and, upon graduating from Seaforth Collegiate Institute, attended the Stratford Normal School. After serving as principal of elementary schools in Perth County, Ridgeway and the City of Welland, he was appointed Elementary School Inspector in 1939. His interest in the establishment of Township School Areas led to service as an inspector in the Counties of Lanark, Welland, and Oxford. In 1950

he was appointed to the staff of the London Normal School where he continued to serve until his retirement. During his long and distinguished career in education, Mr. Hyde has given wise counsel to many school boards, students and teachers. His good judgment and strong leadership have left a lasting imprint on the minds of those with whom he has worked.

HELEN M. KEELER retired on August 31, 1965, from her position as teacher at the Ontario School for the Deaf, Belleville, after serving the deaf children of this Province for 34 years. Miss Keeler received her elementary and secondary education in Trenton, Ontario, and after graduating from Toronto Normal School, returned to Trenton to teach in the public schools. A kindergarten-primary specialist, she developed particular interest and skill in children's dancing, pageantry and related costuming. She was attracted in 1931 to the Ontario School for the Deaf where she inaugurated the teaching of dancing to deaf children. In association with Mr. S. Alec Gordon, who was given responsibility for the teaching of rhythm shortly afterwards, she developed a comprehensive program which included folk-dancing, tap-dancing and ballet for all grades. When the school moved from its premises during World War II to make way for a Commonwealth Air Training School, Miss Keeler began regular classroom teaching with young children and continued after the war as a preparatory class teacher until her retirement. Miss Keeler's work at the School is recalled with gratitude by students and staff.

D. MACRAE, B.A., B.PAED., Master at Ottawa Teachers' College, retired on August 31, 1965. Mr. MacRae was born in Stormont County and received his early education in Avonmore Public School and Cornwall Collegiate Institute. After graduating from the Ottawa Normal School, he taught elementary school for six years, then attended the Ontario Training College for Technical Teachers in Hamilton where he was granted a Specialist Certificate in Manual Training. In 1932 he was appointed to the staff of the Ottawa Normal School where he continued to serve until his retirement. While a practising teacher he continued his studies, receiving the degree of Bachelor of Arts from St. Patrick's College in Ottawa and that of Bachelor of Pedagogy from the University of Toronto. During his 33 years at the Ottawa Teachers' College, he served as Instructor, Master and Vice-Principal. His instructional skill, enthusiasm for teaching, administrative ability, and devotion to duty will long be appreciated by his former students and associates.

RHENA I. MCILROY, B.A., B.ED., A.T.C.M., Master at the Hamilton Teachers' College, retired on June 30, 1965. Born in Hamilton, Ontario, she received her elementary and secondary education in that city. Upon graduating from the Hamilton Normal School she taught in the City of Hamilton and continued her musical studies. After completing courses at New York University and the Toronto Conservatory of Music, she was appointed Music Supervisor for the Hamilton school system, a post in which she served for 17 years. Her work as conductor of the Orpheus Girls' Choir of Hamilton, which she founded, became well known through CBC broadcasts. Miss McIlroy taught music at the London and Hamilton Normal Schools for ten years before she assumed full-time duties at the Hamilton Teachers' College in 1955. While teaching, she continued her studies and obtained a degree of Bachelor of Arts from McMaster University and that of Bachelor of Education from the University of Toronto. An

outstanding teacher of music, Miss McIlroy was an inspiration to thousands of young people. Her fine personal qualities and her dedication to choral music will long endear her to her former students and associates.

BASIL M. McLEAN, B.A.Sc., B.PAED., P.ENG., retired on April 1, 1965, from the position of Technical Adviser. Mr. McLean graduated in engineering from the University of Toronto in 1921 and spent the next 26 years teaching in elementary and secondary schools under the jurisdiction of the Toronto Board of Education. Before accepting, in 1947, his first post with the Department of Education as Assistant Technical Adviser, he was Director of Shops and Drafting, and Night School Principal, at the Danforth Technical School, Toronto. His years of service as Assistant and then as Technical Adviser in the Department were years of phenomenal expansion in school building across the Province. His interest and background of experience meant much to the school authorities whom he counselled, just as his friendship meant much to the staff members of the Department with whom he worked.

THOMAS S. MELADY, M.A., Inspector of Separate Schools for Toronto Division No. 1, retired on October 10, 1965, after almost 44 years of service as an Inspector. Mr. Melady was born in the township of Hibbert where he attended a rural school. He graduated from Seaforth Collegiate Institute in 1913, and studied at the Faculty of Education in Toronto. He taught in elementary schools in Northern Ontario, and also in the Province of Saskatchewan. His experience in high-school teaching was gained at St. Michael's College School in Toronto. After service in the army during World War I, he attended the University of Toronto where he obtained a Bachelor of Arts degree. He was appointed an Inspector of Separate Schools, with residence in Stratford, on December 22, 1921. He later served as Inspector in the Windsor Separate Schools, and was transferred to the Toronto Separate School Inspectorate in September, 1940. Having acquired a Master of Arts degree at the University of Western Ontario, he took further courses in educational administration at Columbia University. During his years of service, Mr. Melady assisted in adapting the principles of the rotary system to the smaller urban school and displayed a special interest in the development of the senior elementary school for Grades 7 and 8 in the Toronto Metropolitan Separate Schools. Mr. Melady's service won appreciation from pupils, teachers and trustees alike.

G. J. PATTERSON, B.A., B.PAED., retired on August 31, 1965, from the position of Inspector of Schools for the Hamilton Board of Education. Mr. Patterson was born in Rochester, New York, but attended Hamilton public schools and Hamilton Collegiate Institute and Normal School. He was appointed to the staff of the Hamilton public schools in 1925, reaching the position of Principal of Brantdale School in 1936. During the next 15 years he served as principal in several other Hamilton public schools. He graduated from McMaster University with a Bachelor of Arts degree in 1935 and was awarded his Bachelor of Pedagogy by the University of Toronto in 1942. In 1953 Mr. Patterson was promoted to the position of Inspector of Schools to the Hamilton Board of Education. Mr. Patterson has interested himself extensively in many aspects of education, but particularly in the field of special education. His educational wisdom was a source of strength to the Hamilton Public School system and his service will be remembered with appreciation.

STUART H. PORTER retired on October 30, 1965 from his post as Head of the Watchmaking and Jewellery Arts Department of the Provincial Institute of Trades in Toronto. Mr. Porter was born on June 12, 1899, in Orangeville where he received his public and high school education and subsequently became an apprentice watchmaker. After joining the 67th University Battery in 1916, he served in France and was seriously gassed. At the end of World War I, he returned to Orangeville to complete his apprenticeship, then moved to Dundalk where he married a former high school teacher from Orangeville. Mr. Porter went, in 1942, to Toronto to work on special instruments in the aircraft industry. In 1945 he joined the staff of the Training and Re-establishment Institute, which afterwards became the Ryerson Institute of Technology. Mr. Porter later moved with the watchmaking course from Ryerson to the Provincial Institute of Trades, in which he eventually became head of the department concerned. Mr. Porter will long be remembered for his kindly and continuing interest in his students.

WINNIFRED R. PRENDERGAST retired on September 14, 1965, from her position as Instructor in Physical Education at the London Teachers' College. Born in Toronto, Ontario, she received her elementary and secondary education at the Toronto Normal Model School and Loretto Abbey High School respectively. Upon graduating from the Margaret Eaton School of Physical Education in Toronto, Miss Prendergast embarked on a long and varied career in her chosen field. Her teaching experience includes work at University of St. Louis, the H. B. Beal Technical and Commercial High School in London, McMaster University summer sessions, and 30 years of service at the London Teachers' College. She was the first Director of the Department of Education's Counsellor Training Camp, a charter member of the Physical Education Council of Ontario, the recipient of a Centennial Award presented by the Physical Education Branch of the Ontario Education Association, and the author of a book on physical education. A skilful teacher and a woman of boundless energy, Miss Prendergast gave outstanding leadership to the students in her classes and to the many teachers who sought her advice and assistance.

J. LAWRENCE RUNNALLS, B.A., retired on August 31, 1965, from the position of Inspector of Schools for Lincoln No. 2. He was born on Barrie Island and received his early education at Barrie Island Public School and Gore Bay High School. He then taught school for three years before attending North Bay Normal School in 1924-25. During the next three years he taught in what is now West Ferris Township School Area. His next 16 years of teaching were spent in the City of North Bay. In 1938 he obtained a Bachelor of Arts degree from Queen's University. The year 1944 brought an appointment as Public School Inspector in Haileybury where he remained until 1954. In that year he was transferred to St. Catharines as Inspector of Lincoln No. 2. Mr. Runnalls gave outstanding leadership to service and fraternal organizations in the Ontario centres in which he lived and worked. His quiet manner, his steady interest in all that is best in education, and his unfailing sincerity will be remembered by his colleagues.

WILLIAM L. STRICKER retired on August 31, 1965, from his position as Instructor in Industrial Arts at the Toronto Teachers' College. Born in Dawn Township, Lambton County, he received his elementary education in a rural school. Upon graduating

from Beamsville High School, he attended the Hamilton Normal School and commenced his teaching career in S.S. No. 13 North Grimsby. Prior to his appointment, on a part-time basis, to the staff of Hamilton Normal School in 1933, Mr. Stricker had qualified as a Manual Training Specialist and had taught manual training in the Hamilton public schools for a period of three years. From 1933 to 1937, while instructing in manual training at the Hamilton Normal School in the afternoons, he served during the mornings as Vice-Principal of the Strathcona Public School in Hamilton. For the next 14 years he taught at the Normal Schools in Peterborough, Hamilton, and Toronto, commuting from school to school each week. In 1951 he assumed full-time duty at the Toronto Normal School where he served until his retirement. A skilful teacher and an expert craftsman, Mr. Stricker has made a fine contribution to teacher education in Ontario. He will be remembered with appreciation by the many teachers and students to whom he gave kindly guidance.

J. W. VANLOON, B.A., B.PAED., Superintendent of Public Schools to the Hamilton Board of Education, retired on August 31, 1965. Born in Tillsonburg, he received his early education there and later attended Hamilton Normal School in 1924-25. The following September he was appointed to the staff of Memorial Public School, Hamilton. After seven years of teaching, Mr. VanLoon was promoted to be Principal of Ryerson School and five years later was transferred to the principalship of Lloyd George School. On the strength of his recognized ability, Mr. VanLoon was recommended for the appointment of inspector in 1939. During his years as teacher and principal, he obtained a Bachelor of Arts degree from McMaster University and a Bachelor of Pedagogy from the University of Toronto. In 1958 Mr. VanLoon was appointed Superintendent of Public Schools, a post which he held with distinction until his retirement. Mr. VanLoon showed keen interest in active participation in his church, in fraternal societies and in service clubs. After 40 years of service with the Hamilton Board of Education, he can look back with pride on a successful career as a teacher, principal, inspector and superintendent.

JOHN C. WILKER, B.A., B.PAED., retired on August 31, 1965, from the position of Assistant Superintendent, Supervision Division. Mr. Wilker was born near Tavistock in Oxford County and attended a rural school. He received his secondary education in Tavistock and Stratford and graduated from Stratford Normal School. After obtaining a degree in Mathematics and Physics from the University of Western Ontario, he added to his qualifications a specialist certificate in Mathematics and Physics from the Ontario College of Education and a Bachelor of Pedagogy degree from the University of Toronto. He taught in rural schools in Waterloo County and in the Hespeler Public School. His work in the Ottawa public schools included ten years as principal. Appointed Inspector of Public Schools in 1944, he served in Prescott and Russell, and in Carleton and in Lincoln Counties. He was a member of the staff of the Ottawa Normal School in 1950-51, and was responsible for organizing and operating the Departmental Elementary-School Principals' Refresher Course during the period 1947 to 1951. In 1957 he was appointed Assistant Superintendent of Elementary Education, serving in that Branch and subsequently in the Supervision Division until his retirement. Because Mr. Wilker's work was invariably characterized by quiet sincerity and sound judgment, he made a most significant contribution to education in Ontario.

SERVICE RECORD—

Personnel Employed by Province of Ontario

DIED IN SERVICE

- T. O. M. JACKSON Executive Officer 2, Executive Assistant to Chief,
Grants Office, December 29, 1965.
- H. H. LANGFORD Education Officer 2, School Inspector, Supervision
Division, April 29, 1965.

C—Letters of Permission

1. Issued to Elementary School Boards which were unable to obtain the services of certified teachers.

On behalf of

(a) persons with no professional training	778
(b) holders of expired Third Class Certificates	24
(c) persons who failed at Teachers' College	92
(d) teachers holding High School Assistant's Certificates	19
(e) teachers holding certificates from other provinces (holders not eligible for Letters of Standing)	250
	<u>1,163</u>

2. Issued to Secondary School Boards which were unable to obtain the services of teachers with the qualifications required by the Regulation for Secondary Schools.

For the positions as unqualified teachers of

(a) general academic subjects	701
(b) general academic subjects and special subjects	217
(c) special subjects	569
(d) vocational subjects	130
(e) diversified occupational trades classes :	
Practical Subjects	86
Academic Subjects	133
	<u>1,836</u>

3. Issued to Secondary School Boards for the engagement of persons eligible for admission to secondary school teacher training courses leading to basic certification.

As teachers of

(a) academic subjects	1,984
(b) vocational subjects	183
(c) vocational-commercial subjects	145
(d) occupational subjects	77
	<u>2,389</u>

TABLE 3.5—CERTIFICATES AND DIPLOMAS, 1965

A—STATEMENT OF STANDING, CERTIFICATE OF STANDING, AND CERTIFICATE OF TRAINING, 1965*

1. STATEMENT OF STANDING		Total
(a) Secondary Schools:		
Issued by the principal, upon request of pupils who have left a secondary school, and who have completed successfully Grades 9 and 10 of the Four-Year or Five-Year Program in one of the Branches:		
Continuing Program.....	3,546	
Reorganized Program.....	12,334	15,880**
(b) Elementary Schools:		
Issued to pupils who have completed successfully Grades 9 and 10 in an elementary school.		
Grades 9 and 10 of Public Schools.....	107	
Grades 9 and 10 of Roman Catholic Separate Schools.....	6,656	6,763
2. CERTIFICATE OF STANDING		
Issued to pupils who have completed successfully Grades 9 and 10 of the Two-Year Program in a secondary school.		
Two-Year Program.....	1,604	1,604
3. CERTIFICATE OF TRAINING		
Issued to pupils who have completed successfully a One- or Two-Year course of study in the Occupational Program in a secondary school.		
Occupational Program.....	4,688	4,688
		28,935

* Intermediate Certificates were last issued in June, 1963.

** These are the Statements of Standing from July 1, 1964 to June 30, 1965. This is the first occasion on which a full twelve month report has been made. The corresponding figure in the 1964 Report covered only the month of June, 1964.

TABLE 3.5—CERTIFICATES AND DIPLOMAS, 1965—(Continued)

B—THE SECONDARY SCHOOL GRADUATION DIPLOMA
Issued to pupils completing Grade 12 in 1965

Classes of Schools	Total number of pupils recommended	Pupils Classified by Courses								
		General				General Technical	Technical	Home Economics	Commercial	Art
		4 Options	5 Options	6 or more Options	Total					
Secondary Schools . . .	48,899	25,706	9,639	397	35,742	51	3,888	141	8,860	217

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare. These reports give the number of families transferring accounts into and out of each province. The data are compiled for a census year, June to May up to and including 1958-59 but for the school year thereafter. In order to show the number of children rather than families, the average for Canada—2.48 children per family—has been used as a multiplier.

**TABLE 3.72—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN
THE TERRITORIAL DISTRICTS 1964-1965**

The Province of Ontario provided transportation assistance to 933 students during the school year 1964-65. \$23,040.14 was paid to 615 students residing east of Sault Ste. Marie and 317 students residing west of Sault Ste. Marie. Of those assisted, 333 were in the first year, 259 in the second year, 242 in the third year, 86 in the fourth year, 9 in the fifth year and 4 in the sixth year.

The institutions attended by these students were as follows:

Queen's University	200	McMaster University	36
Western University	214	Ontario College of Education	8
University of Toronto	153	Osgoode Hall Law School	13
Assumption University of Windsor	93	Waterloo University College	32
University of Ottawa	75	Ontario College of Art	3
University of Waterloo	74	Carleton University	3
Federated Colleges of the Ontario		Laurentian University, Sudbury	0
Department of Agriculture	28	York University	1
Total			933

TABLE 6.5—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION

(Dates indicate year of printing or reprinting without revision)

A. COURSES OF STUDY

Grades 1 to 10

- Programmes of Studies for Grades 1 to 6 of the Public and Separate Schools reprinted with minor revisions in 1963.
- Programme for Religious Education in the Public Schools, 1963.
- Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10), English (Grades 7-8) 1964.
- Curriculum I. 1(e), Intermediate Division Science (Grades 7-10) 1965.
- Curriculum I. 3 & S. 5, Guidance in the Intermediate and Senior Divisions, 1963.
- Curriculum I. 4, Reading List for the Intermediate Division (Grades 7-10) 1964.
- Curriculum I. 4A, Supplement to Intermediate Division Reading List (Grades 7-10) 1964.
- Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, (Grades 7-10), 1965.
- Curriculum I. 6, Intermediate Division Home Economics, 1965.
- Curriculum I. 7 & I. 9, Geography, History and Government, Social Studies, Intermediate Division, 1964.
- Curriculum P. & J. 4, Primary and Junior Divisions Reading List, 1963.
- Curriculum P. & J. 4(b), Primary and Junior Divisions Reading List, 1963.
- Curriculum P. 5, Physical Education, Primary Division, 1965.
- Curriculum J. 5, Physical Education, Junior Division, 1965.
- Curriculum I. 12A, Intermediate Division Mathematics, (Grade 7) 1963.
- Curriculum I. 12B, Intermediate Division Mathematics, (Grade 8) 1965.
- Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1964.
- Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.

B. REVISION OF CURRICULUM

- Curriculum 2, Promotion from Grade 8 and Admission to Grade 9, 1965.

C. COURSES OF STUDY

Grades 9 to 13

- Circular H.S. 1, Requirements for Certificates and Diplomas, issued annually. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas and Secondary School Honour Graduation Diplomas.
- Circular H.S. 1B, List of Publications re Courses of Study (Grades 9-13) issued annually. Lists Circular Numbers and Titles of the various Courses of Study.
- Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10) 1965.
- Curriculum S. 4A, Reading List for Senior Division (Grades 11-13) 1964.
- Curriculum S. 4AC, Supplement to Senior Division Reading List (Grades 11-13) 1964.
- Curriculum S. 8, Grade 13 Curriculum Bulletin, 1965.
- Curriculum I. & S. 15, Intermediate and Senior Divisions Modern Languages (Grades 9-13) 1963.
- Curriculum I. & S. 16, Music (Grades 9-13) 1965.
- Courses in the various subjects of Grades 11, 12 and 13. These should be requested by subject and grade.
- Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1964.
- Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.
- Circular 58, Prescriptions in English and Modern Languages for Grade 13 Departmental Examinations, issued annually.

D. TEACHING AIDS

Art

- Art and Crafts in the Schools of Ontario, 1962.
- Art Education in the Kindergarten, 1962.
- Art Education for Slow Learners, 1965.
- Art Education during Adolescence, 1965.
- Children and Their Pictures, 1963.

Library

- Teachers' Library Catalogue.

TABLE 6.5—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION—(Concluded)

Music

- Circular Mus. 3, School Music Festivals, 1950.
- Circular Mus. 5, Memorandum relating to the Teaching of Music in Elementary and Secondary Schools, 1955. (Out of print).
- Circular Mus. 6, Careers in School Music, 1957.
- Circular Mus. 8, Song Books for School, 1958.

Radio

- School Radio Broadcasts, issued annually.

Religious Exercises, Religious Education and Religious Instruction

- List of Bible Readings for Schools, 1961.
- Programme for Religious Education in Public Schools, 1963.

E. ADDITIONAL PAMPHLETS

- Visual Education Catalogue and Supplements.
- Teaching in the Elementary Schools of Ontario, issued annually.
- Calendar of the Teachers' College, issued annually.
- Calendar of the University of Ottawa Teachers' College, 1965.
- Calendar of the Primary School Specialist Certificate Course, 1965.

F. SCHOOL ACTS AND AMENDMENTS

- The Department of Education Act, 1965.
- The Public Schools Act, 1965.
- The Schools Administration Act, 1965.
- The Secondary Schools and Boards of Education Act, 1965.
- The Separate Schools Act, 1965.
- The Ontario School Trustees' Council Act, 1965.
- The Teachers' Superannuation Act, 1963.
- The Teaching Profession Act, 1965.
- The Trade Schools Regulation Act, 1964.
- The Public Libraries Act, 1965.

REGULATIONS

- Auxiliary—Education Services
- Diplomas—Elementary and Secondary Schools
- Elementary Schools—General
- Elementary School Inspector's Certificate
- General Legislative Grants
- Grade 12 Departmental Examinations
- Grade 13 Departmental Examinations
- Grants for Non-Profit Camps

Northeastern.....	123,282	16	340,869	50,949	237,528	1.92
Districts of Cochrane and Temiskaming						
Northwestern.....	182,610	21	281,088	86,870	466,999	2.55
Districts of Kenora, Rainy River and Thunder Bay						
Southwestern.....	453,814	51		24,343	1,188,911	2.62
Counties of Essex, Kent and Lambton						

Regional Library Co-operatives are established under Part III of the Public Libraries Act and are designed to provide and encourage co-operative services among member libraries.

(1) Member libraries listed are totals for the region and do not necessarily participate in all services. (2) Headquarters circulation and (3) expenditure are unduplicated: they do not include totals reported elsewhere. (4) Total of all public library expenditure in the region, and (5) expenditure per capita for the region.

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas and for the use of schools for practice teaching.

(2) Commencing with 1963, the former special grants were incorporated into the general legislative grant. The legislative grants for 1955, 1956 and 1957 are special per pupil grants. The legislative grants for 1961, 1962 and 1963 are the Residential and Farm School Tax Assistance Grant. The latter grant was incorporated into the general legislative grant in 1964. The amount shown for 1964 is in respect of the 1963 Grant.

NOTE: During the calendar years 1962, 1963, 1964 and 1965, payments in the amounts \$116,880,945, \$108,645,957, \$24,209,090 and \$25,378,365 respectively were made to School Boards for the construction and equipment of vocational accommodation under the terms of the Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario.

Total	301,339	1,089	334,712	635,906,000

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

APPENDIX 1-A—PROGRAM BRANCH
as of December 31, 1965

HEAD OFFICE MAILING ADDRESS:

Department of Education, 44 Eglinton Avenue West, Toronto 12, Ontario

DIRECTOR — L. M. Johnston, B.A.

CURRICULUM DIVISION

SUPERINTENDENT — M. B. Parnall, M.A., M.Ed., 44 Eglinton Avenue West

ASSOCIATE SUPERINTENDENT — D. A. Clee, B.A., M.Sc., F.R.G.S. — Television

ASSISTANT SUPERINTENDENTS

N. Bennett-Alder, B.A.	French
A. T. Carnahan, M.A., B.Ed.	Geography
F. J. Clute, B.A.	Guidance
J. K. Crossley, B.A., M.Ed.	Mathematics
H. W. Cyr, M.A., B.Paed.	Français
Miss D. H. M. Dunn, M.A., B.Paed.	Primary English, Reading
R. H. Field, B.A., M.Ed.	K-6 Co-ordinator
C. D. Gaitskell, M.A., D.Paed.	Art
J. W. Gardiner, B. Com.	Commercial
J. W. Grimmon, B.A., B.Paed.	Audio-Visual
R. A. Jackman, M.A.	Modern Languages
G. A. Kaye, B.A.	Senior Mathematics
N. B. Massey, B.A., M.Sc.	Science
B. S. McCool, M.B.E., B.A.	Music
W. D. A. McCuaig, B.A., M.Ed.	History, Geography, Social Studies
E. J. Quick, M.A., F.R.C.G.S.	
L. W. Steele, B.Sc.	Chemistry, Physics
C. H. Wilkins, B.A.	English
Miss B. Smith, B.A., B.L.S.	Co-ordinator, Elementary School Libraries
D. J. Cook	Administrator, Television
H. R. J. Mountain	Television Adviser
Miss P. A. Moore, M.A.	Primary Reading (On loan — consultant on K-6 staff.)

REGISTRAR'S DIVISION

REGISTRAR — A. W. Bishop, B.A., 44 Eglinton Avenue West

ASSISTANT SUPERINTENDENT — H. A. Sutton, M.A.

ASSISTANT REGISTRAR — G. J. Westwood, B.A.

ADMINISTRATOR, EXAMINATIONS AND DIPLOMAS — A. H. Milne, B.A.

ADMINISTRATOR, TEACHERS' CERTIFICATES AND ADMISSIONS — N. A. Vale, B.A.

SUPERVISION DIVISION

SUPERINTENDENT — A. H. McKague, B.A.

ASSISTANT SUPERINTENDENTS

W. G. Chatterton, B.A., B.Paed.	B. E. Michaud, B.A., B.Paed.
A. H. Dalzell, M.A., B.Paed.	Miss G. R. Munnings, B.A.
R. W. Froats, B.A.	E. J. Neville, B.A.
A. Gamble, B.A.Sc., P.Eng.	C. P. O'Neill, M.A.
H. B. Henderson, B.A., B.Paed.	G. E. Seguin, B.A., M.S.
G. P. Hilemer, B.A.	D. Steinhauer, B.A.
T. H. Houghton, B.A., M.Ed.	J. R. Thomson, B.A., B.Paed.
A. L. Lokie, B.A., B.Paed.	W. C. VanderBurgh, B.A., B.Paed.
R. J. McNaughton, B.A., B.Paed.	G. H. Waldrum, B.A., M.Ed.
	W. Wood, B.A.

DEPARTMENT OF EDUCATION ORGANIZATION CHART

to be read in conjunction with page xv

Report of the Minister of Education 1966

To the Honourable W. Earle Rowe, P.C. (C)
Lieutenant-Governor of the Province of Ontario

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1966, reviewing in summary, the activities of the branches and divisions which are responsible for the organization and supervision of the educational system in the Province.

The extensive reorganization of the departmental structure, which originated in 1965, was continued during 1966 with the establishment of the Educational Television Branch. The director of this Branch, which was formerly a section of the Curriculum Division, now reports directly to the Assistant Deputy Minister of Instruction. During 1966 the Applied Arts and Technology Branch was created to absorb the former Technological and Trades Training Branch and was so-named to reflect the current interest in the new Colleges of Applied Arts and Technology.

During 1966 changes were effected in the administrative organization of the Department, *viz*: the Departmental Business Administration Branch was retained in part. From a segment of this Branch, the Financial Administration Office was created with staff in Budgeting and Internal Auditing, as well as a Legal Adviser and the Special Adviser on Data Processing. Simultaneously, the School Business Administration Branch which was established in 1965, assumed responsibility for the Grants Division, which had formerly functioned under the auspices of the Departmental Business Administration Branch.

In September, 1966 a total of 1,800,897 students were enrolled in the elementary and secondary schools of the Province. The overall increase, a normal increment commensurate with the general growth of population, surpassed the 1965 figure by 62,116 or 3.6%, representing an increase of 44,828 or 3.4% in the elementary schools and 17,288 or 4.1% in the secondary schools.

Expanding enrolments continued to spur on the building programs. In 1966, new accommodation was provided for 82,145 elementary school pupils at an estimated cost of \$92,707,000 and for 55,975 secondary school students at an estimated cost of \$150,093,000.

The wide diversification of courses currently offered, has intensified the demand for more highly qualified teachers. The total number of teachers employed in the secondary schools of the Province rose from 21,659 in 1965 to 24,242 in 1966.

During the summer of 1966, a total of 13,027 elementary school and secondary school teachers registered for the summer courses offered across the Province. This represented an increase of more than 11% over the 1965 summer school enrolment.

In the elementary schools the demand for teachers was approximately matched by the supply. A total of 47,647 teachers were employed in the elementary schools of the Province during 1966, an increase of 6.0% over the 1965 figure.

The registration at the Teachers' Colleges for the 1966-67 session totals 6,534 students. In 1966, the Two-year Course, instituted in 1953, was terminated with the final group of students to be trained under this plan graduating in June, 1966. Of prime importance this year was the tabling in February of the Report of the Minister's Committee on the Training of Elementary School Teachers.

The recommendations of the Report include the establishment of a Concurrent Course, which would combine academic and professional training; a Consecutive Course involving one-year of postgraduate training; and an Internship Plan which was initiated in the spring of 1966 for qualifying candidates. Under the Internship Plan, students will participate in four weeks observation and teaching experience at schools during May or June, followed by a six-week summer course, internship experience in the schools from September to December, regular classroom teaching from January to June and a final six-week summer course. Some 65 candidates will be granted an Interim Elementary School Teacher's Certificate, Standard 4, following completion of the second summer course in 1967. The course will again be offered in 1967-68. The Report of the Minister's Committee on the Training of Elementary School Teachers will function in the provision of updated training methods. Recommendation has been made that all teacher-training be eventually turned over to the universities of the Province. For purpose of discussing the implications and ramifications of the Report, officials of the Department have been meeting with senior officers of the universities.

In cooperation with the Ontario Institute for Studies in Education, Grade 13 achievement tests are being developed in certain subject areas for use in 1967. For the first time, in 1966, 35% of the final standing in each Grade 13 subject was based on the student's proficiency and 65% on the written examination.

During the year a plan was announced to discontinue the practice of having Grade 13 examinations prepared and marked centrally by the Department. Beginning in 1968, the secondary schools will prepare and grade their own Grade 13 examinations. On the other hand, College Entrance Examinations will be prepared and marked by the Ontario Institute for Studies in Education.

The Schools Administration Act has been amended to state that in 1968, the school year will be divided into three terms and the Easter recess will be replaced by a fixed week-long vacation at the end of March. Schools will also be closed on Good Friday and Easter Monday.

During the year under review, provision was also made in an amendment of The Schools Administration Act to permit the establishment, by a school board, of special classes for those pupils whose fluency in the English language is inadequate.

In 1966 the Northern Corps was established with thirteen selected teachers to staff isolated northern schools in remote parts of the Province. The Northern Corps functions to provide students who reside in these regions with an equality of educational opportunities.

Curriculum, a major sector of educational change in the Department continued to

receive intensive consideration during the past year. Approximately thirty-seven committees were engaged in the continuing task of reappraising and updating educational curricula. To complement their efforts, liaison was established between the Curriculum Division and members of the teaching and industrial professions.

The interim revision of courses for Kindergarten and for several subject areas of Grades 1 to 6 was completed in 1966. This revision has emphasized the importance of local adaptation of content and approach to serve the diverse interests and aptitudes of students.

The Provincial Committee on Aims and Objectives of Education, under the distinguished chairmanship of Mr. Justice Emmett M. Hall, is primarily concerned with the education of children in Kindergarten and Grades 1 to 6. During 1966 other problems in education at the elementary and secondary school level also received consideration. This was inevitable since there is a continuity involved in the educational process which cannot be ignored in such a study. Since its inception, the Committee has received more than 100 briefs. The Report of the Committee will be presented in 1967.

Changes have been announced relating to the use of French as a language of instruction in Latin, History and Geography. In those secondary schools where the number of French-speaking students justifies the practice educationally and economically, French may, at the discretion of the school board, be the language of instruction in the forementioned subject areas in Grades 9 through 13.

In October, 1966, a committee on "Anglais" was established to investigate the potential of a sequential program of "Anglais" for French-speaking students in Ontario, beginning in the Primary Division and extending to Grade 13. It is envisaged that this program would emphasize the communication aspect and practical use of the English language. It would also provide for appropriate courses of a general nature at each grade level.

A number of additional steps have been taken during 1966 to further the integration of the elementary and secondary panels of the school system. Three boards of education were established which will have jurisdiction over all public and secondary schools in their respective areas.

Five additional Area Offices were opened to complete the pattern for decentralization of administration and supervision. Each office is controlled by an area superintendent. Business administrators have been appointed for seven of these ten area offices.

Under the auspices of the Special Schools and Services Branch, an experimental class for aphasic children was instituted at the Ontario School for the Deaf, Belleville. The existing summer course for teachers of trainable retarded children was augmented by a second in 1966 with a total enrolment of 15 teachers in the two courses.

During the school year between July 1, 1965 and June 30, 1966 a total of 31,857 students enrolled in correspondence courses, an increase of 6,548 over the previous year. For the first time, in the fall term of 1966, eleven commercial courses were offered. These will provide a commercial option on a graduation diploma, Arts and Science Branch, and make it possible for students to qualify for the diplomas of the Business and Commerce Branch.

During 1966, a course in New Approach Mathematics for Grade 12 and new courses in Grade 13 English, French and Latin were introduced to meet changes in prescriptions. New Mathematics for Grade 13 was offered in the fall term.

During 1966 the Applied Arts and Technology Branch was created. It includes the former Technological and Trades Training Branch and staff related to the Colleges of Applied Arts and Technology. Nineteen Colleges of Applied Arts and Technology areas have been named since June, 1966, with Boards of Governors being established for 10 colleges. It is expected that Boards will be operating in each of the other areas by early 1967, to provide colleges that will offer programs of instruction in temporary quarters by September, 1967.

All the Institutes of Trades and all the Vocational Centres are operating at 100% capacity, with several implementing an extended day school or a second shift system.

The year 1966 was particularly eventful for the Ontario Manpower Retraining Program, formerly known as Program 5. The Report, commissioned jointly by the Department of Education and the Ontario Economics Council to assess the existing program, resulted in the launching of an advertising campaign designed around the production of a dramatic documentary television film. Living allowance payments were increased in 1966 to a range of \$7 to \$15 per day from the previous rate of \$5 to \$11 per day. A significant increase in enrolment is attributed to the increased training allowances, improved counselling services and better selection of courses. The enrolment figures for the interim between April 1 and October 31, 1966 show an increase of 53.7% over those for the previous comparable period with October, 1966 being 81.8% greater than October, 1965. There was a significant decrease (44.6% for a partial year) in the number of dropouts.

The Educational Television Branch, established in July, 1966, is divided into two major areas, Education and Operations. This Branch is concerned with development in such areas as: the formal school program; adult education; university courses; leisure-time activities; and the use of closed-circuit television in the schools and universities of Ontario. During the school year 1966-67, approximately 150 programs will be broadcast in a diversity of academic topics. Next year 200 half-hour programs will be broadcast with an anticipated increase to 1,500 in 1968-69.

Among the major events of the year was the passage of Bill 155, The Public Libraries Act, 1966. The new legislation emphasizes regional systems and provides for an Ontario Provincial Library Council, while retaining existing municipal and county library boards. A legislative vote of \$5,000,000 increased grants to public library boards by more than 50% over the 1965 allotment.

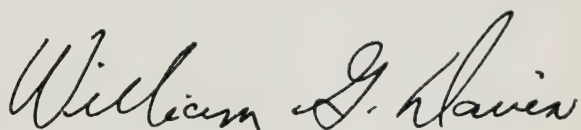

During November, the Minister's Conference on Recreation held at Toronto, under the auspices of the Community Programs Division, focused interest on the rapid growth of leisure-time and its constructive use. A result of this Conference was the establishment of a Conference Committee to evaluate recommendations pertaining to the improvement and expansion of recreational opportunities in the Province.

During 1966 a Youth and Resources Study was initiated by the Youth Branch. The Study, to be spread in six phases over an interim of two years, is designed to identify, isolate and help solve the problems of youth in northern and northwestern Ontario communities.

The value of the Education Data Centre in the computer-processing of educational statistics has been realized during 1966 with the processing of teacher and student data, and in the preparation of the statistical portion of the present report.

The educational system of the Province is a gigantic cooperative venture between the provincial and municipal governments, the taxpayers, boards of trustees, members of the teaching profession and the parents on the one hand, and the pupils and students themselves, on the other. The common task, education of the youth of Ontario is the responsibility of everyone to ensure that these young people are properly equipped to render their share of public service in their communities in time to come.

Respectfully submitted,

A handwritten signature in dark ink, reading "William G. Davis". The signature is written in a cursive style with a large, prominent "W" and "D".

Toronto, December 31, 1966.

Minister of Education

Program Branch

The entire instruction program in the schools of Ontario is the responsibility of the Program Branch.

Among the functions of this Branch is included implementing the integration of elementary and secondary education in the Province. In addition, under unified authority, it assembles curriculum, administration and supervision of the school system, examinations, testing and certification.

A number of individual responsibilities, formerly administered by small specialist Departmental branches, have been absorbed into the Program Branch.

CURRICULUM DIVISION

The continuing responsibilities of the Curriculum Division include those stated below:

- (1) development of new courses and programs and the revision of existing courses;
- (2) consultation with teachers, principals, inspectors and the staffs of teachers' colleges and universities concerning subject content and teaching methods;
- (3) assisting the Educational Television Branch in the development of school programming;
- (4) liaison with organizations and institutions interested in curriculum development;
- (5) studying the needs of business, industry, agriculture and labour and, where feasible, making appropriate changes in the school program;
- (6) assisting the Professional Development Division and teachers' organizations in conducting workshops and teacher updating courses;
- (7) cooperation with the Ontario Institute for Studies in Education.

Articulation of Courses, Grades 1 to 13

This can be illustrated with reference to the manner in which the new courses of study in French are currently being developed. A committee of teachers and inspectors, drawn from both elementary and secondary school panels and assisted by university specialists, has developed course outlines for Grades 7 and 8 English-speaking students. The aural-oral approach has been emphasised in these courses. As the graduates of these courses enter secondary school, the present courses will be changed to take advantage of the elementary level experiences the students will have had. At present, French is a recognized option in the elementary schools for Grades 7 and 8; should the option be extended to those grades below 7, it will necessitate a similar and continuing series of changes at every grade level.

New and Revised Courses of Study

During 1966, approximately 37 committees were engaged in the development of curriculum materials and course outlines for use in schools. The 524 committee members included teachers, inspectors, staff personnel of teachers' colleges and representatives of the professions and industry. They worked with the Division staff.

Course outlines were completed for: Kindergarten; Mathematics (Grade 10);

Curriculum Study Guide for Grade 13 Latin Verse; Agriculture Mechanics (Grades 11 and 12); French Programs for Grades 7 and 8; Physical and Health Education, Intermediate Division (Grades 7 to 10); Interim Revision of Grades 1 to 6 in Mathematics, Art, and English; Chemistry (Grade 13); Instrumental and Vocal Music, Intermediate and Senior Divisions (Grades 7 to 12); Data Processing (Grades 11 and 12); Hospital, Home and Associated Aids Services (Grades 9 and 10); and Fashions (Grades 11 and 12).

Committee work continued on many other programs: Computer Science Study—an experimental program; Consultative Committee on the Occupational Program; History Curriculum Committee in the Occupations Program; Latin Curriculum Committee; Intermediate Mathematics (Four-year Program, Grades 10-11-12) of all Branches.

In 1966 new Advisory and Consultative Committees were established to study Agriculture, English, School Libraries, and Physics. New Curriculum Committees, charged with the development of specific courses of study, are working in the following areas:

- (1) Anglais, Primary level to Grade 13
- (2) Art, Grades 7 to 10
- (3) Business and Commerce Subjects, Grades 9 to 13
- (4) Electrical Technology, Grades 11 and 12
- (5) French, Grades 9 and 10
- (6) Geography, Grades 11 to 13
- (7) Guidance, Primary level to Grade 12
- (8) Industrial Physics, Grades 11 and 12
- (9) Home Economics, Science, Technology and Trades Branch, Grades 11 and 12
- (10) Italian, Grades 10 to 13
- (11) Mathematics, (Five-year Program, Grades 11 and 12)

New Teaching Methods, Materials and Techniques

The staff has been involved in assessing new instructional techniques including studies of some phases of educational technology.

Close cooperation with the new Educational Television Branch developed during 1966. Curriculum Division staff members acted as planners and advisors for the 1966-67 programs and continued in this role as chairmen of ETV Branch Committees planning series of telecasts for the 1967-68 school year.

The Curriculum Updating Series for elementary teachers was used to promote new teaching approaches and methods, materials and techniques.

During 1966 the Audio-Visual Section, Curriculum Division continued to expand its services to promote the increasing use of audio-visual media in the schools.

Technology in the Curriculum

Tentative course outlines in Data Processing for Business and Commerce students have been distributed to the schools. An experiment in Computer Science at the Grade 12 level for Five-year students was begun in 14 schools across the Province under the

direction of the Computer Science Study Committee. Studies relating to Computer courses for Four-year Science, Technology and Trades students are being initiated.

Committees have been formed to develop courses in technologically-oriented courses such as Industrial Physics and Electrical Technology.

Individual Needs

Considerable attention has been given to increasing the flexibility of school programs and courses to serve the widely-varying interests and aptitudes of students. The Interim Revision of courses for Kindergarten and Grades 1 to 6 has stressed the importance of local adaptation of content and approach. Local systems and individual schools are encouraged to modify the grade system if their resources so permit; the revised courses in Mathematics and English permit a wide variety of organizational patterns so that schools may plan their activities for elementary children according to individual needs. At the secondary level, studies undertaken in timetabling and course organization may eventually lead to individual timetabling, subject promotion and other changes designed to further individualize the school program.

Joint Committee on Textbooks

The Joint Committee on Textbooks is composed of representatives of the Ontario School Trustees' Council, the Ontario Secondary School Teachers' Federation and the Department of Education. Its function is to study problems rising from the provision of provincial grants for textbooks for Grades 9 to 12. During 1966, the Committee sought the assistance of teachers, heads of departments, principals, directors of education and secretary-treasurers of school boards in collecting data on the effects of the textbook grant policy at the secondary school level. An analysis of the findings has been completed and the Committee is expected to make its report to the Minister early in 1967.

Provincial Committee on Aims and Objectives of Education in the Schools of Ontario

Originally established to investigate the emerging need for maximum elasticity in the school system to meet an accelerated rate of change in the coming decades, the Provincial Committee on Aims and Objectives of Education in the Schools of Ontario has been functioning since 1964.

The Honourable Mr. Justice Emmett M. Hall continued as Chairman; membership was reduced by one, due to the resignation of Dr. F. B. Rainsberry to accept a post in Tel Aviv, Israel.

Although the Committee was still primarily concerned with the education of children in grades presently designated as Kindergarten and Grades 1 to 6, other problems in education at the elementary and secondary school level received consideration. This was inevitable, since there is a continuity involved in the educational process which cannot be overlooked in such a study.

In January, with the formal expansion of the terms of reference and the initiation of many new projects, the full-time staff of the Committee was increased by the appointment of Mr. L. A. Dennis as Secretary and Research Director; and later by the addition of two research assistants.

More than 100 briefs have been submitted since the establishment of the Committee.

The majority of these were presented at public hearings; all have been indexed and summarized.

In the fall of 1965, the practice of inviting presentations from experts in education and related fields was begun. It has been continued during 1966 with the presentation of papers covering such topics as: Philosophy, Child Psychology, Sociology, Special Education, Computer-Assisted Instruction, Indian Education, Linguistics, Audio-Visual Education and Communications.

Early in 1966, an extensive examination of other jurisdictions was begun. Delegations of Committee members visited several foreign countries and most of the Canadian provinces. Local tours of Ontario jurisdictions have been a regular part of this activity and a series of visits to Ontario centres is planned for early 1967.

A number of projects were initiated and assigned to research personnel. In addition, various educational agencies acted in an advisory capacity. Written materials drawn from several sources were edited, catalogued and distributed to members. The Secretariat built up an extensive research library for use by the members.

In early fall, 1966, structuring of the final report was commenced. A tentative outline was drawn up and its various sections assigned. At the end of 1966 the main body of the report was begun. It is anticipated that the report will be ready for submission to the Minister in 1967.

The Curriculum Division and O.I.S.E.

The Curriculum Division is cooperating with the Ontario Institute for Studies in Education in the development of achievement tests for use in Grade 13. Staff members of the Division chair the committees for the development of achievement tests in English, Mathematics and Physics which will be administered in the spring of 1967.

Audio-Visual Education Section

Film Distribution

Elementary and secondary schools served directly by the film library continued to utilize film service. Screening reports indicate there will be 130,205 film showings to a total school audience of 5,393,728 students during the current school year.

The policy of encouraging local boards employing a substantial number of teachers, to operate their own basic film service was continued. Some additional blocks of films were placed on extended loan with these local film libraries. The Audio-Visual Section has deposited 7,000 films with 32 libraries and, consequently, service to teachers in these areas has been improved,

New Films

As a result of the increased emphasis on curriculum revision, new titles were acquired by the Audio-Visual Section. Since the publication of the 1965 film catalogue, 104 additional titles have been acquired. Regular monthly screening sessions to evaluate educational film releases have been held during the school year. Special screenings have also been held at the convenience of select committees investigating specific subject materials.

Other Aids

Lists of Recommended Filmstrips, Recommended Recordings, and Free and

Inexpensive Materials were prepared and widely distributed, on request, to Ontario schools.

Teacher Training

Four summer courses in Audio-Visual Methods of instruction were given this year to 701 teachers. Winter courses in Audio-Visual Methods were again offered by local boards of education. The primary purpose of these courses is to improve the use of all types of audio-visual aids.

Assistance to local school boards in the operation of in-service training programs was provided on several occasions. These workshops appear to serve a useful function by increasing teacher competence with the newer audio-visual techniques.

School Radio Broadcasts

School radio broadcasts continue to be widely used in the elementary and secondary schools of Ontario. Evaluation reports indicate that this service makes a worthwhile contribution. With the cooperation of the Canadian Broadcasting Corporation, 175 programs were prepared and presented in 1966. In addition, 40 Canadian broadcasts and 20 exchange programs from the British Broadcasting Corporation were offered.

Radio manuals outlining the series of broadcasts were distributed to all elementary and secondary schools during September.

REGISTRAR'S DIVISION

Grade 13 Departmental Examinations

This year, 28 different examination papers were prepared. Botany and Zoology papers were included for the last time. These were prepared so that candidates who had obtained standing in either one might have the opportunity of writing the complementary subject. An examination in Biology was set for the first time this year. The papers in Geography, History, and Latin were translated into French to accommodate French-speaking pupils. From June 6-24, 234,431 papers were written by 54,684 candidates at examination centres in secondary schools in the Province. Outside Ontario, candidates wrote in such university centres as: Durgapur (India), Helsinki (Finland) and Rouen (France). Individual candidates' results and marks lists for schools were mailed to principals on August 13. Books of marks and magnetic tapes listing all candidates and their results were provided to the universities for use in the admissions offices.

This year, 35% of the final standing in each subject was based on a mark assigned by the principal and teacher to represent the candidate's proficiency in the subject concerned. The written examinations accounted for 65% of the final mark assigned.

Diplomas

The Secondary School Honour Graduation Diploma was granted this year to candidates who obtained Grade 13 Departmental standing in English or in Français and at least five additional credits. Previously, six additional credits had been required.

Newly designed Secondary School Graduation Diplomas were issued this year to the first graduates of Grades 11 and 12 in the reorganized programs of study.

Teacher Certification

The program of exchange and upgrading of teachers' certificates, introduced in 1962,

was expanded in 1966 and continued to produce a heavy volume of work involving the evaluation of various types of certificates and university courses. In the previous year, 4,956 teachers exchanged their certificates for the new type or for a higher certificate. In 1966, this number increased by 204 to a total of 5,160. The number of applications for summer courses that passed through the Division increased by 1,851 rising from 12,774 in 1965 to 14,628 in 1966.

Letters of Standing and Permission

Letters of Standing are issued to qualified teachers whose professional training was obtained outside of Ontario. During the 1965-66 school year, 1,074 elementary school Letters of Standing were issued, an increase of 176 over the previous year. The issuing of secondary school Letters of Standing was re-instituted in 1965, with 146 being granted during the school year 1965-66.

A Letter of Permission is issued to a school board to engage an uncertified person where it is not possible to obtain the services of a qualified teacher. In 1965-66, a total of 3,312 were issued to school boards to engage persons who did not hold basic Ontario certification.

Scholarships for Study Outside Ontario

From the \$8,000 provided by the Province for scholarships for study outside Ontario, awards for the school year 1965-66 were made to: Mrs. Hazel Campbell, Port Arthur Collegiate Institute, Port Arthur, to study at the University of Paris, France; Mr. Gordon Kidd, Westminster Secondary School, London, to study at Laval University, Quebec; Rev. C. M. Taylor, St. Michael's College School, Toronto, to study at Mainz University, Germany; and Mr. John O. Towler, Toronto Public Schools, Toronto, to study at the University of Alberta.

Teacher Exchange

During the year 1965-66, a total of 32 Ontario teachers took part in exchange arrangements: 27 in the United Kingdom, three in other provinces, one in the United States and, by special arrangement, one in New Zealand.

Transportation Assistance

The transportation subsidies offered by the Department for persons who reside in the territorial districts and who are enrolled in eligible institutions of university rank have been provided for the past 19 years. In the year 1965-66, the sum of \$29,017 was paid to 1,118 students, of whom 729 resided east of Sault Ste. Marie and 389 west of that city. Of those students receiving assistance, 423 were in the first year of their courses, 316 in the second, 252 in the third, 115 in the fourth, 5 in the fifth, and 7 in the sixth.

SUPERVISION DIVISION

Scope and Function

The Supervision Division directs and assesses the educational program implemented in the public, separate and secondary schools of Ontario. Its school inspectors maintain close contact with the schools and teachers. Inspectors resident in their inspectorates cooperate with school boards in order that schools may best serve the requirements of students in an ever changing society.

Since the establishment of 10 Area Offices in the Province (see page 8) many of the functional aspects of the Division are now being undertaken at the area level. Division officials work in close conjunction with the Area Superintendents in effecting the policies of the Department.

Integration of Elementary and Secondary Education

A number of additional steps have been taken to further the integration of the elementary and secondary panels of the school system.

During 1966, three new boards of education were established. In 1967, the eleven boards of education in Metropolitan Toronto will be reduced to six. The existing boards will have jurisdiction over all public and secondary schools in their respective areas. This development is indicative of the trend towards further integration in the schools.

The fall conferences held at the various teachers' colleges were reorganized in 1966 to include the secondary school inspectors as well as elementary school inspectors and staffs of teachers' colleges. Area superintendents in the newly established area offices have also promoted integration at monthly meetings of the inspectors of both panels.

A few county councils have established secondary school consultative committees to provide closer liaison with existing public school consultative committees.

Decentralization

The establishment of five additional administrative areas on 1 August, 1966, completes the decentralization of the Supervision Division's administrative function.

The new area offices are located as follows:

AREA 6, NIAGARA, at St. Catharines (Counties of Haldimand, Lincoln, Welland and Wentworth).

Area Superintendent: H. B. Henderson, B.A., B.Paed.

AREA 7, WEST CENTRAL ONTARIO, at Toronto, (Counties of Dufferin, Halton, Peel and Simcoe, City of Toronto and Metropolitan Toronto west of Yonge Street).

Area Superintendent: G. P. Hillmer, B.A.

AREA 8, EAST CENTRAL ONTARIO, at Toronto (Counties of Durham, Ontario, Victoria and York, and the remaining portion of Metropolitan Toronto).

Area Superintendent: J. F. Kinlin, B.A., B.Paed.

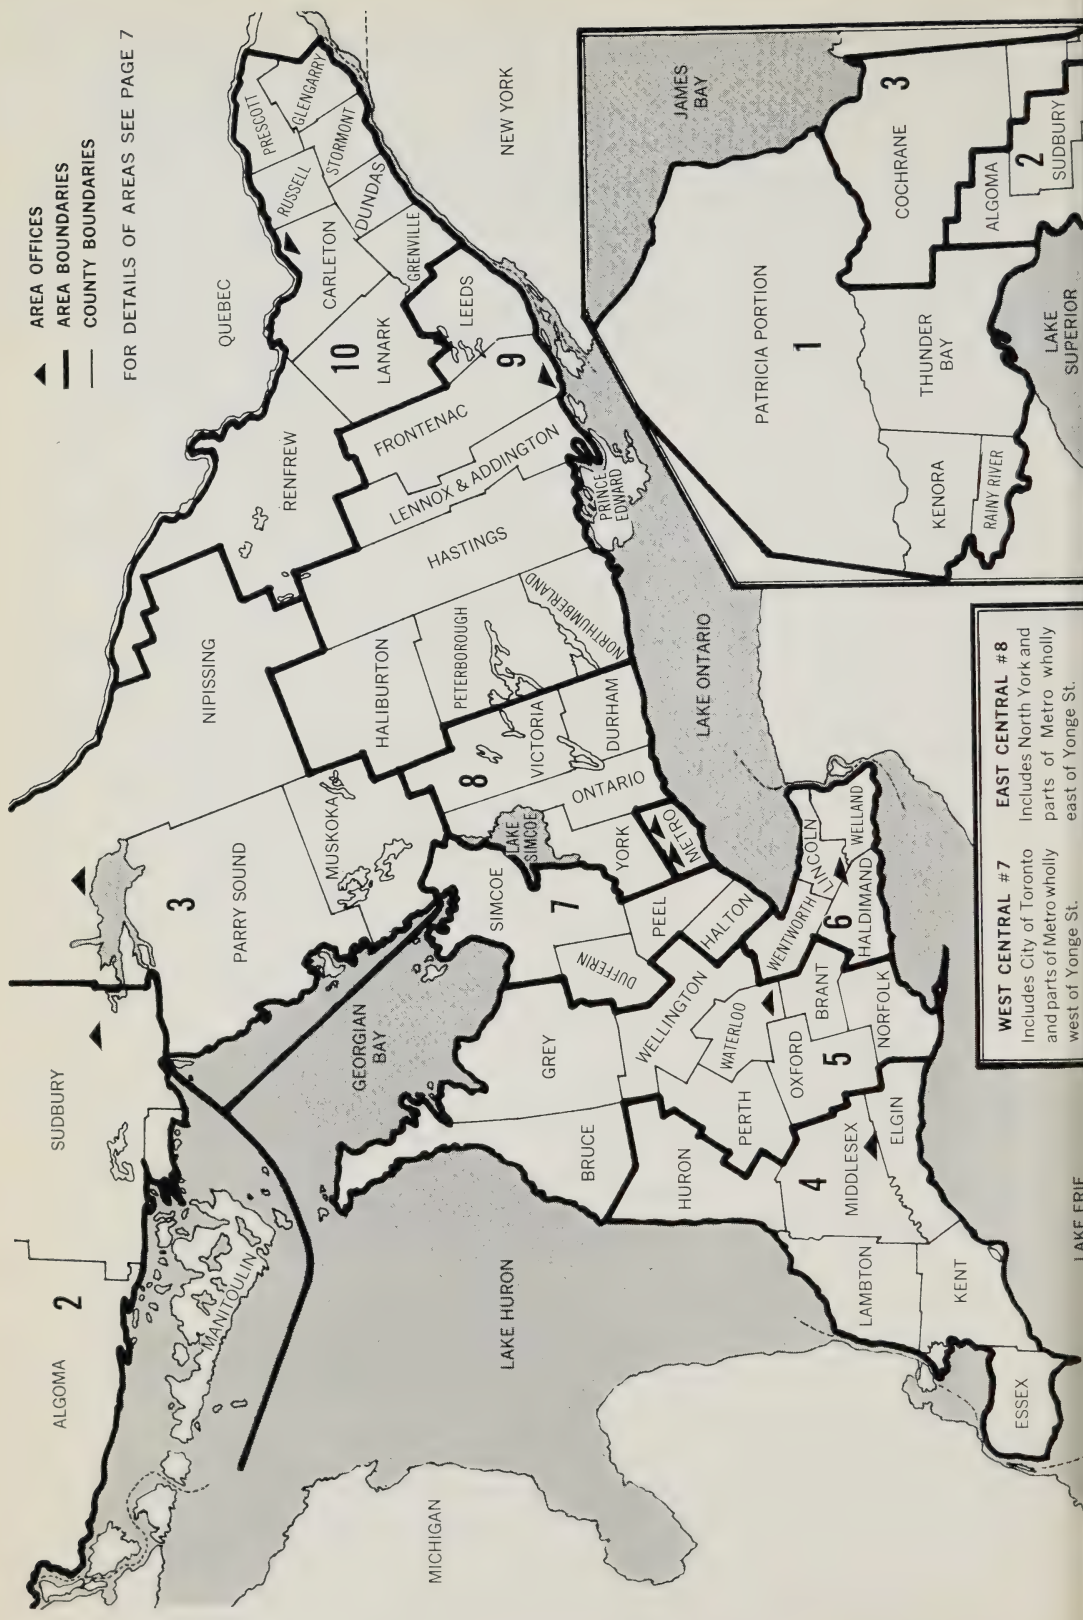

AREA 9, EASTERN ONTARIO, at Kingston (Counties of Frontenac, Haliburton, Hastings, Leeds, Lennox and Addington, Northumberland, Peterborough and Prince Edward).

Area Superintendent: R. W. Froats, B.A.

AREA 10, OTTAWA VALLEY, at Ottawa (Counties of Carleton, Grenville, Lanark, Prescott and Russell, Renfrew and Stormont, Dundas and Glengarry).

Area Superintendent: J. O. Proulx, M.A., B.Paed., Ph.D.

All provincial school inspectors now work under the direction of the area superintendents. In addition to coordinating the work of these inspectors, each area superintendent maintains close association with those in the municipal inspectorates.

Business administrators have now been appointed to seven of the ten area offices to assist local school boards in matters relating to building programs, transportation and grants. It is expected that a business administrator will eventually be located in each area office.

Larger Units of Administration

The trend toward larger units of administration continued in 1966. During the year, four county school areas were established. These areas were derived from 148 former school sections, and 10 district school areas, consisting of 173 former sections. In addition, 62 township school areas and 10 individual urban school sections were consolidated into 32 township school areas.

Considerable interest has been shown recently concerning the inclusion of larger urban centres in larger areas of administration. For this reason the provisions of The Public Schools Act were changed in 1966 to make it possible for a city or a separated town to become part of a township or a county school area.

In the secondary field, nine larger high school districts have been formed by the amalgamation of two or more former high school districts. Three continuation schools ceased operation in 1966 and the areas served by them have been added to adjoining high school districts. Both of these changes have broadened the opportunity for diversification of courses in the various areas served.

In the separate school system, there has also been a tendency to form larger units of administration. During the past four years, 363 new combined or enlarged separate school boards have been formed. The formation of these combined boards has reduced the number of separate school boards in this Province by approximately 600.

During 1966, in some parts of the Province, 10 to 14 single zones united into one. In practically all cases, many of the one- and two-classroom schools were closed by the boards of the larger units and accommodation centralized in modern schools.

Special Education Section

General

The decentralization of Special Education Service has been carried forward with the appointment of three new Special Education Inspectors, one of whom will serve solely bilingual classes.

Planning for the future development of special education as an integral part of all levels of education has been completed. The decisions which have been reached will be represented by forthcoming changes in legislation, in new regulations, in emphasis on curriculum developments associated with special education, and by paying particular attention to special education as created within the teachers' colleges. Co-operative planning has also been initiated with other departments of Government.

Services

This Section is concerned with the educational growth of all exceptional school age children. Such students include both children with superior learning capacity and limited intellectual ability, as well as those who are educationally retarded, socially immature, or emotionally disturbed; and those with orthopaedic, neurological, physical, or speech disability. In all cases they require modified or special education programs.

During the year 1965-66, Special Education Inspectors assisted local school authorities by:

- (1) visiting special classes, teachers, and schools, where units are established to aid the teachers concerned;
- (2) working with local staff and school boards, conducting surveys and assessing children, thereby rendering assistance in the establishment of new services;
- (3) assisting in the diagnosis of the exceptional child's problems and developing appropriate educational programs;
- (4) participating in teacher in-service training programs based on education topics relevant to special classes and to atypical pupils in regular grades.

Two libraries are maintained. One contains approximately 7,000 magnatype books for pupils with limited vision, and the other is a free professional library of 2,000 books for teachers and inspectors.

During August, a one-week training program for teachers and parents of neurologically impaired children was co-sponsored by the Department of Education and the Parents' Association for Children with Learning Disabilities.

Summer Course Training

Summer courses leading to the Elementary, Intermediate and Specialist Certificates in Special Education were available at Toronto, with courses at the elementary level also offered at both Barrie and Cornwall. Thirteen different options in Special Education were available.

A total of 1,220 candidates attended the summer courses, of whom 163 completed the attendance requirements for the Specialist Certificate in Special Education.

School Attendance

Enrolment

In September, 1966, the total enrolment in elementary and secondary schools was 1,800,897 an increase of 62,116 or 3.6% over the preceding year. The elementary schools showed an increase of 44,828 or 3.4% and the secondary schools an increase of 17,288 or 4.1%.

Employment Certificates and Home Permits

A child who has attained the age of 14 may be granted an employment certificate or a home permit if his services are urgently required for employment in the home or elsewhere. These authorizations may be granted to children under 14 years of age for a period not to exceed six weeks in a school term.

During 1965, a total of 2,445 employment certificates were issued, an increase of 193 over the 1964 figure. During the same period, 1,063 home permits were issued, decreasing the 1964 figure by 114.

The Teaching of French to English-Speaking Pupils

As of September 30, 1966, French was being taught to English-speaking pupils in schools operated by 409 public and separate school boards.

In these elementary schools, 256,865 pupils were receiving such instruction in regular classroom grades and 2,940 pupils in special classes, making a total of 259,805

pupils. Special or itinerant teachers employed by boards to teach French only or French as well as other subjects numbered 577. In addition, 405 regular classroom teachers included this subject in their teaching.

The great increase in the number of pupils involved in a French program, particularly in the intermediate grades, is a result of three factors:

1. While French is still taught on a permissive basis only below the Grade 7 level, the decision to teach French at Grades 7 and 8 is an option which may be exercised by each individual school board, effective September 1966.
2. Curriculum I—15A (7), the Grade 7 French Program, was issued in May of 1966, followed shortly by I—15A (8), the Grade 8 French Program. A representative Departmental Curriculum Committee was constituted in the autumn of 1966 to prepare programs of this series for Grades 9 and 10. It is expected that they will be available to schools well before the effective date of September, 1968.
3. One hundred and fifteen certificated teachers completed the regular course in the Teaching of French to English-speaking pupils, which was offered at two centres during the summer of 1966. The special French courses (offered for the first time in 1965) again attracted many Ontario residents, originally from Quebec, Western Europe, North Africa and other parts of the world, who speak French fluently but may not have had any previous teaching experience. Eighty-five persons completed this course satisfactorily, and earned a temporary certificate, renewable annually upon the recommendation of the inspector.

The course in teaching French offered for the first time in 1965 in four teachers' colleges has been expanded to include selected groups of students attending Hamilton, Lakeshore, London, Ottawa, Toronto, and Windsor Teachers' Colleges. Over 200 student teachers are enrolled in this course.

Schools Attended by French-Speaking Pupils

Teacher Supply

On 23 September, 1966, there were 413 French-speaking student teachers in attendance at the two bilingual teachers' colleges. At the Sudbury Teachers' College, 173 were enrolled, and 240 at the University of Ottawa Teachers' College.

For the first time, a two-year course is available at the University of Ottawa Teachers' College to Grade 12 students who will graduate, upon successful completion of the course, with an Elementary School Teacher's Certificate, Standard 1 to 4. The course leading to the Second Class Elementary School Teacher's Certificate has been discontinued. Of the students enrolled at this College, 170 are in the two-year course. The remainder were admitted to the one-year course with at least Grade 13 standing or with the preliminary year of Laurentian or Ottawa Universities. They will also graduate with an Elementary School Teacher's Certificate.

Next year the two-year course will be introduced at the Sudbury Teachers' College and the course leading to the Second Class Elementary School Teacher's Certificate will be discontinued.

In 1946, 85.29% of the French-speaking teachers held First or Second Class Certificates. In 1966-67, 43.35% held Second Class Certificates, 34.69% held Stand-

ard I Certificates, 7.70% held Standard 2, 3.58% held Standard 3 and 6.51% held Standard 4.

Secondary School Enrolment

On 30 September, 1966, the enrolment of French-speaking pupils taking Français in secondary schools was 8,739, an increase of 754 over 1965. Of these, 2,424 studied Geography in French, 4,211 History in French and 556 Latin in French. There were, in addition, 5,747 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

Elementary School Enrolment

On 30 September, 1966, there was an enrolment of 93,226 French-speaking pupils in separate and public schools, an increase of 2,631 over the preceding year. The number of French-speaking pupils in Kindergarten classes was 9,189.

Correspondence Courses

Correspondence courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. Thirty-three pupils were taking these courses in December, 1966. The decrease in enrolment, compared with previous years, is due especially to the provision of transportation facilities making it possible for pupils to attend central schools.

Indian Children Educated in Ontario Schools

During the school year 1965-66, 3,256 Indian children were educated in provincial schools. Forty-eight public and separate school boards provided this service. At the present time, approximately one-half of all registered Indian children of school age in Ontario are being integrated into the public and separate school systems.

Ontario Athletic Leadership Camp

The Ontario Athletic Leadership Camp, Longford Mills, established in 1948, has continually enlarged its facilities and staff, with consequent increases in enrolment. Every year, two students, one boy and one girl from each secondary school in the Province, are eligible to attend a two-week course at the camp.

The purpose of the camp is to develop leadership potential and responsibility in the youth of the Province. The high percentage of ex-camp students who have continued training in some branch of higher education to prepare themselves to assume their roles as community leaders is evidence of its success.

Courses are planned and conducted by members of the Physical Education Inspectors staff, and the facilities are administered by the Community Programs Division.

Scholarships and Bursaries

During the fiscal year 1965-66, the Department awarded about \$2,900,000 worth of scholarships and bursaries to Ontario students taking courses at specified institutions.

Scholarships

In 1965, Ontario scholarships of \$400 each were granted to 1,420 graduates of Grade 13, who obtained at least 80% on eight Grade 13 departmental examinations, including English or Français.

The highest-ranking Ontario scholar each year is awarded the King George VI and

Queen Elizabeth Scholarship which carries a value of \$500 for each year of a three- or four-year university degree course in Ontario.

Bursaries

In 1965, Student-Aid bursaries were granted to Ontario residents in financial need who met the academic requirements of second-class standing, and who were attending full-time courses in the following institutions: Canadian universities, Ontario Colleges of Education, Osgoode Hall Law School, Ontario College of Art, Ontario Teachers' Colleges, Provincial Institutes of Technology and Ontario Secondary Schools (final year only).

The amounts of the bursaries varied from \$100 to \$500, depending on the school, course and financial need of the individual applicant. In 1965-66, just over 8,000 students benefited from these awards which represented an expenditure of over \$2,300,000. Of this, approximately \$176,000 was contributed by the Federal Government.

On April 1, 1966, administration of the Student-Aid Program was transferred to the Department of University Affairs.

Northern Corps of Teachers

In attempting to provide equality of educational opportunities to pupils in remote parts of Ontario, a "Northern Corps" of teachers was established this year to staff isolated one-room northern schools which had a previous history of non-qualified teachers.

The Northern Corps teachers were selected by a committee in the Supervision Division.

To be selected for the Corps, teachers require elementary school qualifications and must be prepared to serve for two years. Advantages offered include service with a select group of educational pioneers, the opportunity to provide leadership for remote communities, an all-expense-paid preparatory course, generous travel allowances and a \$1,000 northern allowance above the annual salary schedule.

It is anticipated that the Department of Education will interview teachers for the Northern Corps again in February or March, 1967.

Special Assistance for Boards Operating Isolated Elementary Schools

In the 1965-66 school year, an extensive survey of isolated schools indicated that 156 one-room and two-room schools in the territorial districts were in need of special assistance to maintain their educational programs.

It was estimated that at least 100 of these boards should *either* amalgamate their sections or zones with larger neighbouring ones *or* become "non-operating" as far as their own school is concerned and transport their pupils to adjacent schools, with support for both tuition fees and transportation acquired through increased grants.

A board which receives pupils from a section or zone whose school is closed will now also be assisted in providing additional needed accommodation for incoming pupils, without burdening its community with debentures on their behalf.

Education Centre at Moosonee

To meet the educational, cultural, social, recreational and vocational needs of the James Bay-Hudson Bay area, a plan was developed to construct an educational centre at Moosonee. It is to be built on the same site as the newly constructed separate and public schools and will adjoin these schools.

The Centre will be administered by a nine-member board of governors. A director has been appointed, with duties to commence 1 January, 1967. Progress has been made in acquisition of the site and in developing sketch plans in order that construction may begin in the spring of 1967.

Courses will be offered in motor mechanics, small engines, guide training, canoe and small boat building, general maintenance, heavy machinery, carpentry, office skills, waitress training, food preparation, domestic service, nurse's aide, crafts—lapidary, leather, wood, weaving, and basic up-grading of academic skills. A nursery school area and a library are also to be included.

Initiation of an agreement with the departments of the Federal Government concerned is planned, in which the method of financing may be on the basis of cooperative cost sharing.

Trustee Organizations in Ontario

<i>Organization</i>	(a) 1965				(b) 1966			
	<i>Secondary</i>	<i>Public</i>	<i>Separate</i>	<i>Total</i>	<i>Secondary</i>	<i>Public</i>	<i>Separate</i>	<i>Total</i>
The Associated Secondary School Boards of Ontario.....	86	—	—	86	90	—	—	90
L'Association des Commissions des Écoles bilingues d'Ontario.....	—	3	220	223	—	3	192	195
The Ontario School Trustees' and Municipal Councillors' Association..	96	409	—	505	88	388	—	476
Ontario Separate School Trustees' Association.....	—	—	340	340	—	—	321	321
The Public School Trustees' Association of Ontario.....	22	364	—	386	27	366	—	393
Ontario Urban and Rural School Trustees' Association.....	79	71	7	157	83	67	7	157

TOTALS.....	308	892	567	1,767	315	868	520	1,703

The above tabulation indicates the number of school boards which were members of the affiliated organizations of the Ontario School Trustees' Council on (a) December 31, 1965 and (b) December 31, 1966. Several of the boards retain membership in more than one such organization. Each of the organizations appoints two representatives to the Ontario School Trustees' Council.

Teacher Education Branch

The Teacher Education Branch supervises the training and professional development of elementary school teachers, maintains close liaison with the Colleges of Education, Toronto and London, and provides summer courses in several subject areas for secondary school teachers.

Teacher Supply

Elementary

Many changes in the preparation of teachers for the elementary schools of Ontario occurred in 1966. The Report of the Minister's Committee on the Training of Elementary School Teachers tabled early in February was of prime importance. This Report will provide guidance for new ways of training teachers for elementary schools. In 1966, the Two-year Course, instituted in 1953 was terminated. Under this plan, persons with Grade 12 standing had attended teachers' college for two years and graduated with an Interim Elementary School Teacher's Certificate. The final group of students to be trained under this plan graduated from the teachers' colleges in June. During 13 years of operation, over 10,000 candidates entered the first year; more than 8,000 entered the second year; and approximately 7,800 received teaching certificates. The One-year Second Class Certificate Course which had been offered along with the regular Elementary School Teacher's Certificate Course at the University of Ottawa Teachers' College was also terminated in 1966. This course is now offered at the Sudbury Teachers' College only.

In September, 1966 a Two-year Course for Grade 12 graduates leading to an Interim Elementary School Teacher's Certificate, Standard 1, was initiated at the University of Ottawa Teachers' College. Next September this course, combining both academic and professional work, will be extended to the Sudbury Teachers' College.

Enrolment in the One-year Course increased from 4,558 in 1965 to 6,000 in 1966. In addition, 192 candidates with university degrees enrolled in special courses for graduate students at the Hamilton, Lakeshore, London, Ottawa and Toronto Colleges. The Primary School Specialist Certificate Course heretofore offered only at the Toronto College, was extended in September, 1966, to Colleges at Ottawa and Hamilton. A total of 50 students enrolled at all three centres. At the University of Ottawa Teachers' College, 168 students with Grade 12 standing enrolled in a new Two-year Course leading to an Interim Elementary School Teacher's Certificate, Standard 1, and at Sudbury Teachers' College a total of 124 students enrolled in the final One-year Course leading to an Interim Second Class Teacher's Certificate. In all colleges and all courses, a total of 6,534 students were enrolled for the 1966-67 session.

Secondary

In the summer of 1966, the Colleges of Education offered initial training to 2,285 candidates. Enrolment at the College of Education, Toronto, and at the Althouse College of Education, London, in full-year courses leading to Interim High School Assistants' Certificates and Vocational Occupational Certificates rose to 921 students. Thus, whereas the summer course enrolment increased by 41 over the previous year's registration, the full-year courses showed an increase of 195 students.

The total number of teachers employed in the secondary schools of the Province rose from 21,659 in 1965 to 24,242 in 1966, an increase of 2,583. Enrolment in Type A Seminars rose from 560 in 1965 to 679 in 1966. In all, some 924 candidates were registered in the Type A Seminars in both full-year and summer courses.

A number of qualified teachers took advantage of the extension of jurisdiction of basic certificates. A total of 330 teachers who held the Permanent Elementary School Teacher's Certificate, Standard 4, received the Interim High School Assistant's Certificate, Type B, upon accepting teaching positions in secondary schools. Transfer from secondary schools to elementary schools was made by 56 teachers holding Permanent High School Assistants' Certificates who received certification for elementary school teaching.

A variety of measures was adopted to increase the supply of teachers for secondary schools. Letters of Standing were granted to well-prepared teachers from other countries whose academic and professional training were equivalent to Ontario standards and who met language and citizenship requirements. Type A certification was introduced in the single fields of French and Latin. A more liberal interpretation of the acceptability of the academic content of university degrees for admission to Colleges of Education resulted in permission for additional candidates to enter teacher training. By 30 November, 1966, a total of 1,632 Letters of Permission had been issued to boards of trustees, permitting them to employ persons who lacked secondary school teaching certificates.

New Courses

A pilot course in the teaching of French to English-speaking pupils in elementary schools, begun at Ottawa Teachers' College in 1964, and extended in 1965 to the Lakeshore, Toronto, and Windsor Colleges, was further extended in 1966 to include Colleges at Hamilton and London. Approximately 211 well-qualified students, whose oral French was classed as "excellent" were admitted to the course, which provides for daily conversation in French and twice-weekly classes in teaching methods.

A course for university graduates with acceptable degrees, initiated in 1965 at the Toronto Teachers' College, was extended in 1966 to include Colleges at Hamilton, Lakeshore and Ottawa. This course, still in the experimental stage, provides one-hour lecture periods, programs involving both large and small group instruction, seminar discussions and five comprehensive final examinations.

At the London Teachers' College, a total of 36 university graduates were enrolled in a course organized on a cooperative basis between the Teachers' College and the Althouse College of Education. Instruction in Educational Psychology, History and Philosophy of Education, and one secondary school option was provided by the Althouse College; instruction in School Management and Elementary School Methods was provided by the London Teachers' College. Now in its second year of operation, this course graduates students whose practice-teaching experiences include work in both elementary and secondary schools and who receive both an Interim Elementary School Teacher's Certificate, Standard 4, and an Interim High School Assistant's Certificate, Type B.

At the Hamilton, Lakeshore, London, North Bay, Ottawa, Stratford, Toronto and Windsor Colleges, a total of 255 students with advanced qualifications in music were

enrolled in a special course leading to an Elementary Type B Certificate in Vocal Music.

As recommended by the Report of the Minister's Committee on the Training of Elementary School Teachers, an Internship Plan was initiated in the spring of 1966. Candidates who were 25 years of age as of 1 June, 1966, and who held acceptable university degrees, or who were under 25 years of age and held acceptable university degrees and additional qualification equivalent to a year of postgraduate study, e.g. Bachelor of Library Science, A.R.C.T., Institute of Child Study, etc., were selected by boards of trustees whose elementary school enrolment totalled 3,000 pupils or more as of 30 September, 1965. The course consists of four weeks observation and teaching experience in schools during May or June, a six-week summer course offered by the Department of Education, internship experiences in the schools from September to December, regular classroom teaching from January to June and a final six-week summer course. Following completion of the second summer course in 1967, some 65 candidates will be granted an Interim Elementary School Teacher's Certificate, Standard 4. This course will again be offered in 1967-68.

Letters of Standing and Permission

Letters of Standing were granted during the school year 1965-66 to 1,074 elementary school teachers trained in other Canadian provinces or in other Commonwealth countries, an increase of 176 over 1964-65. Between 1 September and 30 November, 1966, Letters of Standing were issued to 437 teachers. Letters of Permission, issued on behalf of uncertificated elementary school teachers, totalled 1,862 for the 1965-66 school year. Of these, 625 were issued to teachers who held basic certification, but lacked qualification for their special work. Between 1 September and 30 November, 1966, Letters of Permission were granted to 1,616 teachers. Of these, 630 were issued to teachers who held basic certification, but lacked qualification for their special work.

PROFESSIONAL DEVELOPMENT DIVISION

Services

The Professional Development Division is responsible for promoting the concept of in-service growth among elementary and secondary school teachers. Assistance in providing opportunities for such growth is given to inspectors and teachers' groups. This assistance includes suggestions regarding the organization of institutes, workshops, conferences and seminars, and active participation in these sessions by Division officials.

Summer Courses

In order to serve the professional needs of teachers across the province, the Department conducted 57 summer schools in 30 Ontario centres during 1966. Twenty-one types of courses, staffed by 845 instructors and 139 part-time guest lecturers, were offered to elementary and secondary school teachers. In addition, 99 secretaries, librarians and technicians were required, not including those attached directly to the Registrar's Division.

A total of 13,175 teachers registered for these courses, an increase of more than 11% over the 1965 summer school enrolment.

Additional courses offered during the summer of 1966 were Elementary Mathema-

tics (Grades 1 to 6), Elementary School Principals', French Conversation (Intensive Summer Course) and Mathematics for Grade 13.

Winter Courses

Twenty-nine board-sponsored winter courses leading to Departmental certificate credit are being conducted during the 1966-67 school term.

The Professional Development Division is responsible for the supervision of winter courses and for acting in an advisory capacity to school boards conducting them.

Admission requirements, attendance, hours of instruction and regulations are essentially the same as those for equivalent summer courses.

Educational Television Branch

The Educational Television Branch, created in July, 1966 from the previous E.T.V. Section in the Curriculum Division, is responsible for the development and implementation of the Department's television programs for schools. The Branch, headed by a director and divided into two major areas, Education and Operations, reports directly to the Assistant Deputy Minister, Instruction.

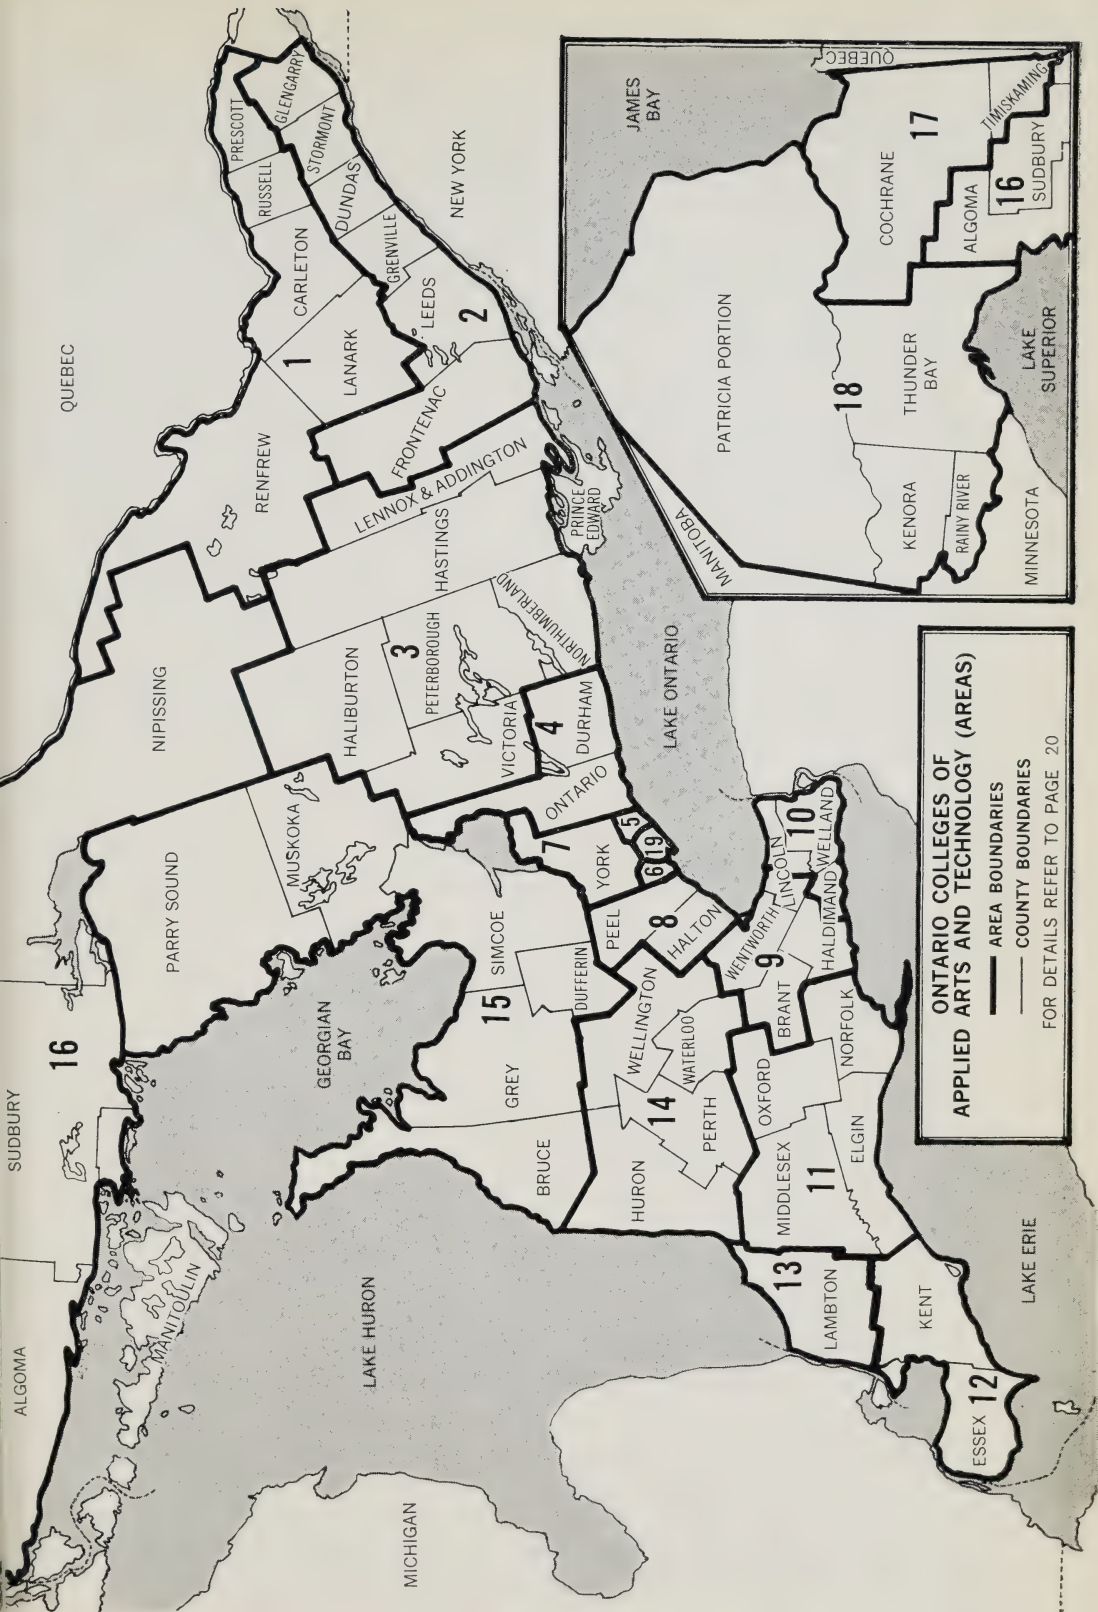

During the school year 1966-67, 150 programs are being broadcast. The topics covered include: Grade 8 Mathematics; Science, Technology and Trades; English at the secondary school level; and Teacher Updating. These programs are evaluated by members of the Curriculum and Supervision Divisions as well as the Branch staff. The telecasts are carried to the schools through the facilities of the Ontario network of the C.B.C. and private stations. During the school year 1967-68, about 200 half-hour programs will be broadcast with an anticipated increase to 1500 programs in 1968-69.

In October, 1966, the Department of Education proposed in a brief to the Board of Broadcast Governors that various television channels be assigned and reserved for educational television. The support of this proposal by several other educational agencies reflected the necessity for the Department to assume a leadership role in gaining the use of this communication medium for more efficient educational development.

The Educational Television Branch is defining education in a broad context and is concerned with development not only in the formal school program, but in such areas as adult education, university courses and leisure-time activities. The Branch is also concerned with the development and use of closed-circuit television in Ontario's schools and universities. Representatives of all these groups have been consulted to ensure that the development of intra-provincial educational television is part of a coordinated plan. Committees composed of teachers and Department staff have been appointed to ensure that the programs are both educationally sound and provide significant service to the teacher.

Applied Arts and Technology Branch

The Applied Arts and Technology Branch is concerned with the extension of opportunities for the citizens of Ontario to continue their education. This concern carries

with it the responsibility for Colleges of Applied Arts and Technology, which now include the Institutes of Trades and of Technology, and the Ontario Vocational Centres (exclusive of Ryerson Polytechnical Institute); the Ontario Manpower Retraining Program (formerly known as Program 5); and the Advanced Technical Evening Classes and Extension Programs in Business Administration offered at many centres throughout the Province. The Applied Arts and Technology Branch involves about 50,000 students in its various programs.

Colleges of Applied Arts and Technology

An amendment to The Department of Education Act of June, 1965, and the Regulation made under the Act, introduced Colleges of Applied Arts and Technology into Ontario. The Colleges provide post-secondary educational opportunities for high school graduates not bound for university and for adults who wish to continue their education, whether or not they possess formal educational prerequisites.

Under the Act, a Council of Regents, appointed to advise the Minister in the establishment of the colleges, recommended the division of the province into college areas, the boundaries of which would approximately coincide with the economic regions established by the Department of Economics and Development.

It was planned that comprehensive colleges should consist of four major divisions based on local needs with varying entrance requirements: technological; technical and trades; business; and applied arts.

Since June, 1966, 19 college areas have been named (see page 19). It is expected that by early 1967, a Board of Governors will be operating in each area to provide a college that is offering programs of instruction in temporary quarters by September, 1967.

Two new colleges were well under way by December, 1966; the Centennial College of Applied Arts and Technology in Scarborough; and Lambton College of Applied Arts and Technology, Sarnia.

The Board of Governors for Centennial College was inaugurated in June, 1966. Five months later the College began classes with a staff of 30 offering courses to 491 students in 15 three- and two-year programs. The courses range from engineering technician and technologist programs to business and applied arts. An adult upgrading course has been added to prepare some adults to fulfill the entrance requirements of the programs of their choice.

In the evening school, 9 credit and 19 non-credit courses have been approved, including an introductory course in teacher-education directed towards members of business and industry who may be interested in a teaching career in the colleges. It is hoped that many of the teaching staff for the colleges will be drawn from industry and the business world.

In November, 1966, Lambton College of Applied Arts and Technology, Sarnia, began operation, with an enrolment of 53 students in four programs of instruction.

As the colleges develop, they will absorb the present Institutes of Technology located in Hamilton, Ottawa, Kirkland Lake and Windsor; the Ontario Vocational Centres in Ottawa, London and Sault Ste. Marie; the Provincial Institute of Mining at Haileybury; and the Provincial Institutes of Trades in Toronto. The colleges for most of the areas in which these institutions are located have already been named, and the building plans for some are under way. The absorption will materially increase

college enrolment within the Province, since it will incorporate some 13,000 students already enrolled in at least 110 community-college-type programs, as well as a larger number in comparable evening school programs.

Institutes of Technology

Five provincial Institutes of Technology in Ottawa, Hamilton, Windsor, Haileybury, and Kirkland Lake offer three-year full-time programs at the post-secondary level in engineering technology and business administration. The number of positions offered to the graduating classes of the five institutes in May, 1966, far exceeded the 348 graduates.

In September, 1966, a 24% increase in enrolment over September, 1965, brought the number of full-time students to 3,144. The Business Administration course was responsible for a major percentage of the increase. To accommodate additional students in the already crowded institute facilities, the length of the teaching day was increased, permitting an overlap of shifts. Despite pressure on facilities, it was possible to offer additional options in both technology and business administration programs in some of the institutes.

It is intended that the five institutes of technology will become divisions of the colleges of applied arts and technology. Plans for expansion of existing courses into the more comprehensive programs offered by colleges of applied arts and technology have been made by the boards of governors in those college areas where institutes of technology now exist.

Ryerson Polytechnical Institute

The Ryerson Polytechnical Institute, Toronto offers students three-year full-time courses in engineering technology, business administration and applied arts. A 22% increase in enrolment in September, 1966, brought the number of full-time students to 4,494. More than twice this number is enrolled in part-time courses.

Approval of a major expansion program for Ryerson was announced in February, 1966. Unique features of this plan will be four eighteen-storey classroom towers located at the four corners of the existing campus. Dr. H. H. Kerr, who, as Principal, guided the development of Ryerson from its inception in 1948, retired at the close of the 1965-66 academic year. Mr. F. C. Jorgenson, formerly Principal of the Southern Alberta Institute of Technology, was appointed as Dr. Kerr's successor.

Advanced Technical Evening Classes and The Business Extension Program

In 1966 advanced technical evening classes were available at four institutes of technology, two Ontario vocational centres, the Provincial Institute of Trades and at 24 secondary schools across the Province. The enrolment of adult students in September, 1966, exceeded 6,000; their interests ranged over more than 58 different technological subjects.

Increasing numbers of persons holding A.T.E.C. certificates at each of the three available levels are being certified as Engineering Technicians or Engineering Technologists by the Certification Board of the Association of Professional Engineers of Ontario. Appropriate A.T.E.C. certificates are now recognized by the Chemical Institute of Canada. The program continues to be well supported by industry.

Extension courses in Business were established several years ago to enable persons employed in industry to improve themselves and to meet the requirements of industry and government for a supply of qualified personnel.

In order to make the Business Administration Extension Courses parallel the three-year day-school diploma courses offered in the Ontario institutes of technology, the program was reorganized during 1965 on three levels in place of one in the original program. Each level may be equated to the successful completion of one year of a corresponding day-school course by the proper choice of subjects. A secondary school graduate, who enters employment after completing Grade 12, may obtain the equivalent of an institute of technology day-school course through participation in an extension program. Three grades of certificates are issued by the Department of Education, one for successful completion of each level.

While the Business Extension program is designed for the student who would normally be interested in qualifying for one or more of the certificates, it is also intended as a means whereby a student may improve his knowledge in specific subjects even though he does not intend to complete the total requirements for a certificate. The intent is to keep this program as flexible as possible to meet the varying needs of students.

The reorganized Business Extension programs resulted from discussions with representatives of industry and government, and with the principals and faculty members of institutes of technology.

Ontario Vocational Centres

The Ontario Vocational Centres at Ottawa, London and Sault Ste. Marie are in the process of being assimilated into the College of Applied Arts and Technology concept, with the Ottawa Centre becoming a division of the Algonquin College of Applied Arts and Technology, the London Centre, a division of the Fanshawe College of Applied Arts and Technology and the Sault Ste. Marie Centre, a division of the Cambrian College of Applied Arts and Technology.

The Ontario Vocational Centre in Sault Ste. Marie, in its second year of operation, is approaching full enrolment, and additional two-year post-secondary school technician programs are being offered. The Ontario Vocational Centres in London and Ottawa, in their third year of operation, have reached full enrolment with both Centres being operated on an extended school day.

The three Institutes of Trades in Toronto, namely: the Provincial Institute of Trades, the Provincial Institute of Trades and Occupations, and the Provincial Institute of Automotive and Allied Trades, are operating at 100% capacity and are implementing an extended school day or a second shift system.

The vocational centres and the institutes of trades are implementing the same educational-training assignment, namely to provide apprenticeship in-school training programs, one- and two-year post-secondary school technician programs in the Technical, Business and Applied Arts areas.

Vocational centres, together with the three institutes of trades in Toronto, enrolled a total of 4,706 full-time students in September, 1966. Since there are several intakes of apprentices during the school year, some 3,912 additional students are expected to register in the course of the year.

Training, Business and Industry

The objective of the Training in Business and Industry Section is to assist business and industry in the organization of educational and training courses to improve individual productivity. The three main areas of concentration are Small Business Management, Supervisory Training and Employee Upgrading.

Under Program 4 of the Technical and Vocational Agreement with the Government of Canada, considerable activity has occurred in these three areas.

During 1966, a total of 4,128 owners and managers of small businesses were enrolled in over 170 Management courses. New courses in Business Law and Manufacturing Management were added during the fall.

The initial course in Effective Supervision for supervisors was completed in February and since that time 83 courses involving 1,992 supervisors have been held. A follow-up course on Human Relations for supervisors, announced in December, will be followed by Communications and Work Study courses.

In the Upgrading Courses for employees, supervisors of the Department work closely with industry to organize courses whereby employees may be upgraded in basic academic subjects including English, Mathematics and Science and in skill areas where training can be conducted with classroom arrangements within or outside an industry

During 1966, 8,411 employees were registered in 426 upgrading courses.

Ontario Manpower Retraining Program

The year 1966 was particularly eventful for the Ontario Manpower Retraining Program, formerly known by a variety of names, including Program 5.

Among the chief developments were:

- (a) The release of a report titled "*Expanding Employability in Ontario*" by G. R. Forsyth and J. R. Nininger. This was an assessment of the Retraining Program, commissioned by the Department of Education and Ontario Economics Council. The report indicated that, of the employers surveyed, only 15% were aware of the Retraining Program. This has prompted the launching of an advertising campaign for early in 1967 designed around the production of a dramatic documentary film for television.
- (b) Living allowance payments were consolidated into one payment from the Department of Education and payments from the Unemployment Insurance Commission were eliminated.
- (c) Living allowances were increased to a range of \$7 to \$15 per day from the previous rate of \$5 to \$11 per day with the emphasis on assisting those with more than one dependent.
- (d) The eligibility for retraining was extended to include under-employed persons and rural persons displaced by the ARDA program.
- (e) The Adult Education Centres giving the Retraining Program were encouraged to extend their services to other groups such as fee-paying individuals and employers who needed assistance to initiate their own training programs for employees.
- (f) The experimental counselling centre in Toronto was accepted as a success and

permitted to become a continuing service. This work was instrumental in establishing formal counselling and testing centres in Kitchener-Waterloo, Orillia, Ottawa, Port Arthur, St. Catharines, Sudbury, Timmins, and Windsor.

- (g) A few small training centres were closed but these were offset by the opening of new centres in Carleton Place, Pembroke and Perth along with increase in the number of satellite projects operating from Kenora and Belleville.
- (h) The enrolment figures continued to grow, out-pacing the previous record year with the figures for April 1 to October 31, 53.7% greater than the previous comparable period and with October, 1966 being 81.8% greater than October, 1965. There was a significant decrease (44.6% for a partial year) in the number of drop-outs. This improvement in attendance is credited to the increased training allowances, superior counselling and testing services and better selection of courses.

Special Schools and Services Branch

The Special Schools and Services Branch is composed of the following Divisions: Schools for the Blind and Deaf, Schools for Retarded Children, Community Programs, and Correspondence Courses.

In addition to assuming responsibility for these Divisions, the Branch administers a vote which provides assistance to handicapped children for whom no other provisions are available, for example: tutorial services for students with serious visual handicaps in the regular secondary schools; tuition fees for deaf and blind children attending special schools in the United States; and for several other categories of handicap.

SCHOOLS FOR THE BLIND AND DEAF DIVISION

This Division is responsible for the administration and supervision of residential schools for the blind and deaf and for the supervision of day classes for the deaf operated by local school boards. Consultative services and special grants are provided to school boards in the establishment and operation of day classes for hearing-handicapped children. During 1966, such classes were conducted by school boards in Metropolitan Toronto, Kitchener, London, Ottawa, Peterborough and Windsor.

Members of the Division work closely with officials of the Canadian Hearing Society and the Canadian National Institute for the Blind in matters relating to the education and training of deaf and blind children respectively.

The Division makes provision for the education of French-speaking deaf and blind students through a vote which provides payment of tuition fees and residential costs for these children in schools outside Ontario. In September, 1966, there were 17 students enrolled in institutions in Montreal, Quebec.

Ontario School for The Blind, Brantford

Enrolment

The largest enrolment in the school history, 256 students, (147 boys, 109 girls),

reported for classes in September, 1966, at the Ontario School for the Blind, Brantford. Of this enrolment, 200 are Ontario residents, two are from Alberta, 25 from Saskatchewan, 22 from Manitoba, five from Quebec, one from Bermuda and one (an Eskimo) from the far North. Of the previous year's enrolment, 22 had withdrawn; eight by graduation; seven to seek employment; and seven for other reasons. Thirty-one new pupils were admitted: 16 to Grade 1; and 15 scattered through Grades 2 to 12.

Program

A staff of specially trained teachers and residence counsellors provides a comprehensive program to meet the varying needs of visually-handicapped children. This staff provides the opportunity for such children to achieve Grade 12 graduation and receive the Ontario Secondary School Graduation Diploma with four to six options. The basically academic program is modified and supplemented for those who will withdraw after Grade 10. The classes throughout are small in order to serve the needs and abilities of the individual child.

Instruction emphasizes home economics and handicrafts for girls, and training in industrial arts and piano tuning for boys. Typing is taught to both. A complete physical education program for both indoors and out, coupled with a broad recreational and social extra-curricular program form an integral part of school life. Training in the use of the white cane to improve mobility and travel as well as special activities to develop independent living skills are part of the regular school program.

By regular classroom work or through individual lessons, each child is encouraged to develop his musical interest and talent to the fullest. The students are aided and encouraged to avail themselves of all the cultural opportunities of the local community.

Graduates

Eight students graduated from Grade 12 in June, 1966. Of these, three are attending Grade 13 prior to entering university, two are training as physiotherapists, one as a dictaphone typist, another as a home-teacher of the blind, and the other is studying hotel management. Of those who withdrew prior to graduation, one is employed as a tuner in a piano factory and another as a developer of X-ray film in a hospital.

Accommodation

A new school building has been approved with provision for administration offices, food preparation and dining facilities, a swimming pool with related areas, and classroom accommodation for Grades 4 to 12.

Ontario School for The Deaf, Belleville

Enrolment

The transfer of senior students from southwestern Ontario to the expanded facilities at Milton, decreased enrolment by almost 100 pupils to 408 (242 boys, 166 girls) on September 30, 1966. These Ontario students were distributed as follows: Junior School—194; Senior School, Levels 7 to 9—73 and Levels 10 to 14—141. The only pupils from southwestern Ontario remaining at Belleville are those in their final year and one class of students in their second last year. Thirty-three beginners ages 5 to 10, and 17 older students from central, eastern and northern Ontario were newly enrolled. Pupils range in age from 4 to 20 years.

Program

The school provides a broad program of academic, vocational, physical, social and religious education to prepare deaf and severely hard-of-hearing children to become well-adjusted, self-supporting and respected adult citizens. In the junior classes, vocabulary and language are developed through the four-fold approach of lipreading, reading, speech and writing. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. The smaller enrolment has reduced class size to an average of eight pupils per class.

An extensive physical education and group activities program is conducted by teachers. It includes inter-school athletics, swimming at Albert College, hockey at Belleville Arena, curling at Quinte Curling Club, hobby groups, clubs and driver instruction. In addition, outings, craft groups, games and tournaments are conducted by residence counsellors. Religious instruction is provided by teachers assisted by local clergymen.

In September a second specially trained home-visiting teacher was added to the staff. This appointment increases the availability of assistance to parents of deaf children under five years of age in developing early language skills and preparing these children for school. A summer course for teachers of the deaf was conducted at this school again in 1966. Sixty-five teachers from Belleville, Milton and Toronto Schools for the Deaf attended the course, 39 enrolled in Part 1 and 26 in Part 2. Thirty-five residence counsellors from the Belleville School attended the special summer course at Milton.

Innovations

An experimental class for aphasic children was begun in September, 1966. An independent living unit was established in one of the school houses to provide training in the practical aspects of household management and dietetics for older girls in groups of four.

Graduates

Eight Grade 10 students passed admission examinations to Gallaudet College for the Deaf in Washington. They are now enrolled there. Placement Officers of the Canadian Hearing Society, working in cooperation with parents and the guidance staff of the school, assisted other graduates in finding employment in their home communities.

Ontario School for The Deaf, Milton

Expansion

New residence and school facilities, under construction for the past two years, were sufficiently ready to permit senior students to report for the fall term on 6 September, 1966. By the end of the fall term, the following buildings had been turned over to the school by the contractor and the Department of Public Works: Senior Girls' Residence, Senior Boys' Residence, Senior School and Vocational School, Vehicle Building and Sports Building (except for the swimming pool). Furnishings, teaching and other equipment were almost completed at that time.

Accommodation for 210 students is now available in the junior buildings and for 306 in the senior buildings.

Enrolment

The 1966 fall enrolment of 392, consists of 181 girls and 211 boys. Of these students, 208 are registered in the junior school and 184 in the senior school.

The majority of these students are profoundly deaf, the others are hard-of-hearing. The number of multiple-handicapped deaf children is increasing and attempts to meet their educational requirements by supplying suitable programs are to some extent successful.

Program

The academic program for children in the 25 junior school classes continues. The program for 23 classes in the senior school is well under way, the highest grade level being Grade 9. Provision has been made for regular academic work to proceed to the end of Grade 10.

Vocational training in the following courses is offered to all senior students: sewing and dressmaking; home economics; beauty culture; commercial subjects; laundry practices; carpentry; autobody repair; and both metal and printing trades. Drafting is available.

Provision is made for religious education. Physical education, including intra-mural and inter-school sports is conducted by qualified education teachers. Training, under residence counsellors, includes some physical education, hobbies, and the development of good health, work and play habits, to prepare the students for life in a hearing world.

Additional Services

Free audiological clinic services are available to children in the area served by the school, as well as to all students at the school. A home-visiting program, designed to assist parents of pre-school children with impaired hearing, has been in effect for three years. This program is conducted by two teachers, and approximately 60 children are participating.

Medical, otological, dental and psychiatric services are regularly provided by specialists in their respective fields.

SCHOOLS FOR RETARDED CHILDREN DIVISION

The Schools for Retarded Children Division is responsible for supervising and administering the educational programs in 97 schools for retarded children, operated by Retarded Children's Education Authorities and in 7 Department of Health facilities for mentally retarded children. The latter include: Ontario Hospital Schools in Orillia, Smith's Falls, Cedar Springs and Port Arthur; the Midwestern Regional Children's Centre, Palmerston; the Children's Psychiatric Research Institute, London and the Mental Retardation Centre, Toronto.

The Division also organizes and operates a summer course for teachers of trainable retarded children.

Services

Consultative service is provided for teachers, principals and local inspectors of retarded children's schools. During the school year, 1965-66, 70 schools were visited

and individual interviews were conducted with 233 teachers to discuss programs. As of September, 1966, two inspectors have been providing this service.

Other activities include parent counselling, meetings with retarded children's education authorities, and with retarded children's associations.

In September, 1966, the Division assumed responsibility for assisting the Ontario Association for Teachers of Retarded Children in planning regional conferences for teachers.

Cooperative Program with the Department of Health

In September, 1966, an additional inspector was employed to provide leadership and counsel for principals and teachers in the educational programs at Department of Health institutions, where 33 additional classrooms have been provided. Five new principals and several additional teachers increase the staff membership to 110.

A program for deaf retarded children is operating at the Ontario Hospital School, Smiths Falls, where two trained teachers of the deaf are employed.

Summer Course Training

The summer course for teachers of trainable retarded children was augmented in 1966 by a second course. Teacher enrolment in Part 1: An Introduction to Teaching Trainable Retarded Children, was 82; in Part 2: Curriculum Planning for Trainable Retarded Children, 68.

COMMUNITY PROGRAMS DIVISION

Services

Through recreation and adult education programs, the Community Programs Division assists communities to provide greater opportunities for people to enjoy leisure time and to use it constructively. Assistance to communities includes financial grants, advice, guidance, leadership training and resource material. The Division works in cooperation with municipal councils and their recreation committees, school boards and private agencies in a community.

Communication and service links with municipalities are maintained by district representatives in Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Ottawa, Toronto, Sudbury and Waterloo. In addition to the counsel which these representatives offer on the development of community recreation and adult education programs, they recommend the payment of the legislative grants and the certification of municipal recreation staff.

Special advisers, working out of the central office, counsel on physical recreation and the development of leadership training courses in art, crafts, music and drama for older people. Two other advisers are responsible for the Division's instructor training programs. Advice is also available on the development of recreation areas and facilities. The Division maintains liaison with local, provincial and national organizations in the field of recreation and adult education, and with other departments of the federal and provincial governments.

Professional Training and Certification

The Division operates two training courses to maintain and improve the compe-

tence of employees in the field of recreation. The Diploma Course is a two-year program subsequent to Grade 12. A graduate of this course receives the Department of Education B certificate. The one-year Certificate Course is designed for those who hold a university degree. A graduate of this course receives a Department of Education A certificate. Most graduates of both programs enter municipal recreation fields, the remainder are employed by institutions, hospitals and private organizations.

Recreation Development

In Ontario, 129 recreation directors and 155 assistant directors are employed full-time in municipal recreation. Ontario Regulation 19/66 Programs of Recreation, The Department of Education Act, provides for legislative grants to municipalities which pass the necessary by-law establishing a recreation authority to conduct and assist local recreation programs. In 1966, just over \$1,000,000 was paid to 450 municipalities to assist in the development of their community recreation programs.

Minister's Conference on Recreation

Six hundred Ontario delegates attended the November, 1966 Conference on Recreation in Toronto. The intent of the conference was to focus attention on the rapid growth of leisure time, and to provide guide lines for creative use of this time. Invited delegates represented education, recreation, municipal councils and major recreation agencies.

International authorities in the fields of sociology, psychology, economics, education, recreation and social work attended the conference. The Conference Committee is continuing to evaluate their recommendations in order to improve and expand recreational opportunities in Ontario.

Leadership Training

The purpose of the Division leadership training programs is to improve leadership skills and to promote an understanding of the social values of leisure-time activity. The Community Programs Division is continuously involved in training volunteer and semi-professional leaders in art, crafts, music, drama, physical recreation, social recreation, executive skills and group leadership. The Division provides assistance for community leadership training programs, and operates high-level training programs for leaders of adult groups.

During 1966, leadership courses were planned and organized to assist over 20,000 community leaders and activity instructors.

Over 200 community leaders participated in a sensitivity training and group dynamics program offered by the Division to improve the leadership skills and interpersonal relationships of participants.

The Ontario Craft Foundation was established to implement the production and marketing recommendations of the Ontario Craft Conference, and to assist in the training of craftsmen. Six regional craft conferences, sponsored by the Division, were held to outline plans for craft development in Ontario.

With the Province of Ontario Council for the Arts, the Division arranged for a conference of professional, semi-professional and amateur musicians to discuss music development in Ontario. A full-time music coordinator has been appointed by the

Division to assist in the development of community music councils, and to coordinate the Division's music leadership training program.

The Division has arranged one-year internship training with five of England's outstanding repertory theatres, for directors of Ontario community theatres.

The Division also provides publications, a music, drama and films loan service, and leaders' guides in several recreational subjects.

In cooperation with the Etobicoke Board of Education, the Division offered a one-week pilot training project for teachers of adults in the Board's night-school program. The needs and interests of adult students, techniques of teaching adults, and the principles of program planning and evaluation, comprised the leadership section of the course.

Cooperation

In the development of the government's role in recreation the Community Programs Division works closely with the following associations and groups:

Canadian Association for Adult Education; Ontario Federation of Home and School Associations; Society of Directors of Municipal Recreation of Ontario; Ontario Recreation Association; Ontario Arenas Association; Rural Learning Association; Liaison is also maintained with various provincial activity organizations such as sports governing bodies and other provincial and federal organizations, for executive skill training.

Fitness and Amateur Sport

The Federal-Provincial Agreement on Fitness and Amateur Sport provides funds for the training of leaders and officials in physical recreation. In 1966, a total of 243 conferences, clinics and seminars were held in Ontario for 11,749 leaders and officials in a wide variety of sports activities.

Grants to Non-Profit Camps

The Department of Education is aware of the educational value of progressive and challenging camp programs. Grants are paid to non-profit camps in accordance with Ontario Regulation 175/64, The Department of Education Act. Grants totalling \$70,000 were awarded to 375 camps in 1966.

The Division provides consultative service for non-profit camps in Ontario, conducts workshops for camp directors, and employs five camp consultants who visit non-profit camps during the summer to assist and advise directors and leaders. The Division maintains relationship with the Ontario Camping Association and related bodies.

Ontario Athletic Leadership Camp

In July-August, facilities of the Ontario Athletic Leadership Camp at Longford Mills are used by the Program Branch to develop the leadership potential of selected secondary school students. In June and September, various Ontario organizations use the camp for leadership training programs and educational conferences.

Ontario Camp Leadership Centre

Three hundred and twelve counsellors-in-training attended the program offered at the Irondale Camp Leadership Centre. The program and the site provide excellent

opportunities for leadership training and experience in camp activities. As part of the plan, leaders who receive this training contribute a period of voluntary service to a non-profit camp.

CORRESPONDENCE COURSES DIVISION

General Information

Free correspondence courses are available to any Ontario adult or child who is unable to attend school, even if he is domiciled temporarily outside the province. Not only are the lessons provided and corrected free of charge, but all necessary materials are supplied and postage covered. Textbooks are loaned to all students enrolled in Grades 1 to 12.

The elementary school courses offered in English cover the courses of study from Grade 1 to Grade 8. Bilingual courses cover the same grades for French-speaking children. Subjects of the Five-Year Program in the Arts and Science Branch were offered in 1965-66, as in former years. These were sufficient in number to enable students to qualify, by means of correspondence instruction alone, for Departmental Statements of Standing and Diplomas at any grade level. During 1966, a course in New Approach Mathematics of Grade 12 was prepared and also new courses in Grade 13 English, French, and Latin to meet changes in prescriptions. New Mathematics for Grade 13 was introduced in September, 1966. Eleven commercial courses are being offered for the first time in the fall term of 1966. These provide a commercial option on a Graduation Diploma, Arts and Science Branch, and make it possible for students to qualify for Diplomas of the Business and Commerce Branch. New courses in English of the Four-Year Program are being prepared for the school year, 1967-68.

Eleven trades courses in Automotive Mechanics, Carpentry, Machine Shop Practice, and Radio Theory and Practice are offered for a fee of \$10 per course. Through a federal-provincial agreement, these and numerous other trades courses prepared by the Departments of Education in other provinces are available to any adult resident of Canada on payment of the fee. In cooperation with the Provincial Institute of Trades, Dartnell Avenue, Toronto, the Division offers courses in Marine Navigation and Engineering to assist seamen in upgrading their qualifications.

Enrolment

During the school year from 1 July, 1965, to 30 June, 1966, a total of 31,857 students enrolled in correspondence courses. Enrolment was distributed as follows: 27,658 in secondary school academic courses; 3,197 adult students in academic courses at the elementary school level; 281 students in trades courses; 683 elementary school children in courses from Grade 1 to Grade 8; and 38 elementary school children in bilingual courses from Grade 1 to Grade 8. Except in the case of elementary school children and Grade 13 students, enrolment may be begun or continued at any time of the year, including the summer months. Most applicants came from the 20-25 age group. The largest number of students were enrolled in Grade 9. The majority of applicants indicated they were employed but seeking to improve employment prospects by raising their educational standing. Fourteen hundred Grade 13 departmental papers were written by correspondence courses students with 85% success. Less than 1% of those enrolled in correspondence courses were under 16 years of age. More than 50% of the 721 elementary school children enrolled were temporarily domiciled outside of Canada.

Youth Branch

General Information

The Youth Branch assists communities to identify those factors which influence the development of youth. These include population movements, employment, education, social adjustment and recreation. With the aid of information thus obtained, programs and policies are developed by the community as a whole to prepare young people for the opportunities and challenges of contemporary society.

The Branch employs Research Officers in Education and Sociology and will engage a Research Officer in Economics.

In addition to advising communities in their local investigations, the officers accumulate and systematize data concerning youth in society. This information, which is made available to interested organizations, includes drop-out studies, employment trends and special youth projects both in Canada and abroad. The Branch also engages in specific investigation, the findings of which will be of value to youth-serving agencies.

Activities

To date, four studies have been completed:

- (1) Continuing Education in Ontario:
Opportunities by Sources.
- (2) Preparation of a Bibliography and
Evaluation of Films on Sex Education.
- (3) Northwestern Ontario, Youth and Resources
Study, Background Data.
- (4) Northern Ontario, Youth and Resources Study,
Background Data.

The Department of Education has allocated research funds to the Social Planning Council of Metropolitan Toronto for the purpose of studying unreached youth in the metropolitan area. The Youth Branch will assist the Council with this study.

The staff of the Youth Branch has participated at numerous conferences and acted as consultants for various organizations, including: Frontier College, groups operating under the Agricultural Rehabilitation and Development Act, Girl Guides of Canada, Boy Scouts of Canada, Canadian Camping Association, Ontario Recreation Association, Indian-Eskimo Association, Federal-Provincial Coordinating Committee for Indians, Big Brother Movement, Sex Information and Education Council of Canada. Members of the staff have also attended courses and professional meetings in the fields of their own specialties.

Future

Requests have been received from Ontario communities for assistance in identifying the social, educational and employment problems of young people in their areas. The Youth Branch has prepared an instrument for such studies and recommends that the requisite material be collected by a community study team with representation from the following interests: youth, education (particularly guidance teachers), industry,

labour, municipal councils, Canada Manpower Centre, police, probation, recreation, religion and welfare. The interpretation of data amassed by the study team will be applied to expand and extend employment, educational and recreational programs.

Applying the above methods to identify, isolate and possibly solve the problems of youth in northern and northwestern Ontario communities, a "Youth and Resources Study" program was launched. Phase 1 of the program was initiated in Northwestern Ontario in February, 1966, and in Northern Ontario in July, 1966. These studies, based on the cooperative community development principle, are spread in six phases over an interim of two years. The objectives of the project are:

- (1) To help community leaders and youth appreciate the broader perspective of the problems involved.
- (2) Through seminars, to create interest, to educate and re-educate members of the community about their present and future.
- (3) To assist in the assemblage of data germane to their own community through a study team.
- (4) To improve the community leaders' understanding and interpretation of the data and to use that data to assess and evaluate the existing program.
- (5) To assist the community in understanding the effects of mechanization, industrialization, commercialization and cybernation as these may affect the community, family and individual lives.
- (6) To stimulate initiative and to organize new programs, or to modify, improve and expand existing ones, if such a need is indicated after study.

The six phases are listed below.

PHASE 1. Field Work—visits in the communities to discuss the project with leaders and to encourage their involvement.

PHASE 2. Initial four-day residential seminar to provide understanding of the region, develop research methods of gathering data and outline future commitments.

PHASE 3. Community Surveys.

PHASE 4. Second four-day seminar to interpret community data amassed and, ultimately develop specific programs for youth.

PHASE 5. Community implementation with advisory help of the Youth Branch.

PHASE 6. Third seminar to evaluate the "Youth and Resources Study" program and its implementation.

In Northwestern Ontario, phase 2 has been successfully completed and phase 3 has begun. In Northern Ontario, phase 2 will be completed in the second week of January, 1967, and phase 3 will follow immediately.

Provincial Library Service Branch

Public Library Development

A new Public Libraries Act, Bill 155, passed by the Legislature in June, becomes effective on January 1, 1967. Based on the report "Ontario Libraries: a Province-Wide Survey and Plan" by Francis R. St. John, Inc., Library Consultants, the new legislation emphasizes regional library systems and provides for an Ontario Provincial Library Council, while retaining municipal and county library boards.

During 1966, representatives of the Department worked with the 13 regional library cooperative boards formed since 1958. These boards, with the Metropolitan Toronto Library Board established under Bill 81, become the boards of regional library systems in 1967.

Several new library buildings were opened during the year, among the most notable being those in Etobicoke Township, Scarborough Township, Waterloo, Sault Ste. Marie, and North Bay.

Use of Libraries

Circulation of books and other items exceeded 44,000,000. Public library boards received grants distributed from a legislative vote of \$5,000,000, an increase of more than 50% over the previous year.

Librarianship

During the year, 138 Bachelor of Library Science students graduated from the School of Library Science, University of Toronto. The Library School, University of Ottawa was also active, and plans were underway for the Library School at the University of Western Ontario.

Provincial Service

Advisory service to library boards, municipal and county councils, and library associations continued during 1966. The reference library service to teachers, inspectors and officials of the Department was expanded.

Administration

The Assistant Deputy Minister, Administration, coordinates all non-academic administrative services in the Department. His line responsibilities include the supervision of five Branches: Departmental Business Administration, School Business Administration, Education Data Centre, Personnel, and Information. There are several staff officers including the Director of Financial Administration, the Budget Officer, the Internal Auditor, the Legal Adviser and the Special Adviser on Data Processing. An Executive Officer plans and allocates accommodation and expedites the Capital Building Program.

Each of these posts was created during the past two years to improve upon the previous diffusion of these functional responsibilities. The Director of Financial Administration provides specialized advice and information on financial policy to the

Minister and Deputy Minister and directs the work of the Budget Officer and the Internal Auditor. The Legal Adviser has been a part-time appointment of a Senior Counsel seconded by the Attorney General's Department. The Special Adviser on Data Processing was seconded to the Ontario Institute for Studies in Education on April 1 to direct the feasibility study on Regional Data Centres inaugurated by that Institute.

Departmental Business Administration Branch

The Branch is responsible for setting up internal controls, accounting procedures and systems for the Department to ensure the proper adherence to Government regulations governing the disbursement and receipt of funds.

Accounts and Payroll

The processing, control and recording of all financial transactions, including the collection of loans under the Provincial Student-Aid Loan Program and the preparation of the Public Accounts for the Department, are the chief functions performed by this unit.

Federal-Provincial Agreements

Under the Federal-Provincial Technical and Vocational Training Agreement of 1961, the Branch administers funds for vocational building projects and a number of programs and services in vocational and technical training, the cost of which is shared by the Government of Canada and the Ontario Government. This involves expenditures of all costs of these projects including payments to school boards, trainees and others and subsequently obtaining from the federal government its share of these costs.

Purchasing

Centralized purchasing has been introduced into head office branches of the Department for the purpose of economy and to relieve management of this time-consuming task.

Administrative Services

This Division acts as a communications link between the Department and its outside units and personnel, school boards and other interested organizations. It also provides diverse office services for all branches of the Department, such as: printing; central filing of teachers' documents and departmental records; the distribution and dispatch of mail.

School Business Administration Branch

This Branch is responsible for such matters as research into school planning, designing facilities for schools, and procedures for determining the extent of provincial financial assistance for school building projects. In addition to implementing these procedures, the School Business Administration Branch calculates and distributes

various types of grants and disseminates non-academic policy and procedural decisions to local school authorities.

Business administrators have been appointed for seven of the area offices. They will function under the jurisdiction of the area superintendents to advise school boards and local authorities on all matters pertaining to school business administration, transportation approvals and grants.

GRANTS DIVISION

The Grants Division was transferred to the School Business Administration Branch on 1 June, 1966. The Grants Division is responsible for the calculation and distribution of grants to all elementary and secondary schools, retarded children's education authorities, public libraries, municipalities for programs of recreation and organizations conducting non-profit programs of camping.

The Division also calculates the reimbursement for the cost of education provided by elementary and secondary school boards for non-resident pupils in the territorial districts, the cost of whose education is borne by the Province.

Transportation

Recent legislation has established the organized township as the smallest unit of public school education. In addition, the Department of Education is continuing to encourage the construction of centrally located graded public and separate schools and the amalgamation of those secondary schools in existence which are too small to support a composite school. As a result, there has been considerable increase in transportation services during 1965-66.

Special Transportation

In the past, elementary school boards have been financially assisted by special transportation grants for children with physical, mental or emotional handicaps, through the establishment of Orthopaedic or Transportation Units.

Secondary school boards have been financially assisted by the inclusion of handicapped children, if permanently disabled, in regular transportation contracts up to \$2.00 per day.

New Benefits

An approved cost for grant purposes of 10¢ per pupil per day applies to all those pupils residing less than 2 miles from the school who are transported to school.

Approved costs of transportation for distances in excess of 12 miles, which were previously applicable to the secondary pupils, now apply to elementary pupils also.

Elementary Schools

During the school year 1965-66, elementary school boards provided transportation for 235,241 pupils, an increase of 30.6% over the figure for the previous year. Included in this number were 18,715 secondary school pupils residing outside of any high school district. Of the 7,100 routes over which these pupils were transported, 1,317 were routes on which vehicles owned by boards transported 42,650 pupils. This represents an increase over 1964-65 of 94.5% in the number of routes and 35.3% in the number of pupils.

Seventy-eight per cent of the pupils transported resided within six miles of the school

which they attended, 17.4% from 6 to 12 miles, and 4.6% of those transported travelled a distance of 12 miles or more.

Secondary Schools

During the school year 1965-66, secondary school boards provided transportation for 96,798 pupils, a decrease of 7.1% over the figure for the previous year. These pupils were transported over 2,472 routes at a cost of \$52,183 per day. The number of routes travelled by vehicles owned by boards was 213, an increase of 30.7% over 1964-65, while the number of pupils transported on these routes totalled 3,854 which represents a decrease of 47.1% over last year.

Of the pupils transported, 37.4% resided within six miles of the school which they attended, 37.5% from 6 to 12 miles, and 25.1% of those transported travelled a distance of 12 miles or more.

Provision has been made for a secondary school board in the district of Northern Ontario to pay weekly transportation and board allowance for pupils who reside 15 miles or more from the secondary school they attend.

The Department of Education refunds to the board the grant percentage applicable on expenditures up to \$3.00 per pupil per day if the parent or guardian resides in a secondary school district.

The Department of Education reimburses the board on expenditures up to \$3.00 per pupil per day in cases where the parent or guardian does not reside in an area under the jurisdiction of an elementary or secondary school board.

DIVISION OF SCHOOL PLANNING AND BUILDING RESEARCH

The Division of School Planning and Building Research conducts investigation programs pertaining to the construction of elementary, secondary and post-secondary school buildings. During the year, research has been conducted in such areas as science laboratories, general purpose rooms, schools for the mentally retarded, schools for the blind and facilities for teacher training colleges.

Publications

To provide information based on its research, the Division publishes booklets for use by administrators and architects. In 1966, booklets were published on such subjects as Rehabilitation of Schools, Library Materials Centres and Business and Commerce Facilities for Secondary Schools. Articles dealing with trends in school planning and construction costs were prepared for educational magazines.

Consultation

During 1966 the consultative services of the Division were used by educators, school boards, local authorities, architects and engineers across the Province, and by other branches of the Department. The Division also assisted in the writing of educational requirements, and prepared planning specifications for coordinating capital projects with the Department of Public Works and associated architects. A number of related planning and research inquiries from agencies in other provinces and various parts of the world were handled by the Division staff.

SCHOOL PLANT APPROVALS

It is the function of this office to examine and approve all school building projects

in the Province on behalf of the Department and the Government of Canada, when necessary. This review process embraces each school building project "*in toto*", from the original submission by a local school board, through sketch and final plans and specifications to the tendering of contracts. Upon completion of the project, spot checks are made by the School Plant Approvals Office.

The approval of the Department is required for all school projects, including new schools, additions to existing schools, renovation and alteration work, even if the work is not eligible for legislative grant purposes.

Building Program

During the year, elementary school accommodation was increased by 82,145 pupil places in 471 new buildings and additions at an estimated cost of \$92,707,000.

In the period from 1946 to 1966 inclusive, 1,110,775 additional pupil places have been provided in elementary schools at an estimated cost of \$871,006,000.

In the same period, 28 new secondary school buildings and 88 additions to existing secondary schools were completed, which contained 55,975 new places for pupils enrolled in the arts and sciences programs, commercial and technical courses. These new buildings were constructed at an estimated cost of \$150,093,000.

From 1946 to 1966 inclusive, 390,687 additional pupil places have been provided in secondary schools at an estimated cost of \$785,999,000.

EDUCATION DATA CENTRE

The Department of Education continues to make extensive use of an IBM 1460 computer for processing statistical, administrative and financial data both for itself and for the Ontario Teachers' Superannuation Commission. Thus far, the emphasis has been on the computation of pupil and teacher data. In addition, data processing is gradually being extended to all appropriate areas of the Department's operations.

Activities

Preparation of annual statistics for the Report of the Minister of Education continues to be a major responsibility of the Education Data Centre.

During the year, a major system of monthly collection of salary data from all school boards was established to centralize the calculation of Teachers' Superannuation and Canada Pension payments. A by-product, optional on request of the board concerned, will be the preparation of T.4's for active teachers.

A report published in the spring of 1966 described immediate plans of some 95,000 students, specified by age, grade and sex distributions, who left secondary schools in 1964-65. Individual reports were fed back to each of some 500 secondary schools and to the boards and inspectorates concerned. The study yielded valuable education and manpower data. In September, 1966 statistical data were collected for the entire school population of the Province. These included age, grade and sex distributions. These data will also be fed back to the schools and appropriate authorities. The findings of both surveys will be correlated.

Future

The Education Data Centre anticipates assuming responsibility for the calculation of school grants based on the audited financial returns of school boards and plans to

develop data processing applications for the Departmental Business Administration Branch.

A study of 1965 and 1966 teacher data, including regional breakdowns, is to be published.

Major tables of this Report will be re-run by area for area superintendents. A similar feedback of information to inspectorates, boards and schools will facilitate reference for educational authorities and agencies throughout the Province.

Personnel Branch

The Personnel Branch provides a staff service in the administration of the Department. This service is primarily advisory and is provided to top management as well as to senior and supervisory officials. It includes the administration of such public service personnel programs as position classification, recruitment, salary studies, staff development, organizational studies and personnel records.

The Branch, as it is now structured, was begun in 1963 and has a technical staff of ten to cope with the demand for service generated by some 3,000 employees.

Specifically, during 1966 the Branch assumed final authority for position classification in certain class series designated by the Civil Service Commission; conducted upwards of 60 specific competitions to fill key positions in the Department; processed close to 800 new appointments; began regular publication of a Personnel Bulletin designed to inform and guide managers in matters of personnel administration.

One of the more significant Branch activities is its participation in the establishment and operation of a Staff Development Committee of senior Department officials. It is anticipated that the advances made by this Committee in formulating a staff development policy will be consolidated and furthered during 1967 by the appointment of a full-time specialist.

Information Branch

This Branch provides two-way channels of communication between the general public, teaching profession, boards of education and trustees on the one hand and the Department of Education on the other.

Continued public interest in the function of the Department of Education is indicated by the increasing volume of business and by widespread press reaction, television and radio coverage.

During 1966, the responsibilities of the Information Branch included:

Press Services

The latest information concerning developments in the Department was distributed through press releases and photographs to daily and weekly newspapers, members of the Ontario Legislative Press Gallery, radio and television stations, educational publications and other media across the Province. During the year each press release

served an average of 280 outlets. Several press conferences and other meetings were arranged by this section during 1966.

This section was responsible for the international coverage given the Department's aid to the Caribbean project, "*Operation School Supplies*."

Publications

The section has controlled the design and production of approximately 70 Department of Education publications during the past year. These publications, which originate with other Branches and Divisions within the Department, carry the Department "logo", a distinguishing symbol.

Ontario Education News, an internal newsletter, produced by the Branch, briefs the staff on departmental activities and current projects.

Ontario Education, a Department quarterly magazine, is also produced by the section. This publication is distributed to teacher organizations, administrators, press, teachers and the general public. The magazine carries articles of general interest on education within and without the Province. It also carries articles dealing with Department educational policy and news.

Public Inquiries

The Branch regularly receives a large volume of inquiries, from professionals and the general public, requesting information concerning the work of the Department or education in the broadest sense. The handling of such inquiries often involves investigation and research.

This section also organizes tours for both Canadian and foreign visitors.

Exhibitions

The purpose of exhibitions is to inform educational administrators, teachers, students and the general public about educational matters.

The two major types of exhibits organized by this section are careers expositions for students, and exhibitions dealing with retraining programs and continuing education for adults.

There is a growing tendency for school boards to organize or support careers expositions, which offer students information about occupations and further education. This section has received a number of requests for departmental participation. The Department provided and staffed exhibits at expositions in Ottawa, Kitchener and St. Catharines during 1966.

The 1966 theme at the Canadian National Exhibition was "*Education for Work and Leisure*", two facets of continuing education. "*Leisure*" was represented by demonstrations of art and craft work by the Community Programs Division and "*Work*", by students from a retraining program who operated an electronic typewriter programmed to answer questions on further education courses.

The second Student Talent Festival was staged in the theatre adjacent to the exhibit area. A total of 262 talented students from 34 elementary and 33 secondary schools gave public performances of dancing, and vocal and instrumental music.

The Department of Education also participated in the Canadian Education Show-place, the Canadian Restaurant Association and the Heating, Refrigeration and Air-Conditioning shows held at Toronto during 1966 as well as other exhibitions at Niagara Falls and London.

New Programs

With the rapid growth of new activities in the Department a need was seen for increased information guidance and coverage in these areas. A New Programs section was established in December, 1966 to fill this need.

To date, the section has worked with the Applied Arts and Technology Branch and its Colleges of Applied Arts and Technology, Program 4, Ontario Manpower Retraining Program and the various institutes of technology and vocational centres.

The information officer concerned uses the resources of the Information Branch and maintains close liaison with the other Branches, Divisions or Sections involved.

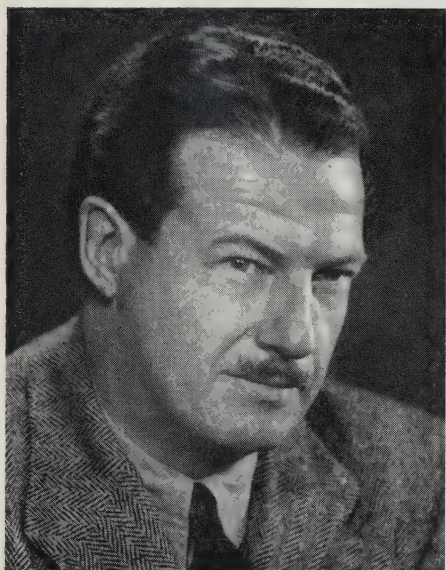

In Memoriam

Z. S. PHIMISTER, B.A., B.Paed., LL.D.

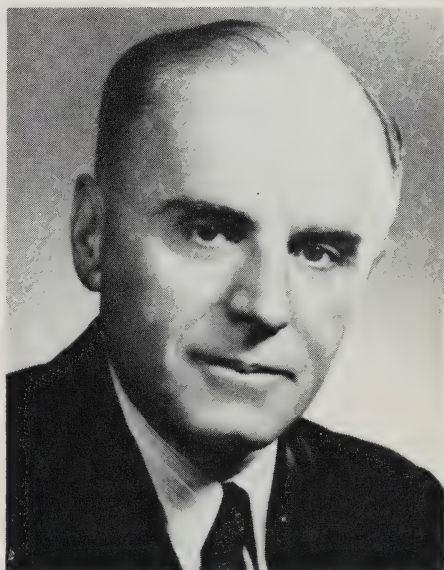

Dr. Z. S. Phimister, B.A., B.Paed., LL.D., died suddenly on November 20 at the height of a career which included service in three of the highest posts in public education in Canada: Director of Education for the City of Toronto, 1958-65, Deputy Minister of Education for Ontario, 1965-66, and President of the Canadian Education Association, 1966. Zac Phimister was a Minister's son and was born in Schreiber, Ontario. His early schooling was in a series of small Ontario towns; his teacher training was obtained at Toronto Normal School; his Bachelor of Arts degree was granted by Queen's University in 1930; his Bachelor of Pedagogy degree was granted by the University of Toronto in 1934. He continued his studies at the University of London, England, and at Columbia University in New York. In 1960 he was awarded the honorary degree of Doctor of Laws by Queen's University. Dr. Phimister taught public school in Toronto and served as an exchange teacher in England in 1931-32. He also had experience as a secondary school teacher in Toronto. He served the Department of Education as an Inspector of Public Schools in Glengarry County, in

1937-38, and in the City of Welland and in Welland County from 1939 to 1942. He served in the Canadian Army from 1942 to 1945 as a Personnel Officer and as an Education Officer, in Canada and in England, and was retired with the rank of Major. He was appointed Superintendent of Public Schools for the Toronto Board of Education in 1945, and served in this position until becoming Director of Education for the same board in 1958. He was appointed Deputy Minister of Education on April 1, 1965, at the time of an extensive internal reorganization of the Department. During his career Dr. Phimister travelled widely, and visited schools in Scandinavia, Western Europe and the U.S.S.R. He was a Commonwealth Visitor in Education to Australia, in 1962. Dr. Phimister held his various offices with distinction, and dedicated his service to the educational progress and improvement of the individual. He encouraged students to give concern to the direction of their individual destinies both in their schools and in their local communities, and to promote better international understanding among their peers in countries around the world. Dr. Phimister will be missed in the educational forums where he gave leadership for many years.

D. G. W. McRAE,
B.A., M.A., F.R.A.I.C.

G. A. PEARSON, B.A.

Douglas G. W. McRae, B.A., M.A., F.R.A.I.C., Supervisor, School Plant Approvals in the Department, died on September 6, 1966. Born in Toronto on January 14, 1908, he attended Upper Canada College, and received a degree in Architecture, with honours, from the University of Toronto. Mr. McRae was awarded the Darling and Pearson Architectural Guild Bronze Medal and the Research Fellowship by Trinity

College, Toronto. Following an outstanding academic career at the University of Toronto, he took post-graduate work at both Oxford and Cambridge Universities and the George Washington University from which he received the Sanders Fellowship in Architecture and his Master's degree of Fine Arts in 1931. Mr. McRae received his Associateship in the Royal Institute of British Architects in 1931 and Vocational Certificate from the Ontario Training College for Technical Teachers, Hamilton in 1932. He was a member of Royal Architectural Institute of Canada, a Fellow in the Royal Architectural Institute of Canada and an Associate of the Royal Institute of British Architects. Beginning his career as a university extension lecturer, Mr. McRae joined the staff of the Western Technical Commercial School in 1932. His teaching career was interrupted by service in the R.C.A.F. as a Flight Officer. Mr. McRae was a teacher in the War Emergency Training Program from 1941 to 1944 and Director of the Toronto Training and Re-establishment Institute from 1944 to 1948. He joined the staff of the Ryerson Institute of Technology in 1948, where he served with outstanding ability as the First Director of Architectural Construction Technology, Registrar and Vice-Principal. In 1958, Mr. McRae established and became the first Principal of the Western Ontario Institute of Technology, Windsor. In 1960, he joined the Department of Education as Assistant Technical Advisor and was appointed Supervisor, School Plant Approvals in 1965 in which capacity he served until his death. Mr. McRae's interest in the Fine Arts is indicated by his varied activities: author of "The Arts and Crafts of Canada"; professional advisor of architectural competitions; annual committee chairman, Royal Architectural Institute of Canada; librarian, Ontario Association of Architects; member of the Architectural Conservancy; and a committee member for the revision of courses of the study in art, Department of Education. A man of outstanding ability, Mr. McRae will long be remembered for his great devotion to the educational and architectural professions.

George A. Pearson, B.A., died suddenly on September 14, after too short a period of well-earned retirement from his position of leadership in the Department as Superintendent of Elementary Education. A tribute to his service was included in the 1963 Report of the Minister, and referred to the tremendous increase in the number of pupils and teachers in the public and separate schools, and in the number of new schools built, during his superintendency. It was a period that brought in new concepts of the job of teacher, of principal and of inspector. Mr. Pearson will be remembered as the wise and capable administrator who served the Province as Superintendent with distinction and quiet dignity.

JOHN M. DONOHUE, B.A., Assistant Superintendent of Secondary Schools, Windsor Board of Education, died on October 11, 1966 after a short illness. Mr. Donohue, born in London, graduated in Arts from the University of Western Ontario in 1929. He began his teaching career at the Warkworth Continuation School in 1934 and moved to the Cobourg Collegiate Institute in 1938. Between 1941 and 1945 he served with the Canadian army, spending eight months in a German prisoner-of-war camp in 1945. He held the rank of Major upon his discharge. Before going to Windsor's Hon. W. C. Kennedy Collegiate Institute in 1953 as Head of the English Department, Mr. Donohue taught for five years in the Medway District High School, London. Between 1960 and 1965 he was Vice-Principal at the Hon. W. C. Kennedy Collegiate Institute and in 1965 became Assistant Superintendent of Secondary Schools, Windsor

Board of Education. Mr. Donohue was an outstanding teacher and a competent administrator. Possessed of a quiet and courteous manner, he was a sincere and warm-hearted man who enjoyed the affection of all who were associated with him.

R. F. DOWNIE, B.A., B.Paed., who retired on August 31, 1945 from the position of Inspector of Public Schools for Peterborough West and Victoria East, died June 13, 1966. A tribute to his service was included in the 1945 Report of the Minister.

WING COMMANDER M. WILSON GALL, B.A., who was teaching at the Eastern Ontario Institute of Technology, Ottawa, died on October 25, 1966. Following graduation from Bishop's University in 1936, he served with the R.C.A.F. and remained in the service until retirement in 1963. During his career, he taught English for four years at the R.A.C.F. Staff College, Toronto. On joining the Institute teaching staff, he endeared himself to his students and colleagues by whom he will be remembered with warm affection.

MRS. MARGARET H. LEE, B.H.Sc., M.S., Master and Dean of Women at Toronto Teachers' College, died on April 1, 1966. Born in Halifax, Mrs. Lee received her elementary and secondary education in Toronto schools. Upon graduation from the University of Toronto with a Bachelor of Household Science degree, she continued her studies at Cornell University and obtained a Master of Science degree. During World War II, she served with the Food Administration Section of the Canadian Red Cross both as national commandant and as overseas commandant. After the war, she became a Home Economics teacher in the secondary schools of Listowel and Whitby. From 1956 until her demise, Mrs. Lee was an energetic Dean of Women and Master of Home Economics at the Toronto Teachers' College. The author of two textbooks in Home Economics and an active member of the University Women's Club, the Canadian Home Economics Association, and the University of Toronto Household Science Alumnae, Mrs. Lee was a member also of the Alpha Gamma Delta Fraternity. Mrs. Lee's teaching skill, sound judgment and wise counsel will long be remembered by her former students and associates.

C. E. MARK, B.A., D.Paed., who retired on July 19, 1948, from the position of Principal, London Teachers' College, died on August 6, 1966. A tribute to his service was given in the 1948 Report of the Minister.

FRANK J. McDONALD, M.A., B.Paed., Ph.D., who retired on October 31, 1963 from the position of Inspector of Separate Schools, Ottawa Division, died on August 13, 1966. A tribute to his service was included in the 1963 Report of the Minister.

FRANÇOIS MOREAU, B.A., B.Paed., Inspector of Separate Schools, R.C.S.S. Ottawa Division No. 3, died suddenly on August 7, 1966. Mr. Moreau was born in the Georgian Bay area in the village of Lafontaine where he received his elementary education. He attended the University of Montreal, graduating with the Bachelor of Arts degree. He attended the Ontario College of Education, securing both the High School Assistant's Certificate and the First Class Elementary School Certificate. He taught at Monteith, the University of Ottawa and the University of Ottawa Teachers' College and served in the Department of Education for five years. He graduated from the

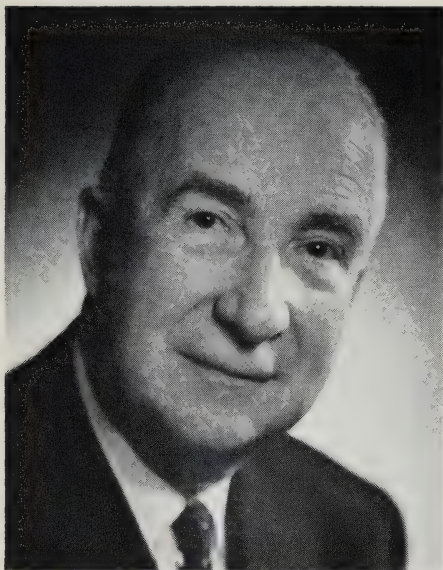

University of Toronto with the Bachelor of Pedagogy degree. In 1942, he was appointed Separate School Inspector of bilingual schools for the Cochrane Division. He was transferred to the North Bay Division in 1950 and from there to Ottawa Division No. 3 in 1963. Mr. Moreau was an industrious and conscientious inspector whose qualities of leadership were recognized and appreciated by the teachers and his confrères.

NORMAN MUIR, B.A., B.Paed., who retired on September 14, 1964 from the position of Inspector of Public Schools, Peel No. 1, died on February 16, 1966. A tribute to his service was included in the 1964 Report of the Minister.

ELWOOD OAKES, B.A., B.Paed., who retired on August 31, 1964 from the position of Inspector of Public Schools, Middlesex No. 3, died on March 15, 1966. A tribute to his service was included in the 1964 Report of the Minister.

JOHN WATSON, M.A., M.Ed., Master, Peterborough Teachers' College, died on November 23, 1966, following a lengthy illness. Born in England, he obtained a Bachelor of Science degree from Manchester University before joining the Royal Navy in 1942. Following three years of service with a Royal Navy Radar Research unit, he resumed his studies, graduating from Edinburgh University with a Master of Arts degree in Psychology. In 1952, he commenced teaching in Edinburgh and emigrated to Canada the following year. Prior to his appointment to the staff of the Peterborough Teachers' College in 1957, he taught elementary school in Tweed and secondary school in Sharbot Lake and Ottawa. An enthusiastic educator, Mr. Watson was an active member of the Ontario Psychological Association, the Canadian College of Teachers, and the Ontario Teachers' College Association. His teaching ability and personal charm will long be remembered by his students and colleagues.

Retirements on Superannuation

H. E. ELBORN, M.A., B.Paed., LL.D.

H. H. KERR, B.A.Sc., B.Paed.,
LL.D., P.Eng., M.E.I.C.

HAROLD E. ELBORN, M.A., B.Paed., LL.D., retired on August 31, 1966, from the position of Assistant Deputy Minister of Education. Dr. Elborn was born in Ardmore, Pennsylvania, of British parents and received his early education in the schools of Stratford, Ontario. Upon graduation from the Stratford Normal School, he commenced his teaching career in a rural school, then moved to London where he taught for six years. Through summer courses and extra-mural study, he completed the requirements for an Honours degree in English and History at Queen's University in 1929, and, in the following year, attended that University and qualified for the Master of Arts degree. In September, 1930, he joined the staff of the Ontario Public Service and took up his duties as Public School Inspector in the Districts of Timiskaming and Cochrane with headquarters at Kirkland Lake. Later, he served as Inspector of Public Schools in Waterloo County, as Editor of Text-books, and as Principal of the Toronto Normal School. Meanwhile, he obtained the Bachelor of Pedagogy degree from the University of Toronto. Appointed Inspector of Professional Training Schools in the Ontario Department of Education in 1948, he became Superintendent of Teacher Education in 1956. He was appointed as a Deputy Minister of Education for the Province of Ontario in April, 1961, and served in that capacity until

January, 1965. Under the reorganized pattern of the Department at that time he became the Assistant Deputy Minister in charge of Instruction, which included supervisory responsibility for elementary and secondary schools, for curriculum, for the Registrar's division, and for teacher education. In 1965, Queen's University conferred upon him an honorary Doctor of Laws degree in recognition of his work in the field of education. A man of integrity and human understanding, Dr. Elborn was highly regarded for his sense of humour, good judgment, teaching skill, sound scholarship, and inspirational leadership. In the minds of Ontario teachers and his professional colleagues, he has made a long-lasting contribution to Canadian education.

HOWARD HILLEN KERR, B.A.Sc., B.Paed., LL.D., P.Eng., M.E.I.C., retired as Principal of the Ryerson Polytechnical Institute on July 1st, 1966.

Born and raised in Seaforth, Ontario, Dr. Kerr was a member of the famous class of '22 in the University of Toronto's Faculty of Applied Science and Engineering. After some years in industry, Dr. Kerr started teaching in Galt and by 1940 had been Director of the Technical Department of the Oshawa Collegiate and Vocational School for 10 years.

Appointed Director for Ontario of the Dominion-Provincial War Emergency Training Program in 1940, Dr. Kerr was responsible for the training of some 53,000 industry and armed forces personnel. At the close of the War, he became Director for Ontario of the "Rehab" Program for some 32,000 ex-service men and women in nine centres across the Province.

Out of the Rehab Program grew the concept of the Ryerson Institute of Technology, and Dr. Kerr in 1948 became Ryerson's first Principal. Universally known around the Institute as "H.H.", Dr. Kerr was noted for his Nelson-like ability to turn a blind eye to unfavourable signals from any and all quarters. His drive, determination and leadership carried the Institute from ramshackle buildings, an enrolment of 200 students, and a somewhat mixed curriculum to a huge modern complex, an enrolment of 4,500 day students, and courses known and respected across the country.

In 1959 Dr. Kerr was awarded the Gold Medal of the Professional Institute of the Public Service of Canada. In 1963, the University of Toronto conferred on him the degree of Doctor of Laws for his contributions to education.

Dr. Kerr's retirement will be fairly active, since he is Chairman of the Ontario Council of Regents for Colleges of Applied Arts and Technology, a member of the Board of Trustees of the Ontario Centennial Project, and a member of the Defence Research Board.

J. WESLEY BARBER, B.A., B.Paed., retired on September 30, 1966, from the position of Inspector of Public Schools for Lanark No. 1. Born in Wellington County, he received his early education in a rural school in the Township of Nichol and in secondary schools in Elora and Fergus. A graduate from the Hamilton Normal School in 1925, he was awarded the Bachelor of Arts degree from Queen's University in 1937 and the Bachelor of Pedagogy degree from the University of Toronto in 1943. For three years Mr. Barber taught at a rural school in Waterloo County and was appointed principal of a public school in Wallaceburg for two years. He was Supervising Principal of the Renfrew Public School for eleven years. In 1941 Mr. Barber was appointed Public

School Inspector for Lanark County where he worked continuously for 25 years. He will be remembered with appreciation by the many trustees, teachers and students to whom he gave kindly guidance.

MISS F. LUELLA BARRIGAR, B.A., L.Mus., L.R.S.M., Master at Ottawa Teachers' College, retired on August 31, 1966. Born near Brockville, she attended a rural school at Bellamy, Leeds County and received her secondary school education in North Augusta. Upon graduating from Ottawa Normal School in 1922, she taught in a Carleton County rural school. In 1924 Miss Barrigar was appointed to the staff of the Ottawa Normal School as an Instructor of Physical Education. While teaching, she obtained a Bachelor of Arts degree from Carleton University, a Licentiate of Music from McGill University and a Licentiate of the Royal Schools of Music from the Royal Schools of Music, London, England. During the many years she taught Music and Physical Education at the Ottawa Teachers' College, Miss Barrigar was an inspiration to thousands of young teachers. Her fine personal qualities and her dedication to teacher education will long endear her to former students and associates.

KEITH O. BIRKIN, M.A., B.Paed., retired on December 31, 1966 from the position of Public School Inspector, Peterborough No. 1, following more than 42 years of service as a Department of Education employee. A native of Hespeler where he received his elementary education, he attended Galt Collegiate Institute and Hamilton Normal School. Mr. Birkin was granted the Bachelor of Arts degree by Queen's University; the Bachelor of Pedagogy degree by the University of Toronto and the Master of Arts degree by the University of Ottawa. After teaching for a brief period in a one-room school at Muskoka, he was appointed to the staff of the Ottawa Normal-Model School in 1924. In 1939 he was appointed Public School Inspector in the Inspectorate of Lennox and Hastings South. From 1944 until 1946 he served as a Master on the Peterborough Normal School staff and in September, 1946 became Public School Inspector for Peterborough and Northumberland Counties in part. During 1966 he served as Inspector for Peterborough County School Area, one of the first such areas in Ontario, and one which he worked diligently to establish. Mr. Birkin worked with trustees to provide modern facilities for education and with teachers for in-service programs to help improve educational practice. He will be remembered by both groups as a leader in education.

RUSSELL M. BUIE, B.A., B.Paed., retired on August 15, 1966, as Superintendent of Public Schools for the City of Kitchener after 42 years service in the field of education. Mr. Buie, born in Stayner, Simcoe County, attended elementary and secondary schools in that area. He attended Hamilton Normal School and taught for two years in S.S. #23 Nottawasaga. From September, 1927 to June, 1935, Mr. Buie taught in East York and in September, 1939, was appointed Principal of Danforth Park School. On November 3, 1946 Mr. Buie came to Kitchener as Inspector of Public Schools. As the system grew, he was appointed Chief Inspector and later Superintendent of Public Schools. His sage advice and sound supervision of teachers and principals marked the growth of the Kitchener Public School System. On September 1, 1966, Mr. Buie joined the staff of the Department of Northern Affairs to be the Area Superintendent of the Mackenzie District with office at Inuvik.

KATHARINE B. DALY, B.A., retired on August 31, 1966, from the position of Home Economics teacher at the Ontario School for the Deaf, Belleville, after 40 years of devoted service. Miss Daly was born in Napanee where she received her elementary and secondary education. She joined the staff of the Ontario School for the Deaf in 1926 following graduation from the University of Toronto with a degree in Home Economics and from Ottawa Normal School. She originally taught a junior academic class and qualified for the certificate of teacher of the deaf in 1929. Miss Daly began teaching Home Economics to senior girls in 1930 and continued in this capacity until her retirement, except for two years during World War II when she taught a class of deaf children in Hamilton. The good housekeeping of innumerable deaf housewives and career girls is a tribute to the instruction Miss Daly provided through the years.

SIDNEY GEIGER, B.A., retired as Public School Inspector for Manitoulin No. 1 and Sudbury No. 3 in June, 1966. Born at Zurich, Huron County, he received his elementary education at Hensall Public School and his secondary schooling at Exeter Continuation School and Seaforth Collegiate. Upon graduating from the Toronto Faculty of Education with a First Class Public School Certificate and a Type "B" High School Certificate, he taught near New Liskeard. Following discharge from the army after World War I, he engaged in farming and flax-mill operations, and for one year did research on flax in the United States. Returning to the teaching profession in 1923, Mr. Geiger served as Principal of Webbwood, Espanola and Sturgeon Falls Public Schools. Appointment as Inspector of Public Schools of District Division VIII with headquarters in Gore Bay followed shortly after he received his Bachelor of Arts degree from Queen's University in 1939. His energy and organizing ability lead to the development and extension of a transportation system to district high schools and to the public schools in the area. Mr. Geiger will be remembered for his understanding of school problems, his kindly encouragement to teachers and pupils, his service to boards, and his general devotion to the cause of education.

DOUGLAS W. GORDON retired on October 1, 1966, from the position of Inspector of Schools following 39 years as an Industrial Arts teacher and inspector. He received his elementary and secondary education in Port Credit and attended Toronto Normal School. He taught in a York Township elementary school from 1926 to 1928. In 1929, he qualified as a teacher of Manual Training at the Ontario Training College for Technical Teachers and for the next nine years taught in the Ingersoll Collegiate Institute. In 1939, he was appointed Inspector of Manual Training. Mr. Gordon contributed greatly to the growth of Industrial Arts and its transformation from Manual Training to a broader, more significant subject. His superior ability was recognized on an international level when he was made a life member of Epsilon Pi Tau, the Industrial Arts and Vocational Education organization. He will be remembered for his loyalty on behalf of the subject to which he devoted a lifetime of service.

JAMES E. HORTON, B.A., B.Paed., retired on October 31, 1966 from the position of Inspector of Schools for Frontenac No. 2. Born in Elizabeth Township in Leeds County, Mr. Horton received his elementary education in New Dublin and then attended Brockville Collegiate. After attending the Normal School in North Bay in 1924, he taught in rural schools and at Brockville, Timmins and Cochrane Public Schools. A graduate of Queen's University, he was appointed Public School Inspector

in Kirkland Lake in 1940. He was awarded the Bachelor of Pedagogy degree by the University of Toronto. In 1944 he was transferred to Simcoe South, and on September 1, 1948, to Frontenac No. 2 where he served until his retirement. His kind manner, wise practical philosophy of life and zealous devotion to the cause of education at all levels, have earned the highest respect and admiration of his colleagues and friends.

J. EARL JOHNSTON, B.A., Superintendent of Secondary Schools for the Sarnia Board of Education, retired on June 30, 1966. Born near Winchester, Ontario, Mr. Johnston attended elementary and secondary schools there. He graduated from McMaster University in 1924 with the degree of Bachelor of Arts. After attending the Ontario College of Education in 1924-25, he taught Mathematics and Physical Education at Owen Sound until 1937 when he moved to Sarnia to teach in the Commercial Department as a Commercial Specialist. In 1947 Mr. Johnston was appointed Vice-Principal at the Sarnia Collegiate Institute and Technical School. He was promoted to Principal and Superintendent of Secondary Schools in 1954. The duties of the office of Superintendent required his complete attention from 1956 at which time he relinquished the duties of Principal. Throughout his career Mr. Johnston has given active leadership, not only in professional, but in community affairs, and has held many positions of responsibility in both fields. As a teacher and as an administrator, Mr. Johnston has won the respect and admiration of both colleagues and students.

WILLIAM T. LAING, B.A., retired on August 31, 1966 from the position of Area Superintendent, Area 4 of the Department of Education. Born in Perth County, he obtained his elementary and secondary education in Seaforth. After teaching for five years in rural elementary schools in Southwestern Ontario, Mr. Laing obtained his Bachelor of Arts degree in Honours Mathematics and Physics from Queen's University. In 1934 he was appointed Principal of Wallaceburg High School, the position which he held at the time of his appointment in 1950 as the first District Inspector of Secondary Education. In 1961 he was appointed Assistant Superintendent of Secondary Education in charge of the newly created Western Ontario Division of the Department of Education with headquarters in London. In 1965, when area offices of the Department of Education were established, Mr. Laing became Area Superintendent of Area 4 with his office in London. He was honoured by the Wallaceburg Public School Board in 1956 by the naming of the "W. T. Laing Senior Public School". In the wider sphere of education throughout the province of Ontario, Mr. Laing's influence and guidance during forty-one years of dedicated service will be recalled warmly and affectionately by all who knew him as teacher, inspector and administrator.

CLARE W. MAEDEL, B.A., B.Paed., retired on June 30, 1966, from the position of Inspector of Public Schools for the City of Toronto. Mr. Maedel, born in Norwich, Oxford County, attended the Norwich Public and Continuation Schools and the Woodstock Collegiate Institute. He attended Toronto Normal School and spent his entire professional career in Toronto, as a teacher from 1921 to 1935, as a principal of four schools between 1935 and 1954 and as Inspector of Public Schools from 1954 until his retirement. He began university studies at Queen's and later transferred to the University of Toronto from which he graduated with the Bachelor of Arts degree and, subsequently with the Bachelor of Pedagogy degree. Mr. Maedel became known in the teaching profession as Treasurer of the Ontario Educational Association, which posi-

tion he held for twenty years. During this time he was in charge of collecting and investing funds for the V. K. Greer Memorial Award. The many friends of Mr. Maedel wish him a long and rewarding retirement following the many years of educational leadership which he has given to the Toronto Public Schools.

ALLAN A. MARTIN, B.A., B.Paed., retired on August 31, 1966, from the position of Inspector of Schools for Peel No. 2. Mr. Martin was born in Durham County and attended public schools in Clarke Township and the Newcastle and Bowmanville High Schools. He graduated from the Faculty of Education in 1915 with a First Class Public School Certificate and a High School Assistant's Certificate. Mr. Martin served in the Royal Flying Corps and the Royal Air Force during the First World War. He taught in rural schools in Clarke Township, and in Dewson Street Public School in Toronto. After obtaining his Bachelor of Arts and Bachelor of Pedagogy degrees extra-murally, from the University of Toronto, he obtained his Public School Inspector's Certificate in 1928 and was appointed a Public School Inspector in 1929 by the united counties of Northumberland and Durham. In 1951 he moved to South Peel and for the past 15 years inspected schools in Peel County although, with the formation of municipal inspectorates, his area underwent several changes. The teachers, trustees and pupils with whom he was associated will remember with kindness his unceasing and boundless efforts on behalf of better education.

A. G. MCCOLL, B.A., Superintendent of Secondary Schools for the Board of Education, London, retired on June 30, 1966. Mr. McColl, born at West Lorne, Elgin County, received his secondary school education at the Dutton High School. He graduated from Queen's University with an Arts degree in Economics and History. He taught at the Belmont Continuation School, Port Arthur Technical and Commercial High School, and Westdale Secondary School, Hamilton. He served, as Principal at the Kirkland Lake Collegiate and Vocational Institute and the Niagara Falls Collegiate and Vocational Institute. Mr. McColl is well known for his activity as Research Director with the Canadian Education Association. His publications concerning education have been distributed to all Departments of Education across Canada. He was an active participant in several professional and service clubs. On January 1, 1956, he was appointed Superintendent of Secondary Schools, London, Ontario, where through his outstanding administrative ability, he made a distinctive contribution to education. A dignified sense of humour coupled with sound judgment earned him the respect of all his associates. As evidence of his leadership qualities, he has been appointed, since retirement, to the position of Secondary School Liaison Officer for the University of Western Ontario, in which capacity he will continue to serve education.

CECIL E. MCMULLEN, B.A., B.Ed., retired on October 16, 1966 from the position of Inspector of Schools for Hastings No. 5. He was born in Tyrone, Ontario and attended high school in Belleville. Upon graduating from the Peterborough Normal School, he taught in Belleville. After receiving the Bachelor of Arts degree from Queen's University, he taught at the Model Normal School in Toronto. During the Second World War he served in the Royal Canadian Air Force and retired with the rank of Squadron Leader. In 1945 he was appointed Assistant Public School Inspector in Essex County, and in 1947 was appointed Inspector in Stormont County. He was transferred to Hastings No. 5 and Northumberland No. 4 in 1956, serving here until his retirement.

Mr. McMullen's pleasant and sincere manner was appreciated by those teachers and colleagues privileged to experience his helpfulness.

MILTON F. PUMMELL, B.A., B.Paed., Director of Education, St. Catharines Board of Education, retired on July 31, 1966. Born in Stratford, he received his elementary education in Stratford and Brantford and graduated from Brantford Collegiate Institute. Following attendance at Hamilton Normal School, Mr. Pummell joined the teaching staff at Sandwich in September, 1924. He was promoted to Principal of Prince of Wales School, Sandwich, and in 1931 was appointed Supervising Principal of Sandwich Public Schools. Following amalgamation of Windsor, Sandwich, Walkerville and East Windsor in 1937 he was appointed Principal of Marlborough Public School, Windsor. In 1940 Mr. Pummell was appointed to the position of Inspector of Public Schools in St. Catharines. In 1945 he was appointed Superintendent of Public Schools and acted in this capacity until July 1, 1961, when he assumed the position of Director of Education. During his teaching years, Mr. Pummell obtained a Bachelor of Arts degree from Queen's University and a Bachelor of Pedagogy degree from the University of Toronto. He also held a High School Assistant's Certificate from Ontario College of Education. Dedicated to the cause of education, Mr. Pummell has earned the deep gratitude and marked respect of the people of St. Catharines where he served for more than twenty-five years.

ROGER SAINT-DENIS, M.A., Ph.L., Master at the University of Ottawa Teachers' College, retired on June 30, 1966. Born in Ottawa, Mr. Saint-Denis received his elementary and secondary school education in that city. Upon graduating from the University of Ottawa with a Bachelor of Arts degree and a Licentiate in Philosophy, he attended the Ontario College of Education. In 1921 he commenced teaching at the University of Ottawa in the Commercial Department. In 1924 he became Principal of Garneau Separate School, Ottawa. He was appointed to the staff of the University of Ottawa Teachers' College when it was instituted in 1927. He continued to serve there until his retirement. During his long and distinguished career in the field of education, Mr. Saint-Denis was an active member of many societies and associations: l'Alliance française d'Ottawa, la Société des Conférences de l'Université d'Ottawa, la Société historique d'Ottawa, the Ottawa Film Council, l'Association canadienne-française d'Education de l'Ontario, le Cercle Universitaire, and the Province of Ontario Council for the Arts. He is a distinguished Canadian Artist. His pastels of scenes in the Ottawa Valley are delightful. In 1959-60 he served as President of the Ontario Education Association. Mr. Saint-Denis will long be remembered for his teaching skill, sound scholarship, personal integrity and his steady interest in the improvement of French instruction for French-speaking pupils in elementary schools.

MRS. J. K. THURLOW, M.A., Master at the Stratford Teachers' College, retired on July 4, 1966. Born in Keewatin, Lake of the Woods District, Mrs. Thurlow received her elementary and secondary school education in Manitoba and Alberta. Upon graduating from the Normal School at Camrose, Alberta, she commenced teaching in a rural school. After relocating in Toronto, she enrolled at the University of Toronto and obtained a Master of Arts degree in Psychology. Prior to her appointment to the staff of the Stratford Teachers' College in 1957, she served for nine years on the staff of Alma College, St. Thomas. Mrs. Thurlow's contribution to teacher education was

marked by sincerity and integrity, and she will be remembered with warm affection by the student teachers to whom she gave leadership and guidance.

J. D. TOOGOOD, B.A., retired as Inspector of Public Schools, Scarborough Board of Education in June, 1965. He had held this position for seven years, during which term he had given outstanding leadership in the field of Mathematics and in Special Education. Born in Tillsonburg, Mr. Toogood attended elementary and secondary schools in that area, and Hamilton Teachers' College. For a brief period he taught in St. Catharines, but spent most of his career in Toronto, where he taught at Wilkinson and Lord Dufferin Public Schools. During the Second World War Mr. Toogood served with the Canadian Forces, attaining the rank of Major. Prior to his appointment as Inspector, he was Principal of Centennial Road Public School, Scarborough Township. Mr. Toogood, in his work with teachers, was noted for his kind but firm advice. His suggestions to teachers for improvement of instructional techniques and broadening of curricular background were of a very high order.

GEORGE A. TRUSLER, B.A., B.Paed., retired on August 31, 1966, from the position of Inspector of Public Schools for York Board of Education. Born in the village of Camlachie in Lambton County, he attended a rural school in Plympton Township, and the Forest High School. Following graduation from the Toronto Normal School, he taught at rural schools in Euphrasia Township and in Toronto Township. He moved to York Township in 1925 where he has remained for the past 41 years. He served as a teacher and principal (Humewood Public School) from 1925 to 1960, and as Inspector of Public Schools from 1960 until his recent retirement. Mr. Trusler obtained both his Bachelor of Arts and Bachelor of Pedagogy degrees from the University of Toronto. The best wishes of his many friends follow him as Mr. Trusler enters another interesting phase of a distinguished career.

E. RAY UNDERHILL, B.A., retired on August 31, 1966 from the position of Inspector of Public Schools, Peel No. 1. He attended elementary and secondary schools at Aylmer and graduated from London Normal School in 1923. He obtained his Bachelor of Arts degree from Queen's University, and took several post-graduate courses from the University of Toronto. Upon graduation he spent sixteen years as a teacher and principal of the public schools in Belmont, Harrow and Arnprior. In 1939 he was appointed Public School Inspector for Nipissing No. 5 and Parry Sound No. 1 with headquarters in North Bay. He was transferred to Huntsville in 1940 and then to Brampton in 1944 where he has been located for the past twenty-two years. Mr. Underhill is not retiring from active service, but is entering the services of Chinguacousy Township School Area Board as a Municipal Inspector. The best wishes of all his associates go with him as he enters this new phase of a most active and satisfying career.

F. G. WALKER, B.A., B.Ed., Master at the London Teachers' College, retired on October 25, 1966. Born in North Grimsby Township, Niagara Peninsula, he attended a rural school and Grimsby High School. After graduating from Hamilton Normal School, he commenced teaching in a rural school north of Sault Ste. Marie. Later, he taught in Wentworth County then served as Principal of Van Wagner's Beach School, where he introduced the new "Enterprise Method" of teaching and became known as an authority in its use. He obtained Specialist standing in both Art and Industrial Arts, a Bachelor of Arts degree from the University of Western Ontario and a Bachelor of

Education degree from the University of Toronto. In 1947, Mr. Walker was appointed Instructor of Industrial Arts at Stratford and London Normal Schools, and later served as Master at the London Normal School. More recently, he worked in the subject fields of School Management and Mathematics. Mr. Walker's outstanding skill as a teacher and counsellor will be remembered by his former students and colleagues.

EARLE J. D. WEBSTER, B.A., B.Paed., retired on July 1, 1966 as Inspector of Public Schools in Durham No. 1, Bowmanville. He was appointed in 1950 to the Inspectorate of Oshawa and Durham and later served in Welland County before returning to Durham in 1961. Mr. Webster, born in Huron County, received his public and secondary education at Seaforth. He attended Stratford Teachers' College and was awarded the Bachelor of Arts and Bachelor of Pedagogy degrees from the University of Toronto. He served for twenty years as a public school principal, and completed service in that capacity in Ajax during the period 1942-46. In 1946-47 he was Assistant Director, Universities Adult Education Board, and from 1947 to 1950 served as District Representative, Community Programs Branch, Department of Education. He was particularly interested in the teaching of English and wrote several text-books for elementary school use. Mr. Webster's effective efforts to raise the standard of teaching wherever he served were carried out in a quiet, pleasant manner. His contribution to education will be recalled with appreciation by the many pupils, teachers, trustees and parents with whom he was associated.

GORDON J. WESTWOOD, B.A., retired from the position of Assistant Registrar, Department of Education on February 7, 1966. Mr. Westwood was born and educated in Toronto, attending Davenport High School and Oakwood Collegiate Institute. The degree of Bachelor of Arts was conferred on him by the University of Toronto in 1930. During the summers of his undergraduate years, he was employed as a senior assistant in the Department. In 1931, Mr. Westwood was appointed to the staff of the Registrar's Branch. He became Assistant Registrar in 1950. During his term of office, there was vast expansion in the field of teacher certification, diplomas, and examinations. He was responsible for many innovations and modifications in the processing of examination papers. A quiet sincerity and a vital concern in educational matters contribute to the great respect in which he is held by school administrators across the Province and by former Departmental colleagues.

T. CLEMENT WHITE, B.A., B.Paed., LL.D., retired from the position of Director of Education for the City of Windsor on July 31, 1966. Dr. White began his teaching career in Moore Township and after one year moved to Sarnia where he served as teacher and principal. From 1931 to 1937 he taught high school in Saskatoon, Saskatchewan. Returning to Sarnia, he was appointed Inspector of Public Schools, and served in this position from 1938 until 1944. Dr. White then joined the Department of Education staff and was appointed Inspector for Welland East with headquarters in Niagara Falls. In 1946 he was appointed Inspector of Public Schools for the city of Windsor, Superintendent in 1950, and Director of Education in 1956. He worked resolutely in the cause of education and in the interests of his community. His logic, keen analysis, energy and dedication enabled him to accomplish significant achievements. Dr. White's contribution to education was recognized when an honorary Doctor of Laws degree was conferred on him by Queen's University.

TABLE 3.5—CERTIFICATES AND DIPLOMAS, 1966

A—STATEMENT OF STANDING, CERTIFICATE OF STANDING, AND CERTIFICATE OF TRAINING

1. STATEMENT OF STANDING

(a) Secondary Schools:

Issued by the principal, **upon request of pupils** who have left a secondary school, and who have completed successfully Grades 9 and 10 of the Four-Year or Five-Year Program in one of the Branches:

Continuing Program.....	1,033	
Reorganized Program.....	14,744	15,777

(b) Elementary Schools:

Issued to pupils who have completed successfully Grades 9 and 10 in an elementary school.

Grades 9 and 10 of Public Schools.....	208	
Grades 9 and 10 of Roman Catholic Separate Schools.....	6,701	6,909

2. CERTIFICATE OF STANDING

Issued to pupils who have completed successfully Grades 9 and 10 of the Two-Year Program in a secondary school.

Two-Year Program.....	1,388	1,388
-----------------------	-------	--------------

3. CERTIFICATE OF TRAINING

Issued to pupils who have completed successfully a One- or Two-Year course of study in the Occupational Program in a secondary school.

Occupational Program.....	4,882	4,882
		28,956

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare. These reports give the number of families transferring accounts into and out of each province. The data are compiled for a census year, June to May up to and including 1958-59 but for the school year thereafter. In order to show the number of children rather than families, the average for Canada—2.48 children per family—has been used as a multiplier.

- Curriculum I. 1(e), Intermediate Division Science (Grades 7-10) 1965.
- Curriculum I. 3 & S. 5, Guidance in the Intermediate and Senior Divisions, 1963.
- Curriculum I. 4, Reading List for the Intermediate Division (Grades 7-10) 1964.
- Curriculum I. 4A, Supplement to Intermediate Division Reading List (Grades 7-10) 1964.
- Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, (Grades 7-10), 1965.
- Curriculum I. 6, Intermediate Division Home Economics, 1965.
- Curriculum I. 7 & I. 9, Geography, History and Government, Social Studies, Intermediate Division, 1964.
- Curriculum P. & J. 4, Primary and Junior Divisions Reading List, 1963.
- Curriculum P. & J. 4(b), Primary and Junior Divisions Reading List, 1963.
- Curriculum P. 5, Physical Education, Primary Division, 1965.
- Curriculum J. 5, Physical Education, Junior Division, 1965.
- Curriculum I. 12A, Intermediate Division Mathematics, (Grade 7) 1963.
- Curriculum I. 12B, Intermediate Division Mathematics, (Grade 8) 1965.
- Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1964.
- Curriculum P1, J1—Interim Revision—Mathematics 1966.
- Curriculum P1, J1—Interim Revision—Art 1966.
- Curriculum P1, J1—Interim Revision—English 1966.
- Curriculum K: 1—Kindergarten.
- Curriculum I: 29—Physical and Health Education—Intermediate Division.
- Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.

B. REVISION OF CURRICULUM

- Curriculum 2, Promotion from Grade 8 and Admission to Grade 9, 1965.

C. COURSES OF STUDY

Grades 9 to 13

- Circular H.S. 1, Requirements for Certificates and Diplomas, issued annually. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas and Secondary School Honour Graduation Diplomas.
- Circular H.S. 1B, List of Publications re Courses of Study (Grades 9-13) issued annually. Lists Circular Numbers and Titles of the various Courses of Study.
- Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10) 1965.
- Curriculum S. 4A, Reading List for Senior Division (Grades 11-13) 1964.
- Curriculum S. 4AC, Supplement to Senior Division Reading List (Grades 11-13) 1964.
- Curriculum S. 8, Grade 13 Curriculum Bulletin, 1966.
- Curriculum I. & S. 15, Intermediate and Senior Divisions Modern Languages (Grades 9-13) 1963.
- Curriculum I. & S. 16, Music (Grades 9-13) 1965.
- Courses in the various subjects of Grades 11, 12 and 13. These should be requested by subject and grade.
- Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1964.
- Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.
- Circular 58, Prescriptions in English and Modern Languages for Grade 13 Departmental Examinations, issued annually.

D. TEACHING AIDS

Art

- Art and Crafts in the Schools of Ontario, 1962.
- Art Education in the Kindergarten, 1962.
- Art Education for Slow Learners, 1965.
- Art Education during Adolescence, 1965.
- Children and Their Pictures, 1963.

Southwestern.....	463,323	39	23,965	1,291,524	2.80
Total (14 Regions).....	6,496,035	449	779,282	437,175	17,888,008	2.75

Regional Library Co-operatives are established under Part III of the Public Libraries Act and are designed to provide and encourage co-operative services among member libraries.

*A board for this region had not been formed in 1965, but the information has been included for the purpose of comparison.

(1) Member libraries listed are totals for the region and do not necessarily participate in all services. (2) Headquarters circulation and (3) expenditure are unduplicated; they do not include totals reported elsewhere. (4) Total of all public library expenditure in the region, and (5) expenditure per capita for the region.

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas and for the use of schools for practice teaching.

(2) Commencing with 1963, the former special grants were incorporated into the general legislative grant. The legislative grants for 1955, 1956 and 1957 are special per pupil grants. The legislative grants for 1961, 1962 and 1963 are the Residential and Farm School Tax Assistance Grant. The latter grant was incorporated into the general legislative grant in 1964. The amount shown for 1964 is in respect of the 1963 Grant.

NOTE: During the calendar years 1962, 1963, 1964, 1965 and 1966, payments in the amounts \$116,880,945, \$108,645,957, \$24,209,090, \$25,578,365 and \$72,496,797 respectively were made for the construction and equipment of vocational accommodation under the terms of the Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario.

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

TABLE 8.32—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE TERRITORIAL DISTRICTS 1965-1966

The Province of Ontario provided transportation assistance to 1,118 students during the school year 1965-66. \$28,935.55 was paid to 729 students residing east of Sault Ste. Marie and 389 students residing west of Sault Ste. Marie. Of those assisted 423 were in the first year, 316 in the second year, 252 in the third year, 115 in the fourth year, 5 in the fifth year and 7 in the sixth year.

The institutions attended by these students were as follows:

Queen's University	221	Ontario College of Education	13
Western University	227	Osgoode Hall Law School	13
University of Toronto	188	Waterloo University College	19
Assumption University of Windsor	131	Ontario College of Art	5
University of Ottawa	55	Carleton University	8
University of Waterloo	115	York University	30
Federated Colleges of the Ontario		Trent University	2
Department of Agriculture	45	Lakehead University	3
McMaster University	38	Althouse College of Education	5
Total			1,118
